The Architecture Of Desire

Joseph Gwilt

The Architecture Of Desire:

The Architecture of Desire Mary Gentle, 2013-07-25 Mercenaries in lace and steel roam the countryside and the heads of criminals are impaled on London Bridge The characters relationships are played out in the shadow of the hangman s rope
Sequel to Rats and Gargoyles [The Architecture of Desire](#) M. Orlando, 1996-07-01 [The Architecture of Desire](#) Colorado College. I.D.E.A. Space, 2008 *Marcel Duchamp and the Architecture of Desire* Penelope Haralambidou, 2017-03-02 While much has been written on Marcel Duchamp one of the twentieth century s most beguiling artists the subject of his flirtation with architecture seems to have been largely overlooked Yet in the carefully arranged plans and sections organising the blueprint of desire in the Large Glass his numerous pieces replicating architectural fragments and his involvement in designing exhibitions Duchamp s fascination with architectural design is clearly evident As his unconventional architectural influences Niceron Lequeu and Kiesler and diverse legacy Tschumi OMA Webb Diller Scofidio and Nicholson indicate Duchamp was not as much interested in built architecture as he was in the architecture of desire re constructing the imagination through drawing and testing the boundaries between reality and its aesthetic and philosophical possibilities Marcel Duchamp and the Architecture of Desire examines the link between architectural thinking and Duchamp s work By employing design drawing and making the tools of the architect Haralambidou performs an architectural analysis of Duchamp s final enigmatic work Given 1 The Waterfall 2 The Illuminating Gas demonstrating an innovative research methodology able to grasp meaning beyond textual analysis This novel reading of his ideas and methods adds to but also challenges other art historical interpretations Through three main themes allegory visuality and desire the book defines and theorises an alternative drawing practice positioned between art and architecture that predates and includes Duchamp

The Architecture of Desire M. Orlando, 2001-08-21 At Hotel Justine an elite clientele is afforded the opportunity to have any and all desires satisfied A beautiful but discontented woman inherits the Villa Sin but soon realizes that the legacy of the ancestral estate includes bizarre erotic ceremonies and sexual extremism [The Architecture of Error](#) Francesca Hughes, 2014-11-07 Why the rise of redundant precision in architecture and the accompanying fear of error are key to understanding the discipline s needs anxieties and desires When architects draw even brick walls to six decimal places with software designed to cut lenses it is clear that the logic that once organized relations between precision and material error in construction has unraveled Precision already a promiscuous term seems now to have been uncoupled from its contract with truthfulness Meanwhile error and the always political space of its dissent has reconfigured itself In *The Architecture of Error* Francesca Hughes argues that behind the architect s acute fetishization of redundant precision lies a special fear of physical error What if we were to consider the pivotal cultural and technological transformations of modernism to have been driven not so much by the causes its narratives declare she asks as by an unspoken horror of loss of control over error material life and everything that matter stands for Hughes traces the rising intolerance of material vagaries from the removal of ornament

to digitalized fabrication that produced the blind rejection of organic materials the proliferation of material testing and the rhetorical obstacles that blighted cybernetics Why is it she asks that the more we cornered physical error the more we feared it Hughes s analysis of redundant precision exposes an architecture of fear whose politics must be called into question Proposing error as a new category for architectural thought Hughes draws on other disciplines and practices that have interrogated precision and failure citing the work of scientists Nancy Cartwright and Evelyn Fox Keller and visual artists Gordon Matta Clark Barbara Hepworth Rachel Whiteread and others These non architect practitioners she argues show that error need not be excluded and precision can be made accountable *The Architecture of Desire* Richard Gerard Carson,1990

