The Penumbra Unbound:

The Penumbra Unbound Brook Ziporyn, 2012-02-01 The Penumbra Unbound is the first English language book length study of the Neo Taoist thinker Guo Xiang d 312 C E commentator on the classic Taoist text the Zhuangzi The author explores Guo s philosophy of freedom and spontaneity explains its coherence and importance and shows its influence on later Chinese philosophy particularly Chan Buddhism The implications of his thought on freedom versus determinism are also considered in comparison to several positions advanced in the history of Western philosophy notably those of Spinoza Kant Schopenhauer Fichte and Hegel Guo s thought reinterprets the classical pronouncements about the Tao so that it in no way signifies any kind of metaphysical absolute underlying appearances but rather means literally nothing This absence of anything beyond appearances is the first premise in Guo s development of a theory of radical freedom one in which all phenomenal things are self so creating and transforming themselves without depending on any justification beyond their own temporary being

The Penumbra Unbound Brook Ziporyn, 2003-03-18 Explores the work of Guo Xiang a Neo Taoist thinker who developed a radical philosophy of freedom and spontaneity

Against Identity Alexander Douglas, 2025-06-19 A philosopher explains why the search for identity is meaningless and how we should escape the self Modern life encourages us to pursue the perfect identity Whether we aspire to become the best lawyer or charity worker life partner or celebrity influencer we emulate exemplars that exist in the world hoping it will bring us happiness But this often leads to a complex game of envy and pride We achieve these identities but want others to imitate us We disagree with those whose identities contradict ours leading to polarisation and even violence And yet when they thump against us we are ashamed to ring hollow In *Against Identity* philosopher Alexander Douglas seeks an alternative wisdom Searching the work of three thinkers ancient Chinese philosopher Zhuangzi Dutch Enlightenment thinker Benedict de Spinoza and 20th Century French theorist Ren Girard he explores how identity can be a spiritual violence that leads us away from truth Through their worlds and radically different cultures we discover how at moments of historical rupture our hunger for being grows and yet it is exactly these times when we should make peace with our indeterminacy and discover the freedom of escaping our selves

Critique, Subversion, and Chinese Philosophy Hans-Georg Moeller, Andrew K. Whitehead, 2020-11-12 Bringing together a number of case studies this book shows how from early on Chinese philosophical discourses unfolded through innovation and the subversion of dominant forms of thinking Narrowing in on the commonplace Chinese motto that the three teachings of Confucianism Daoism and Buddhism are joined into one as if there had never been any substantial differences between or within these schools of thought a team of esteemed contributors challenge established views They explain how the Daoist tradition provided a variety of alternatives to prevailing Confucian master narratives reveal why the long history of Confucianism is itself full of ambiguities disputes and competing ideas and discuss how in Buddhist theory and practice the subversion of unquestioned beliefs and attitudes has been a prime methodological and therapeutic device By drawing

attention to unorthodox voices and subversion as a method this exciting collection reveals that for too long the traditional division into three teachings has failed to do justice to the diversity and subtlety found in the numerous discourses constituting the history of Chinese philosophy Critique Subversion and Chinese Philosophy finally makes such innovative disruptions visible

The Daode Jing Commentary of Cheng Xuanying Friederike Assandri, 2021 This book presents for the first time in English a complete translation of the Expository Commentary to the Daode jing written by the Daoist monk Cheng Xuanying in the 7th century CE This commentary is a quintessential text of Tang dynasty Daoist philosophy and of Chongxuanxue or Twofold Mystery teachings Cheng Xuanying proposes a reading of the ancient Daode jing that aligns the text with Daoist practices and beliefs and integrates Buddhist concepts and techniques into the exegesis of the Daode jing Building on the philosophical tradition of Xuanxue authors like Wang Bi Cheng read the Daode jing in light of Daoist religion Cheng presents Laozi the presumed author of the Daode jing as a bodhisattva like sage and savior who wrote the Daode jing to compassionately guide human beings to salvation Salvation is interpreted as a metaphysical form of immortality reached by overcoming the dichotomy of being and non being and thus also life and death Cheng's philosophical outlook ties together the ancient text of the Daode jing and contemporary developments in Daoist thought which occurred under the influence of an intense interaction with Buddhist ideas The commentary is a vivid testimony of the integration of Buddhist thought into an exegesis of the ancient classic of the Daode jing and thereby also into Chinese philosophy Friederike Assandri frames this new translation with an extensive introduction providing crucial context for a new reading of the Daode jing It includes a biography of Cheng Xuanying a discussion of the historical and political context of Daoism in early medieval China in the capital Chang'an and a discussion of Cheng's philosophy in relation to the interaction of Daoism and Buddhism This commentary is essential reading for students and scholars interested in the history of Chinese philosophy Daoist thought and the reception of Buddhism in China

