Lessons from Problem-based Learning H. J. M. van Berkel, 2010 Problem based learning PBL has excited interest among educators around the world for several decades Among the most notable applications of PBL is the approach taken at the Faculty of Health Medicine and Life sciences FHML at Maastricht University the Netherlands Starting in 1974 as a medical school the faculty embarked on the innovative pathway of problem based learning trying to establish a medical training program which applied recent insights of education which would be better adapted to the needs of the modern physician The medical school currently part of the FHML can be considered as an established school where original innovations and educational changes have become part of a routine The first book to bring this wealth of information together Lessons from Problem based Learning documents those findings and shares the experiences of those involved to encourage further debate and refinement of problem based learning in specific applications elsewhere and in general educational discussion and thought Each chapter provides a description of why and what has been done in the Maastricht program followed by reflection on the benefits and issues that have arisen for these developments The final section of the book examines the application of PBL in the future and how it is likely to develop further

Primer on Urology Christopher

R. Chapple, Alan J. Wein, 2025-07-23 The Primer on Urology is an entirely new approach to reviewing the field of urology. The principle is to cover the whole subject of urology in an up to date textbook with not only chapters written by key opinion leaders within Europe but also a significant commentary on each section from a senior North American urologist. The book is based on the European Association of Urology Guidelines which are updated regularly with a new release every year. This will be a valuable book for anybody interested in urology but is designed in particular for the resident as well as the practising urologist who wants a crisp update of the latest developments in the field as well as the basic knowledge all of which is succinctly presented with reference to the latest evidence based approach to the subject.