The Architecture of Desire Solangel Maldonado,2024-05-21 Explores the reach of the law into our most personal and private romantic lives The Architecture of Desire examines how the law influences our most personal and private choices who we desire and choose as intimate partners and explores the psychological economic and social effects of these choices Romantic preferences as shaped by law perpetuate segregation and subordination by limiting on the basis of race individuals prospects for marriage and marriage like commitments as well as economic and social mobility The book begins by tracing the legacy of slavery anti miscegenation segregation and racially discriminatory immigration laws to show how this legal landscape facilitated the residential economic and social distance between racial and ethnic groups which in turn continue to shape romantic preferences today Solangel Maldonado argues that the law further influences intimate choices by structuring the spaces within which individuals meet and interact via practices such as redlining gentrification and zoning Maldonado includes studies of online and offline dating preferences to demonstrate that romantic predilections follow a gendered racial hierarchy in which Whites are at the top African Americans at the bottom and depending on skin tone Asian Americans and Latinos in the middle These preferences may be explicit implicit or both but they are usually the result of stereotypes reflected in social and cultural norms Furthermore since marriage confers substantial legal economic and social advantages sexual racism further limits an individual s opportunity to find a partner and reap these benefits Finally the book proposes ways to minimize the law s influence over who we desire love and bring into our families such as changes to dating platforms as well as to housing education and transportation policies *The Architecture of Gaudí* Aurora Cuito,Antoni Gaudí,2004-02

In the light the growing and general recognition of Gaudí s work 150 years after his birth We discover his buildings that have been declared Historic Artistic Monuments **The Architecture of Desire** Richard Gerard Carson,1986

Architecture and the Unconscious John Shannon Hendrix,Lorens Eyan Holm,2016-06-17 There are a number of recent texts that draw on psychoanalytic theory as an interpretative approach for understanding architecture or that use the formal and social logics of architecture for understanding the psyche But there remains work to be done in bringing what largely amounts to a series of independent voices into a discourse that is greater than the sum of its parts in the way that say the architect Peter Eisenman was able to do with the architecture of deconstruction or that the historian

Manfredo Tafuri was able to do with the Marxist critique of architecture. The discourse of the present volume focuses specifically for the first time on the subject of the unconscious in relation to the design perception and understanding of architecture. It brings together an international group of contributors who provide informed and varied points of view on the role of the unconscious in architectural design and theory and in doing so expand architectural theory to unexplored areas enriching architecture in relation to the humanities. The book explores how architecture engages dreams, desires, imagination, memory and emotions; how architecture can appeal to a broader scope of human experience and identity. Beginning by examining the historical development of the engagement of the unconscious in architectural discourse and the current and historical theoretical and practical intersections of architecture and psychoanalysis, the volume also analyses the city and the urban condition.

The Architect of Desire Suzannah Lessard, 2013-01-23. The story of Stanford White, his scandalous affair with the 16-year-old actress Evelyn Nesbit, his murder in 1906 by her husband, the millionaire Harry K. Thaw, and the hailstorm of publicity that surrounded the trial of the century has proven irresistible to generations of novelists, historians, and biographers. The premier neoclassical architect of his day, White's legacy to the world were such masterpieces as New York's original Madison Square Garden, the Washington Square Arch, and the Players Metropolitan and Colony clubs. He was also responsible for the palaces of such clients as the Whitneys, Vanderbilts, and Pulitzers, the robber barons of the Gilded Age whose power and dominance shaped the nation in its heady ascent at the turn of the century. As the century rolled on, however, the story of Stanford White and Evelyn Nesbit came to be viewed as glamorous and romantic; the darker narrative of White's out-of-control sexual compulsion, obscured by time. Indeed, White's wife Bessie and his son Larry remained adamantly silent about the matter for the duration of their lives, a silence that reverberated through the next four generations of their extended family. Suzannah Lessard is the eldest of Stanford White's great grandchildren. It was only in her 30s that she began to sense the parallels between the silence about her great grandfather's life and the silence about her own perilous experience as a little girl in her own home. Thus she became drawn to the remarkable history of her family in order to uncover its hidden truths and in so doing to liberate herself from its enclosure at last. The result is a multi-layered memoir of astonishing elegance and power, one that like a great building is illuminated room by room, chapter by chapter, until the whole is clearly seen.

