**Transcultural Essentialism** Adrian Carter, Marja Sarvimäki, 2021-11-04 This book introduces and defines the burgeoning concepts of transculturalism and essentialism and how they relate to one another as articulated with reference to the work of Jørn Utzon. It introduces critical contemporary perspectives of the design thinking and career of this renowned Danish architect internationally recognised for his competition winning iconic design for the Sydney Opera House, an outstanding exemplar of transcultural essentialism in architecture. Transcultural essentialism is analysed through the lens of critical regionalism and architectural phenomenology with emphasis on the sense of place and tectonics in Utzon's architectural works. It provides a new understanding of the Danish architect as an early proponent of a still emergent and increasingly relevant direction in architecture. Going beyond biographical studies, it presents a more comprehensive understanding of the broad range of transcultural influences that formed his thinking. The volume includes numerous previously unpublished photographs, drawings and interviews with Utzon's family members, former students and colleagues, offering a significant contribution to the existing body of knowledge for any architecture scholar interested in Utzon's work and design principles. The book also comprises a Foreword by eminent architecture theorist Juhani Pallasmaa in which he provides insights into the wider architectural and cultural context of Utzon's worldview.

**The Gateway Arch** Tracy Campbell, 2019-06-18 This fascinating, engaging history of St Louis's monument to American expansion reveals a story of greed, discrimination and community displacement. NextSTL.com Rising to a triumphant height of 630 feet, the Gateway Arch is one of the world's most widely recognized structures and attracts millions of tourists to St Louis every year. Envisioned in 1947 but not completed until the mid 1960s, its story is one of innovation and greed, civic pride and backroom deals. Weaving together social, political and cultural perspectives, historian Tracy Campbell uncovers the complicated and troubling history of this iconic symbol. In this revealing account, Campbell shows that the so-called Gateway to the West was the scheme of shrewd city leaders who were willing to steal an election, destroy historic buildings and drive out communities in order to make downtown St Louis more profitable. Campbell also tells the human story of the architect Eero Saarinen whose prize-winning design brought him acclaim but also charges of plagiarism and who didn't live to see the completion of his vision.

*Australian Dictionary of Biography, Volume 19* Melanie Nolan, 2021-03-09 Volume 19 of the Australian Dictionary of Biography (ADB) contains concise biographies of individuals who died between 1991 and 1995. The first of two volumes for the 1990s, it presents a colourful montage of late twentieth-century Australian life, containing the biographies of significant and representative Australians. The volume is still in the shadow of World War II, with servicemen and women who enlisted young appearing, but these influences are dimming, and there are now increasing numbers of non-white, non-male, non-privileged and non-straight subjects. The 680 individuals recorded in volume 19 of the ADB include Wiradjuri midwife and Ngannawal Elder Violet Bulger, Aboriginal rights activist, poet, playwright and artist Kevin Gilbert, and Torres Strait Islander community leader and land rights campaigner Eddie Mabo. HIV/AIDS child activists Tony Lovegrove and Eve Van Graffhorst have entries, as does conductor Stuart

**Great Planning Disasters** Peter Hall,1982-03-22 In this pathology of planning Peter Hall briskly recounts the histories of five great planning disasters and two near disasters and analyzes the decisions of the professional bureaucrats community activists and politicians involved in the planning process He draws on an eclectic body of theory from political science economics ethics and long range future forecasting to suggest ways to forestall such grand mistakes in the future For this edition Hall has added a special introduction in which he reflects further on the sequels to these cautionary tales and on the moral planners and citizens should draw from them *Finding a Common Interest* Lindie Clark,2002-10-08 This important book demonstrates how businesses can operate both profitably and ethically by finding a common interest between all those involved in their operations It does so through the example of Dick Dusseldorp founder of Lend Lease one of Australia s most admired blue chip corporations Arriving in postwar Australia with only one construction contract and a handful of workers on his company s books Dusseldorp built Lend Lease into a billion dollar property development and financial services concern Widely respected for his business success Dusseldorp was equally well known for his commitment to sharing the fruits of that success with the workers shareholders and clients of Lend Lease and the communities where the company conducted its business Not only does this book tell the story of Lend Lease and its founder through them it demonstrates how business can be done inclusively and so provides a workable model for corporate governance Understanding Policy Fiascoes Paul t Hart,2017-09-08 A crisis of governance is widespread in western societies Public administration is caught in a web of personal and organizational inter dependencies that require continuous awareness and readjustment on the part of its practitioners *Understanding Policy Fiascoes* applies policy analysis to come to terms with policy fiascoes with a full appreciation of its limits Despite the fact that policy failures may seem universal they are in fact better understood as social political and academic constructions Bovens and tHart trace how and why certain episodes of public policymaking become labeled as fiascoes They highlight the analytical and political biases that shape our judgments of policy outcomes and the performance of policymakers and institutions When put in their proper historical institutional and policymaking perspective many policy fiascoes could easily have turned out quite differently The authors show that the fact that these policy episodes