Translation as Citation Haun Saussy, 2017 This volume examines translation from many different angles it explores how translations change the languages in which they occur how works introduced from other languages become part of the consciousness of native speakers and what strategies translators must use to secure acceptance for foreign works Haun Saussy argues that translation doesn't amount to the composition in one language of statements equivalent to statements previously made in another language Rather translation works with elements of the language and culture in which it arrives often reconfiguring them irreversibly it creates with a fine disregard for precedent loan words calques forced metaphors forged pasts imaginary relationships and dialogues of the dead Creativity in this form of writing usually considered merely reproductive is the subject of this book The volume takes the history of translation in China from around 150 CE to the modern period as its source of case studies When the first proponents of Buddhism arrived in China creativity was forced upon them a vocabulary adequate to their purpose had yet to be invented A Chinese Buddhist textual corpus took shape over centuries despite the near absence of bilingual speakers One basis of this translating activity

was the rewriting of existing Chinese philosophical texts and especially the most exorbitant of all these the collection of dialogues fables and paradoxes known as the Zhuangzi The Zhuangzi also furnished a linguistic basis for Chinese Christianity when the Jesuit missionary Matteo Ricci arrived in the later part of the Ming dynasty and allowed his friends and associates to frame his teachings in the language of early Daoism It would function as well when Xu Zhimo translated from The Flowers of Evil in the 1920s The chance but overdetermined encounter of Zhuangzi and Baudelaire yielded a strange music that retroactively echoes through two millennia of Chinese translation outlining a new understanding of the translator's craft that cuts across the dividing lines of current theories and critiques of translation *Riding the Wind with Liezi* Ronnie

Littlejohn, Jeffrey Dippmann, 2012-01-02 The Liezi is the forgotten classic of Daoism Along with the Laozi Daodejing and the Zhuangzi it's been considered a Daoist masterwork since the mid eighth century yet unlike those well read works the Liezi is little known and receives scant scholarly attention Nevertheless the Liezi is an important text that sheds valuable light on the early history of Daoism particularly the formative period of sectarian Daoism We do not know exactly what shape the original text took but what remains is replete with fantastic characters whimsical tales paradoxical aphorisms and philosophically sophisticated reflection on the nature of the world and humanity's place within it Ultimately the Liezi sees the world as one of change and indeterminacy Arguing for the Liezi's historical philosophical and literary significance the contributors to this volume offer a fresh look at this text using contemporary approaches and providing novel insights The volume is unique in its attention to both philosophical and religious perspectives **The Political Philosophy of Zhang Taiyan** Viren

Murthy, 2011-02-28 Drawing on a vast array of Chinese texts Japanese scholarship and critical philosophy this book offers a radical rereading of Zhang Taiyan's philosophy highlighting the significance of Zhang's ideas in the context of global capitalist modernity **Chinese Metaphysics and its Problems** Chenyang Li, Franklin Perkins, 2015-04-30 This volume of

new essays is the first English language anthology devoted to Chinese metaphysics The essays explore the key themes of Chinese philosophy from pre Qin to modern times starting with important concepts such as yin yang and qi and taking the reader through the major periods in Chinese thought from the Classical period through Chinese Buddhism and Neo Confucianism into the twentieth century philosophy of Xiong Shili They explore the major traditions within Chinese philosophy including Daoism and Mohism and a broad range of metaphysical topics including monism theories of individuation and the relationship between reality and falsehood The volume will be a valuable resource for upper level students and scholars of metaphysics Chinese philosophy or comparative philosophy and with its rich insights into the ethical social and political dimensions of Chinese society it will also interest students of Asian studies and Chinese intellectual history **Poetics of Emptiness** Jonathan Stalling, 2011-10-03 The Poetics of Emptiness uncovers an important untold

history by tracing the historically specific intertextual pathways of a single if polyvalent philosophical term emptiness as it is transformed within twentieth century American poetry and poetics This conceptual migration is detailed in two sections The