Architecture's Desire K. Michael Hays, 2009-10-02. Theorizes an architectural ethos of extreme self-reflection and finality from a Lacanian perspective. While it is widely recognized that the advanced architecture of the 1970s left a legacy of experimentation and theoretical speculation as intense as any in architecture's history, there has been no general theory of that ethos. Now in *Architecture's Desire*, K. Michael Hays writes an account of the late avant-garde as an architecture systematically twisting back on itself, pondering its own historical status and deliberately exploring architecture's representational possibilities right up to their absolute limits. In close readings of the brooding melancholy silence of Aldo Rossi, the radically reductive decompositions and archaeologies of Peter Eisenman, the carnivalesque excesses of John Hejduk,

and the cinegrammatic delirium of Bernard Tschumi Hays narrates the story of architecture confronting its own boundaries with objects of ever more reflexivity difficulty and intransigence The late avant garde is the last architecture with philosophical aspirations an architecture that could think philosophical problems through architecture rather than merely illustrate them It takes architecture as the object of its own reflection which in turn produces an unrelenting desire Using the tools of critical theory together with the structure of Lacan's triad imaginary symbolic real Hays constructs a theory of architectural desire that is historically specific and yet sets the terms and the challenges of all subsequent architectural practice including today's

The Architecture of Edwin Maxwell Fry and Jane Drew Iain Jackson, Jessica Holland, 2016-03-16

Maxwell Fry and Jane Drew were pioneers of Modern Architecture in Britain and its former colonies from the late 1920s through to the early 1970s As a barometer of twentieth century architecture their work traces the major cultural developments of that century from the development of modernism its spread into the late colonial arena and finally to its re-evaluation that resulted in a more expressive formalist approach in the post-war era This book thoroughly examines Fry and Drew's highly influential Tropical Architecture in West Africa and India whilst also discussing their British work such as their post World War II projects for the Festival of Britain Harlow New Town Pilkington Brothers Headquarters and Coychurch Crematorium It highlights the collaborative nature of Fry and Drew's work including schemes undertaken with Elizabeth Denby Walter Gropius Denys Lasdun Pierre Jeanneret and Le Corbusier Positioning their architecture writing and educational endeavours within a wider context this book illustrates the significant artistic and cultural contributions made by Fry and Drew throughout their lengthy careers

The Architect, 1923 *The Architect* Arthur Holland Forbes, 1925

The Path of Seduction: An Architect's Journey Through Antiquity Pasquale De Marco, 2025-05-20

In *The Path of Seduction: An Architect's Journey Through Antiquity* Marcus a brilliant and passionate architect embarks on an extraordinary odyssey to explore the captivating allure of ancient architecture Driven by an insatiable thirst for knowledge and a yearning for inspiration he delves into the depths of antiquity unearthing the secrets of forgotten civilizations and uncovering the enduring legacy of iconic structures As Marcus traverses time and space he encounters awe-inspiring temples majestic palaces and intricate mosaics each a testament to the ingenuity and artistry of our ancestors He becomes immersed in the grandeur of ancient cities marvels at the resilience of aqueducts and roads and deciphers the hidden meanings etched into stone and parchment Along his path he engages in thought-provoking dialogues with philosophers and poets delving into the nature of beauty the human condition and the profound impact of architecture on society Marcus's journey is not without its challenges He grapples with the tension between innovation and tradition the pressure to create something timeless while meeting the demands of his clients He faces moments of self-doubt and creative blocks questioning his abilities and the significance of his work Yet amidst the trials and tribulations he finds solace and inspiration in the enduring legacy of ancient architecture Throughout his travels Marcus uncovers hidden truths about himself his purpose and the interconnectedness of

all things He discovers the power of architecture to transcend time to connect people across generations and to shape the very fabric of society As he embarks on a quest for beauty meaning and self discovery Marcus unveils the seductive allure of ancient architecture its profound impact on the human spirit and its enduring relevance in shaping our world The Path of Seduction is an immersive and thought provoking journey that transports readers to the heart of ancient civilizations revealing the captivating stories behind iconic structures and the enduring legacy of architectural masterpieces It is a celebration of human creativity a meditation on the nature of beauty and an exploration of the profound impact that architecture has on our lives If you like this book write a review on google books
