The Armenian Genocide A Comprehensive Bibliography And Library Resource Guide:

The Armenian Genocide Hamo B. Vassilian, 1992

Historical Dictionary of Armenia Rouben Paul

Adalian, 2010-05-13 There are two Armenias the current Republic of Armenia and historic Armenia The modern state dates from the early 20th century Historic Armenia was part of the ancient world and expired in the Middle Ages Its people however survived and from its residue recreated a new country The history of the Armenians is the story of how an ancient people endured into modern times and how its culture evolved from one conceived under the influence of Mesopotamia to one redefined by the civilization of Europe The second edition of the **Historical Dictionary of Armenia** relates the turbulent past of this persistent country through a chronology an introductory essay a bibliography and over 200 cross referenced dictionary entries on significant persons events places organizations and other aspects of Armenian history from the earliest times to the present

Historical Dictionary of the Ottoman Empire

Selcuk Aksin Somel, 2011-12-29 The Ottoman Empire like its eventual rival the Habsburg Empire was a dynastic kingdom whose rule encompassed most of the Middle East most of North Africa and parts of Europe at its peak in the mid 17th century Osman I founded the Ottoman Empire in the early 14th century and subsequent rulers or Sultans rapidly expanded the boundaries of the territory In the 15th and 16th centuries the Ottomans conquered Constantinople putting an end to the powerful Byzantine Empire and expanded north into Europe becoming a major player in European politics At the beginning of the 20th century the power of the Ottoman Empire had been declining for several hundred years and the Empire officially dissolved at the end of the First World War In this revised and updated second edition of the **Historical Dictionary of the Ottoman Empire** author Selcuk Aksin Somel introduces both the general reader and the researcher to the history of this dynasty The comprehensive dictionary includes detailed alphabetical entries on key figures ideas places and themes related to Ottoman history and culture An expanded introduction provides a basic overview to the history of the Empire and a guide to further sources and suggested readings can be found in the extensive bibliography that follows the entries A basic chronology and various maps and illustrations are also included in the dictionary This book is an excellent access point for students researchers and anyone wanting to know more about the Ottoman Empire

Dark Pasts

Jennifer M. Dixon, 2018-11-15 In **Dark Pasts** Jennifer M Dixon asks why states deny past atrocities and when and why they change the stories they tell about them In recent decades states have been called on to acknowledge and apologize for historic wrongs Some have apologized while others have silenced denied and relativized past crimes **Dark Pasts** unravels the complex and fraught processes through which state narratives of past atrocities are constructed contested and defended Focusing on Turkey s narrative of the Armenian Genocide and Japan s narrative of the Nanjing Massacre Dixon shows that international pressures increase the likelihood of change in states narratives of their own dark pasts even as domestic considerations determine their content Combining historical richness and analytical rigor **Dark Pasts** is a revelatory study of the persistent presence of the past and the politics that shape narratives of state wrongdoing

New Directions in Genocide Research Adam Jones, 2012-03-12 Genocide studies is a relatively new field of comparative inquiry but recent years have seen an increasing range of themes and subject matter being addressed that reflect a variety of features of the field and transformations within it This edited book brings together established scholars with rising stars and seeks to capture the range of new approaches theories and case studies in the field The book is divided into three broad sections Section I focuses on broad theories of comparative genocide covering a number of different perspectives Section II critically reconsiders core themes of genocide studies and unfolds a range of challenging new directions including cultural genocide gender and genocide as it pertains to both women and men structural violence and the novel application of remote sensing technologies to the detection and study of genocide Section III is case study focused seeking to place both canonical and little known cases of genocide in broader comparative perspective Cases analyzed include genocide in North America the Nazi Holocaust the Armenian genocide and the Sri Lankan genocide The combination of cutting edge scholarship and innovative approaches to familiar subjects makes this essential reading for all students and scholars in the field of genocide studies *Plight and Fate of Women During and Following Genocide* Samuel Totten, 2017-07-05 The plight and fate of female victims during the course of genocide is radically and profoundly different from their male counterparts Like males female victims suffer demonization ostracism discrimination and deprivation of their basic human rights They are often rounded up deported and killed But unlike most men women are subjected to rape gang rape and mass rape Such assaults and degradation can and often do result in horrible injuries to their reproductive systems and unwanted pregnancies This volume takes one stride towards assessing these grievances and argues against policies calculated to continue such indifference to great human suffering The horror and pain suffered by females does not end with the act of rape There is always the fear and reality of being infected with HIV AIDS Concomitantly there is the possibility of becoming pregnant Then there is the birth of the babies For some the very sight of the babies and children reminds mothers of the horrific violations they suffered When mothers harbor deep seated hatred or disdain for such children it results in more misery The hatred may be so great that children born of rape leave home early in order to fend for themselves on the street This seventh volume in the Genocide series will provoke debate discussion reflection and ultimately action The issues presented include ongoing mass rape of girls and women during periods of war and genocide ostracism of female victims terrible psychological and physical wounds the plight of offspring resulting from rapes and the critical need for medical and psychological services **Armenian American Almanac** Hamo B. Vassilian, 1995 **The Armenians** Hamo B. Vassilian, 1993 **Genocide in the Age of the Nation State** Mark Levene, 2005-08-26 How should we understand genocide in the modern world As an aberration from the norms of a dominant liberal international society Or rather as a guide to the very dysfunctional nature of the international system itself The Meaning of Genocide is the first work of its nature to consider the phenomenon within a broad context of world historical development In this book Mark Levene sets out