first focuses on transpacific Buddhist poetics while the second maps the less well known terrain of transpacific Daoist poetics In Chapters 1 and 2 the author explores Ernest Fenollosa's *The Chinese Written Character as a Medium for Poetry* as an expression of Fenollosa's distinctly Buddhist poetics informed by a two decade long encounter with a culturally hybrid form of Buddhism known as Shin Bukkyo New Buddhism Chapter 2 explores the classical Chinese poetics that undergirds the lost half of Fenollosa's essay Chapter 3 concludes the first half of the book with an exploration of the didactic and soteriological function of emptiness in Gary Snyder's influential poetry and poetics The second half begins with a critical exploration of the three decades long career of the poet translator critic Wai lim Yip whose transpacific Daoist poetics has been an important fixture in American poetic late modernism and has begun to gain wider notoriety in China The last chapter engages the intertextual weave of poststructural thought and Daoist and shamanistic discourses in Theresa Hak Kyung Cha's important body of heterocultural productions By formulating interpretive frames as hybrid as the texts being read this book makes available one of the most important yet still largely unknown stories of American poetry and poetics

Nelson, 2023-11-02 In this innovative contribution Eric S Nelson offers a contextualized and systematic exploration of the Chinese sources and German language interpretations that shaped Heidegger's engagement with Daoism and his thinking of the thing nothingness and the freedom of releasement *Gelassenheit* Encompassing forgotten and recently published historical sources including Heidegger's Daoist and Buddhist related reflections in his lectures and notebooks Nelson presents a critical intercultural reinterpretation of Heidegger's philosophical journey Nelson analyzes the intersections and differences between the *Daodejing* the *Zhuangzi* and Heidegger's philosophy and the linguistic and conceptual shifts in Heidegger's thinking that correlate with his encounters and interactions with Daoist Buddhist and East Asian texts and interlocutors He thereby traces hints for encountering things and environments anew models for intercultural hermeneutics and ways of reimagining the thing nothingness and freedom with and beyond Heidegger's thought This work elucidates the thing the mystery and freedom in Heidegger and Daoism in Part I and Heidegger's thinking of nothingness emptiness and the clearing in relation to Daoist and Buddhist philosophy in Part II In each part Nelson unfolds a fresh perspective for thinking further with Heidegger and East Asian philosophies in relation to the contemporary existential and environmental situation for the sake of nourishing life amidst damaged life

Traces of Humanism in China Carmen Meinert, 2015-07-15 Since discourses on humanistic traditions have so far largely been focused on European cultures this volume attempts to open the field to counterparts within Chinese culture which as a matter of fact

has a rich autochthonous tradition of humanism as well The contributors explore Confucian and Daoist dimensions of humaneness in Chinese philosophy and history up to the first half of the 20th century when Chinese and Western concepts of humanism first merged This book addresses a non sinological audience as well as specialists in this field and contributes to a non eurocentric view on humanism history

Vital Post-Secular Perspectives on Chinese Philosophical Issues Lauren F. Pfister, 2020-10-27 Vital Post Secular Perspectives on Chinese Philosophical Issues presents a number of contemporary philosophical issues from a wide range of Chinese philosophical texts figures and sub traditions that are usually not addressed in English studies of Chinese philosophical traditions Lauren F Pfister presents new perspectives in three parts the first part offers critical perspectives on the life and works of one of the most significant 20th century Chinese philosophers and historian of Chinese philosophical traditions Feng Youlan 1895 1990 the second part explores questions related to Ruist Confucian theism and the complicated textual developments within two canonical Ruist texts ending with a critique of a 21st century translation and interpretation of one of those two classical texts the third part presents philosophical assessments of 20th and 21st century cultural issues that have had immense social and interpretive impacts in contemporary Chinese contexts Chinese utopian projects Chinese netizens in Human Flesh Searches and questions about the links between sageliness and saintliness in Ruist and Christian communities

China Between Empires Mark Edward Lewis, 2011-04-30 After the collapse of the Han dynasty in the third century CE China divided along a north south line Mark Lewis traces the changes that both underlay and resulted from this split in a period that saw the geographic redefinition of China more engagement with the outside world significant changes to family life developments in the literary and social arenas and the introduction of new religions The Yangzi River valley arose as the rice producing center of the country Literature moved beyond the court and capital to depict local culture and newly emerging social spaces included the garden temple salon and country villa The growth of self defined genteel families expanded the notion of the elite moving it away from the traditional great Han families identified mostly by material wealth Trailing the rebel movements that toppled the Han the new faiths of Daoism and Buddhism altered every aspect of life including the state kinship structures and the economy By the time China was reunited by the Sui dynasty in 589 ce the elite had been drawn into the state order and imperial power had assumed a more transcendent nature The Chinese were incorporated into a new world system in which they exchanged goods and ideas with states that shared a common Buddhist religion The centuries between the Han and the Tang thus had a profound and permanent impact on the Chinese world

