The Applegates:

The Modoc War Robert Aquinas McNally, 2017 On a cold rainy dawn in late November 1872 Lieutenant Frazier Boutelle and a Modoc Indian nicknamed Scarface Charley leveled firearms at each other Their duel triggered a war that capped a decades long genocidal attack that was emblematic of the United States conquest of Native America s peoples and lands Robert Aquinas McNally tells the wrenching story of the Modoc War of 1872 73 one of the nation s costliest campaigns against North American Indigenous peoples in which the army placed nearly one thousand soldiers in the field against some fifty five Modoc fighters Although little known today the Modoc War dominated national headlines for an entire year Fought in south central Oregon and northeastern California the war settled into a siege in the desolate Lava Beds and climaxed the decades long effort to dispossess and destroy the Modocs The war did not end with the last shot fired however For the first and only time in U S history Native fighters were tried and hanged for war crimes The surviving Modocs were packed into cattle cars and shipped from Fort Klamath to the corrupt disease ridden Quapaw reservation in Oklahoma where they found peace even more lethal than war The Modoc War tells the forgotten story of a violent and bloody Gilded Age campaign at a time when the federal government boasted officially of a peace policy toward Indigenous nations This compelling history illuminates a dark corner in our country s past

With this study the cattle guard joins the sod house the windmill and barbed wire as a symbol of range country on the American Great Plains A U S folk innovation now in use throughout the world the cattle guard functions as both a gate and a fence it keeps livestock from crossing but allows automobiles and people to cross freely The author blends traditional history and folklore to trace the origins of the cattle guard and to describe how in true folk fashion the device in its simplest form wooden poles or logs spaced in parallel fashion over a pit in the roadway was reinvented and adapted throughout livestock

country Hoy traces the origins of the cattle guard to flat stone stiles unique to Cornwall England then through the railroad cattle guard in use in this country as early as 1836 and finally to the Great Plains where probably in 1905 the first ones appeared on roads He describes regional variations in cattle guards and details unusual types He provides information on cattle guard makers who range from local blacksmiths and welders to farmers and ranchers to large manufacturers In addition to documenting the economic and cultural significance of the cattle guard this volume reveals much about early twentieth century farm and ranch life It will be of interest not only to folklorists and historians of agriculture and Western America but also to many Plains area farmers ranchers and oilmen *Transactions of the Annual Reunion* ,1912
