Ancient Egypt, the Light of the World Gerald Massey, 1992 Gerald Massey was one of the first Egyptologists in modern times to realize that with the final eclipse of the incredibly old Land of Kam a k a ancient Egypt a light had been extinguished in world civilization He was a man of protean interests and concerns at once a poet socialist Shakespearean scholar mythographer and Egyptologist Part of his genius was the ability to look truth in the face and not flinch Massey did in the cultural domain what modern paleontologists have done in the anthropological pinpoint Africa as the crucible of humanity s story In the first volume of Ancient Egypt Massey was primarily concerned with elaborating how the first humans emerge in Africa created thought What had been evident to him from the outset was that the myths rituals and religions of ancient Egypt or Old Kam had preserved virtually intact a record of the psychomythic evolution of humanity In the second volume Massey examines the celestial phenomenon known as the Precession of the Equinoxes He believed only by understanding this phenomenon was it possible to fathom Nile Valley history He provides the reader with extensive detail on the interconnection of the two The last half of the second volume is devoted to the Kamite sources of Christianity Massey demonstrated the manner in which New Testament Christianity evolved directly out of the Osirian mysteries Massey pioneered the effort to connect Old Kamite thought to its origin in Africa s antiquity His conclusions which are constantly

being verified showed that Kamite thought was the direct progenitor to the philosophy metaphysics religion and science that eventually shaped Western civilization from back cover
