Constructing International Relations in the Arab World Fred Lawson, 2006 This book explores the emergence of an anarchic states system in the twentieth century Arab world Following the collapse of the Ottoman Empire Arab nationalist movements first considered establishing a unified regional arrangement to take the empire s place and present a common front to outside powers But over time different Arab leaderships abandoned this project and instead adopted policies characteristic of self interested territorially limited states In his explanation of this phenomenon the author shifts attention away from older debates about the origins and development of Arab nationalism and analyzes instead how different nationalist leaderships changed the ways that they carried on diplomatic and strategic relations He situates this shift in the context of influential sociological theories of state formation while showing how labor movements and other forms of popular mobilization shaped the origins of the regional states system The Arab World Elizabeth Warnock Fernea, Robert Alan Fernea, 1985 An insider s view of real life in the Arab world today written by a couple who has spent 25 years living and working in the Middle East **The Arab World** Elizabeth Warnock Fernea, Robert A. Fernea, 2011-01-12 In the ten years since Anchor first published Elizabeth and Robert Fernea s award winning *The Arab World* Personal Encounters vast political and economic shifts have taken place the end of the Iran Iraq War and the Lebanese civil war the outbreak of the Gulf War the historic 1993 peace accords between Israel and the Palestinians to name just a few Which is why the Ferneas leading scholars in Middle Eastern studies felt a need to return to the same towns and cities they had written about previously to see how these changes had affected the region and the people who live in it The authors reveal the human face of the Arab World as they revisit and talk with newsmakers and colleagues old friends and new Their forty years of experience in the region help illuminate the human consequences of changes all too often discussed in abstractions and generalizations the military conflicts new urbanization labor migration religious revival as well as radical changes in the roles of men women and the family With new chapters on Baghdad Beirut Amman Jerusalem Marrakech and Cairo this new edition of *The Arab World* will strengthen its reputation as a book which should be required reading for anyone with a serious interest in the Middle East