the conceptual issues in the study of genocide addressing the fundamental problems of defining genocide and understanding what we mean by perpetrators and victims before placing the phenomenon in the context of world history In an original and compelling argument Levene seeks to explain how state violence against a range of groups has emerged in tandem with the rise of the West to global dominance and the emergence of increasingly streamlined homogenous states Levene contends that it is in the relationship of these nation states to each other that we will find the well springs of some of the most poisonous tendencies in the modern world Thought provoking and beautifully constructed *The Meaning of Genocide* is the first of a major four volume survey *Genocide in the Age of the Nation State* which examines its subject within an extensive global and historical framework and which will become the definitive work on the subject *The Armenian Genocide* ,1995

Let Them Not Return David Gaunt,Naures Atto,Soner O. Barthoma,2017-05-01 The mass killing of Ottoman Armenians is today widely recognized both within and outside scholarly circles as an act of genocide What is less well known however is that it took place within a broader context of Ottoman violence against minority groups during and after the First World War Among those populations decimated were the indigenous Christian Assyrians also known as Syriacs or Chaldeans who lived in the borderlands of present day Turkey Iran and Iraq This volume is the first scholarly edited collection focused on the Assyrian genocide or Sayfo literally sword in Aramaic presenting historical psychological anthropological and political perspectives that shed much needed light on a neglected historical atrocity **Philosemitism, Antisemitism and 'the Jews'** Tony Kushner,2017-05-15 Philosemitism Antisemitism and the Jews both honours and carries on the work of The Rev Dr James Parkes 1896 1981 a pioneer in the many different fields involving the study of Jewish non Jewish relations The collection is designed to examine both the specific and broader themes of Parkes life work in relation to tolerance and intolerance From antiquity to today Jews have often been defined as aliens these essays consider the effects of such legislative and socio cultural exclusion on the self definition of the dominant society Philosemitism Antisemitism and the Jews employs an interdisciplinary framework bringing together the work of scholars from both sides of the Atlantic and Israel who work in history theology political philosophy legal theory and literary studies Eminent historians and theorists of tolerance and intolerance including Gavin Langmuir David Theo Goldberg Norman Solomon and Tony Kushner are joined by younger scholars researching new developments in the field *Dealing with the Legacy of Authoritarianism* Antonio Costa Pinto,Leonardo Morlino,2013-09-13 In recent years the agenda of how to deal with the past has become a central dimension of the quality of contemporary democracies Many years after the process of authoritarian breakdown consolidated democracies revisit the past either symbolically or to punish the elites associated with the previous authoritarian regimes New factors like international environment conditionality party cleavages memory cycles and commemorations or politics of apologies do sometimes bring the past back into the political arena This book addresses such themes by dealing with two dimensions of authoritarian legacies in Southern European democracies repressive institutions and human rights abuses The

thrust of this book is that we should view transitional justice as part of a broader politics of the past an ongoing process in which elites and society under democratic rule revise the meaning of the past in terms of what they hope to achieve in the present This book was published as a special issue of South European Society and Politics

The Armenian Genocide
 Lorne Shirinian, Alan Whitehorn, 2001 The Armenian Genocide Hamo B. Vassilian, 1992 Absolute Destruction Isabel V. Hull, 2013-02-15 In a book that is at once a major contribution to modern European history and a cautionary tale for today Isabel V Hull argues that the routines and practices of the Imperial German Army unchecked by effective civilian institutions increasingly sought the absolute destruction of its enemies as the only guarantee of the nation s security So deeply embedded were the assumptions and procedures of this distinctively German military culture that the Army in its drive to annihilate the enemy military did not shrink from the utter destruction of civilian property and lives Carried to its extreme the logic of military necessity found real security only in extremities of destruction in the silence of the graveyard Hull begins with a dramatic account based on fresh archival work of the German Army s slide from administrative murder to genocide in German Southwest Africa 1904-7 The author then moves back to 1870 and the war that inaugurated the Imperial era in German history and analyzes the genesis and nature of this specifically German military culture and its operations in colonial warfare In the First World War the routines perfected in the colonies were visited upon European populations Hull focuses on one set of cases Belgium and northern France in which the transition to total destruction was checked if barely and on another Armenia in which military necessity caused Germany to accept its ally s genocidal policies even after these became militarily counterproductive She then turns to the Endkampf 1918 the German General Staff s plan to achieve victory in the Great War even if the homeland were destroyed in the process a seemingly insane campaign that completes the logic of this deeply institutionalized set of military routines and practices Hull concludes by speculating on the role of this distinctive military culture in National Socialism s military and racial policies Absolute Destruction has serious implications for the nature of warmaking in any modern power At its heart is a warning about the blindness of bureaucratic routines especially when those bureaucracies command the instruments of mass death

Bibliographic Guide to Slavic, Baltic, and Eurasian Studies ,1994 **The American Bibliography of Slavic and East European Studies** Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology *Bibliographic Index* ,1992 **The Cumulative Book Index** ,1992 A world list of books in the English language
