Craig, 2013-05 Craig s study of McAdoo and Baker illuminates the aspirations and struggles of two prominent southern Democrats In this dual biography Douglas B Craig examines the careers of two prominent American public figures Newton Diehl Baker and William Gibbs McAdoo whose lives spanned the era between the Civil War and World War II Both Baker and McAdoo migrated from the South to northern industrial cities and took up professions that had nothing to do with staple crop agriculture Both eventually became cabinet officers in the presidential administration of another southerner with personal memories of defeat and Reconstruction Woodrow Wilson A Georgian who practiced law and led railroad tunnel construction efforts in New York City McAdoo served as treasury secretary at a time when Congress passed an income tax established the Federal Reserve System and funded the American and Allied war efforts in World War I Born in the eastern panhandle of West Virginia Baker won election as mayor of Cleveland in the early twentieth century and then as Wilson s secretary of war supervised the dramatic build up of the U S military when the country entered the Great War in Europe This is the first full biography of McAdoo and the first since 1961 of Baker Craig

The Southern Way of Life Charles Reagan Wilson, 2022-11-30 How does one begin to understand the idea of a distinctive southern way of life a concept as enduring as it is disputed In this examination of the American South in national and global contexts celebrated historian Charles Reagan Wilson assesses how diverse communities of southerners have sought to define the region's identity Surveying three centuries of southern regional consciousness across many genres disciplines and cultural strains Wilson considers and challenges prior presentations of the region advancing a vision of southern culture that has always been plural dynamic and complicated by race and class Structured in three parts *The Southern Way of Life* takes readers on a journey from the colonial era to the present from when complex ideas of southern civilization rooted in slaveholding and agrarianism dominated to the twenty-first century rise of a modern multicultural southern living As Wilson shows there is no singular or

essential South but rather a rich tapestry woven with contestations contingencies and change **Woodrow Wilson and American Internationalism** Lloyd E. Ambrosius, 2017-06-16 This book critiques President Woodrow Wilson's statecraft and diplomacy during World War I notably with respect to religion and race *The Routledge History of U.S. Foreign Relations* Tyson Reeder, 2021-12-29 The Routledge History of U S Foreign Relations provides a comprehensive view of U S diplomacy and foreign affairs from the founding to the present With contributions from recognized experts from around the world this volume unveils America's long and complicated history on the world stage It presents the United States evolution from a weak player even a European pawn to a global hegemonic leader over the course of two and a half centuries The contributors offer an expansive vision of U S foreign relations from U S Native American diplomacy in eighteenth and nineteenth centuries to the post 9 11 war on terror They shed new light on well known events and suggest future paths of research and they capture lesser known episodes that invite reconsideration of common assumptions about America's place in the world Bringing these discussions to a single forum the book provides a strong reference source for scholars and students who seek to understand the broad themes and changing approaches to the field This book will be of interest to students and scholars of U S history political science international relations conflict resolution and public policy amongst other areas *A Peaceful Conquest* Cara Lea Burnidge, 2016-10-19 A century after his presidency Woodrow Wilson remains one of the most compelling and complicated figures ever to occupy the Oval Office A political outsider Wilson brought to the presidency a distinctive strongly held worldview built on powerful religious traditions that informed his idea of America and its place in the world With *A Peaceful Conquest* Cara Lea Burnidge presents the most detailed analysis yet of how Wilson's religious beliefs affected his vision of American foreign policy with repercussions that lasted into the Cold War and beyond Framing Wilson's intellectual development in relationship to the national religious landscape and paying greater attention to the role of religion than in previous scholarship Burnidge shows how Wilson's blend of Southern evangelicalism and social Christianity became a central part of how America saw itself in the world influencing seemingly secular policy decisions in subtle lasting ways Ultimately Burnidge makes a case for Wilson's religiosity as one of the key drivers of the emergence of the public conception of America's unique indispensable role in international relations As the presidential election cycle once again raises questions of America's place in the world *A Peaceful Conquest* offers a fascinating excavation of its little known roots *Securing the Fruits of Labor* James L. Huston, 2015-05-11 James Huston has undertaken a unique and Herculean labor in examining American beliefs about wealth distribution over one and a half centuries His findings have led him to a startling conclusion Americans' earliest economic attitudes were formed during the Revolutionary period and remained virtually unchanged until the close of the nineteenth century Why those attitudes existed and persisted how they informed public debate and what caused their ultimate demise are among the channels explored in *Securing the Fruits of Labor* a grand excursion into waters of economic history only glimpsed by previous works *The Concise Princeton Encyclopedia of*

