Korean styles It is the only plausible candidate for the descendant of ancient subak This well researched chapter includes theory and techniques and lineage chart Dr Willy Pieter expands upon the historical development of Korean martial sports as presented by Young There is an emphasis on the hwarang flower boy and their presence in Korean culture and martial traditions in particular The etymology of Korean martial systems are questioned The final chapter by Yung Ouyang offers a fuller picture of what taekyon represents as a moving art Traditionally taekyon was a game as well as a martial art so many did not credit taekyon for its combative elements It has largely been ignored by those interested in the fighting arts It is gaining recognition as a legitimate heir to the traditional Korean martial arts but is also undergoing influences from Japanese traditions and Western sports Taekyon deserves to be recognized for its uniqueness among the martial arts of Asia This anthology will serve as solid reference for all interested in the Korean combative traditions and especially taekyon for its aesthetic appeal as a form of dance and graceful yet powerful combative method **Black Belt** ,1984-04 The oldest and
