The Peoples Cause A History Of Guerrillas In Africa:

The People's Cause Basil Davidson,1981 Conquest, Constitutionalism and Democratic Contestations Joel M.

Modiri,2020-05-21 Two decades since the enactment of South Africa s present constitution the durability and endurance of past inequalities and injustices illustrate that the new South Africa lauded as a miracle nation with the best constitution in the world can no longer be regarded as an unqualified success The legal and constitutional foundations of post 1994 South Africa are in a process of renegotiation that invites new and alternative perspectives and approaches This comprehensive volume explores this process of renegotiation by engaging political and intellectual contestations circulating in South African academic and public discourse relating to continuities and discontinuities between the colonial apartheid past and the post 1994 constitutional present The authors analyse the moral intellectual and political unravelling of post 1994 South African constitutionalism as legal text and political culture and enquire whether it has been able to respond adequately to the fundamental contradictions generated by colonisation and apartheid They also consider how centring the historical problem of European domination and conquest in Africa and South Africa in particular might provide an alternative frame or lens to theorise and understand contemporary South African realities This book marks out a complex field of contestation involving competing histories locations visions and perspectives that raises multifaceted questions regarding law history and politics It is the outcome of a South African Journal of Human Rights colloquium and was originally published as a special issue of the journal

The Making of Elite Women Tanja Müller,2021-11-29 This book is a thorough study about the upcoming of elite women in Eritrea encompassing the time of the armed struggle for liberation as well as its aftermath up to the tenth anniversary of Eritrean independence in 2001 and beyond It is a multi disciplinary study combining a comprehensive analysis of Eritrean history society and political developments with extensive case study research into the lives of different groups of elite women Modernisation processes created by the Eritrean revolution fostered an environment in which women are regarded as equal and encouraged to occupy positions of leadership At the same time the revolution s hegemonic ideology does not envisage women opting out of its version of modernity thus new avenues open up only for those who subscribe to the revolution s narrative of progress Furthermore it is argued that while the Eritrean revolution played a decisive role in opening up possibilities for women s emancipation a failure to implement democratic structures of governance puts the revolution s societal achievements at risk its legacy might well rest with possibilities of personal liberation in individual lives

Heroes and Martyrs of Palestine Laleh Khalili,2007-03-29 Many decades have passed since the Palestinian national movement began its political and military struggle In that time poignant memorials at massacre sites a palimpsest of posters of young heroes and martyrs sorrowful reminiscences about lost loved ones and wistful images of young men and women who fought as guerrillas have all flourished in Palestinian refugee camps in Lebanon and in the Occupied Palestinian Territories Heroes and Martyrs of Palestine tells the story of how dispossessed Palestinians have commemorated their past and how

through their dynamic everyday narrations their nation has been made even without the institutional memory making of a state Bringing ethnography to political science Khalili invites us to see Palestinian nationalism in its proper international context and traces its affinities with Third Worldist movements of its time while tapping a rich and oft ignored seam of Palestinian voices histories and memories *The Dynamics of Global Dominance* David B. Abernethy,2000-01-01 For centuries Europeans ruled vast portions of the world as inhabitants of west European countries sailed to distant continents and took possession of territories whose societies and economies they set out to change How and why did these farflung empires form persist and finally fall David Abernethy addresses these questions in this magisterial survey of the rise and decline of European overseas empires Abernethy identifies broad patterns across time and space interweaving them with fascinating details of cross cultural encounters He argues that relatively autonomous profit making religious and governmental institutions enabled west European countries to launch triple assaults on other societies Indigenous people also played a role in their eventual subjugation by inviting Europeans to intervene in their power struggles Abernethy finds that imperial decline was often the unanticipated result of wars among major powers Postwar crises over colonies unmet expectations empowered movements that eventually took territories as diverse as the thirteen British North American colonies Spain s South American possessions India the Dutch East Indies Vietnam and the Gold Coast to independence In advancing a theory of imperialism that includes European and non European actors and in analyzing economic social and cultural as well as political dimensions of empire Abernethy helps account for Europe s long occupation of global center stage He also sheds light on key features of today s postcolonial world and the legacies of empire concluding with an insightful approach to the moral evaluation of colonialism **Terrorism, Guerrilla**