Every Citizen a Statesman David Allen, 2023-01-10 The surprising story of the movement to create a truly democratic foreign policy by engaging ordinary Americans in world affairs No major arena of US governance is more elitist than foreign policy International relations barely surface in election campaigns and policymakers take little input from Congress But not all Americans set out to build a cloistered foreign policy establishment For much of the twentieth century officials activists and academics worked to foster an informed public that would embrace participation in foreign policy as a civic duty The first comprehensive history of the movement for citizen education in world affairs Every Citizen a Statesman recounts an abandoned effort to create a democratic foreign policy Taking the lead alongside the State Department were philanthropic institutions like the Ford and Rockefeller foundations and the Foreign Policy Association a nonprofit founded in 1918 One of the first international relations think tanks the association backed local World Affairs Councils which organized popular discussion groups under the slogan World Affairs Are Your Affairs In cities across the country hundreds of thousands of Americans gathered in homes and libraries to learn and talk about pressing global issues But by the 1960s officials were convinced that strategy in a nuclear world was beyond ordinary people and foundation support for outreach withered The local councils increasingly focused on those who were already engaged in political debate and otherwise decried supposed public apathy becoming a force for the very elitism they set out to combat The result David Allen argues was a chasm between policymakers and the public that has persisted since the Vietnam War insulating a critical area of decisionmaking from the will of the people

Religion in the Public Square James M. Patterson, 2019-06-28 Ven Fulton J Sheen Dr Martin Luther King Jr and Rev Jerry Falwell religious leaders who popularized theology through media campaigns designed to persuade the public In Religion in the Public Square James M Patterson considers religious leaders who popularized theology through media campaigns designed to persuade the public Ven Fulton J

Sheen Dr Martin Luther King Jr and Rev Jerry Falwell differed profoundly on issues of theology and politics but they shared an approach to public ministry that aimed directly at changing how Americans understood the nature and purpose of their country From the 1930s through the 1950s Sheen was an early adopter of paperbacks radio and television to condemn totalitarian ideologies and to defend American Catholicism against Protestant accusations of divided loyalty During the 1950s and 1960s King staged demonstrations and boycotts that drew the mass media to him The attention provided him the platform to preach Christian love as a political foundation in direct opposition to white supremacy Falwell started his own church which he developed into a mass media empire He then leveraged it during the late 1970s through the 1980s to influence the Republican Party by exhorting his audience to not only ally with religious conservatives around issues of abortion and the traditional family but also to vote accordingly Sheen King and Falwell were so successful in popularizing their theological ideas that they won prestigious awards had access to presidents and witnessed the results of their labors However Patterson argues that Falwell s efforts broke with the longstanding refusal of religious public figures to participate directly in partisan affairs and thereby catalyzed the process of politicizing religion that undermined the Judeo Christian consensus that formed the foundation of American politics

The Power of Place Harm J. De Blij, 2010 Harm de Blij contends in this book that geography continues to hold us all in an unrelenting grip and that we are all born into natural and cultural environments that shape what we become individually and collectively

Civil War America Robert Cook, 2014-06-06 The American Civil War was without doubt the defining event in the history of the United States This up to date analysis of a critical period goes beyond the origins course and consequences of the Civil War to bring in other important themes such as racial conflict gender relations religion the popular memory and state formation