Spirit, Qi, and the Multitude Hyo-Dong Lee, 2013-11-11 We live in an increasingly global interconnected and interdependent world in which various forms of systemic imbalance in power have given birth to a growing demand for genuine pluralism and democracy As befits a world so interconnected this book presents a comparative theological and philosophical attempt to construct new underpinnings for the idea of democracy by bringing the Western concept of spirit into dialogue with the East Asian nondualistic and nonhierarchical notion of qi The book follows

the historical adventures of the idea of qi through some of its Confucian and Daoist textual histories in East Asia mainly Laozi Zhu Xi Toegye Nongmun and Su un and compares them with analogous conceptualizations of the ultimate creative and spiritual power found in the intellectual constellations of Western and or Christian thought namely Whitehead s Creativity Hegel s Geist Deleuze s chaosmos and Catherine Keller s Tehom The book adds to the growing body of pneumatocentric Spirit centered panentheistic Christian theologies that emphasize God s liberating equalizing and pluralizing immanence in the cosmos Furthermore it injects into the theological and philosophical dialogue between the West and Confucian and Daoist East Asia which has heretofore been dominated by the American pragmatist and process traditions a fresh voice shaped by Hegelian postmodern and postcolonial thought This enriches the ways in which the pluralistic and democratic implications of the notion of qi may be articulated In addition by offering a valuable introduction to some representative Korean thinkers who are largely unknown to Western scholars the book advances the study of East Asia and Neo Confucianism in particular Last but not least the book provides a model of Asian contextual theology that draws on the religious and philosophical resources of East Asia to offer a vision of pluralism and democracy A reader interested in the conversation between the East and West in light of the global reality of political oppression economic exploitation and cultural marginalization will find this book informative engaging and enlightening

Spiritual Exercises for the Postmodern Christian Matthew C. Kruger, 2018-04-30 This book offers a challenging spirituality for a world filled with uncertainty and emotional struggle Drawing from the work of ancient and contemporary thinkers the author constructs a path to understanding oneself and understanding God in new and profound ways This end is pursued by the use of spiritual exercises mental practices which make changing one s way of life a real possibility Further by engaging directly with nothingness meaninglessness and the sheer lack of certain knowledge possessed by humans an alternative form of spirituality is offered one that prepares the contemporary Christian for all that life will bring

Chinese Walls in Time and Space Roger Des Forges, Minglu Gao, Chiao-mei Liu, Haun Saussy, 2010-03-31 Are walls remnants of ancient and medieval societies destined to become anachronistic in modern and post modern times Or will they persist shaping as well as adjusting to new conditions Do walls necessarily constrain and even isolate those who live within them or can they act as a medium of support and communication for people on both sides This volume addresses these questions Authors from six disciplines history art law medicine communication and film provide multiple perspectives on various kinds of walls material ones around and within states cities and towns as well as virtual ones regulating the administration of justice the flow of pathogens and the transmission of information

Daoism and Environmental Philosophy Eric S. Nelson, 2020-10-01 Daoism and Environmental Philosophy explores ethics and the philosophy of nature in the Daodejing the Zhuangzi and related texts to elucidate their potential significance in our contemporary environmental crisis This book traces early Daoist depictions of practices of embodied emptying and forgetting and communicative strategies of undoing the fixations of words things and the embodied

self These are aspects of an ethics of embracing plainness and simplicity nourishing the asymmetrically differentiated yet shared elemental body of life of the myriad things and being responsively attuned in encountering and responding to things These critical and transformative dimensions of early Daoism provide exemplary models and insights for cultivating a more expansive ecological ethos environmental culture of nature and progressive political ecology This work will be of interest to students and scholars interested in philosophy environmental ethics and philosophy religious studies and intellectual history

The Art of Chinese Philosophy Paul Goldin, 2020-04-07 Goldin thus begins the book by asking the basic question What are we reading while also considering why it has been so rarely asked Yet far from denigrating Chinese philosophy he argues that liberating these texts from the mythic idea that they are the product of a single great mind only improves our understanding and appreciation By no means does a text require single and undisputed authorship to be meaningful nor is historicism the only legitimate interpretive stance The first chapter takes up a hallmark of Chinese philosophy that demands a Western reader's cognizance its preference for non deductive argumentation Chinese philosophy is an art hence the title he demonstrates more than it is a rigorous logical method Then comes the core of the book eight chapters devoted to the eight philosophical texts divided into three parts Philosophy of Heaven Philosophy of the Way and Two Titans at the End of an Age