unfolded as they did does not mean that they were inevitable Careful analysis indicates that a whole series of variables if not always manageable can through careful configurations of decisions alter the course and outcomes of policies and programs as well as the post hoc judgments made about them In examining public policymaking certain questions arise If public policymaking has failed so miserably what does this tell us about the state of policy analysis While policymakers are facing a crisis of legitimacy policy analysis have been forced to reconsider the validity of their knowledge claims and the extent of their impact on the practice of policymaking Understanding Policy Fiascoes will provide social scientists policymakers and political scientists with compelling perspectives on old problems and a path breaking way to handle new problems

*Studies in Tectonic Culture* Kenneth Frampton, 2001-08-24 Composed of ten essays and an epilogue that trace the history of contemporary form as an evolving poetic of structure and construction the book's analytical framework rests on Frampton's close readings of key French and German and English sources from the eighteenth century to the present Kenneth Frampton's long awaited follow up to his classic *A Critical History of Modern Architecture* is certain to influence any future debate on the evolution of modern architecture *Studies in Tectonic Culture* is nothing less than a rethinking of the entire modern architectural tradition The notion of tectonics as employed by Frampton the focus on architecture as a constructional craft constitutes a direct challenge to current mainstream thinking on the artistic limits of postmodernism and suggests a convincing alternative Indeed Frampton argues modern architecture is invariably as much about structure and construction as it is about space and abstract form Composed of ten essays and an epilogue that trace the history of contemporary form as an evolving poetic of structure and construction the book's analytical framework rests on Frampton's close readings of key French and German and English sources from the eighteenth century to the present He clarifies the various turns that structural engineering and tectonic imagination have taken in the work of such architects as Perret Wright Kahn Scarpa and Mies and shows how both constructional form and material character were integral to an evolving architectural expression of their work Frampton also demonstrates that the way in which these elements are articulated from one work to the next provides a basis upon which to evaluate the works as a whole This is especially evident in his consideration of the work of Perret Mies and Kahn and the continuities in their thought and attitudes that linked them to the past Frampton considers the conscious cultivation of the tectonic tradition in architecture as an essential element in the future development of architectural form casting a critical new light on the entire issue of modernity and on the place of much work that has passed as avant garde A copublication of the Graham Foundation for Advanced Studies and The MIT Press

explore social values CEF A1      *The Penguins Ate My Postcards* Arlene Pullen, 2008-04-02

*The Penguins Ate My Postcards* tells the story of one woman's connections with people and places as she traveled around the world. It consists of essays grouped by theme of varying lengths and moods. They can be read in any order and independently of one another. Section One provides anecdotes about people the author met in the USSR, Australia, Cambodia, and Europe. Most of their stories are light and entertaining, but they all identify some characteristics of human beings in specific situations all of us have faced. Section Two through Section Five describe some of the places the author has traveled. She combines her feelings as she stood atop mountains or glaciers and watched the sun set behind them with the reality of the beauty she was capturing with her camera. Some of the essays are memoirs from the time when Communism ruled a vast part of the world and traveling was different in Iron Curtain countries from what it is now. She takes you on her taxi ride through Checkpoint Charlie in Berlin and on her train ride from Leningrad through the Baltic countries and Poland into East Berlin. Because the author was a teacher, she shares with you some of the literary and historic sites she visited, combining some facts with her impressions and some incidents that occurred in those places. You'll laugh along with her as she compares the people she met with beloved literary characters you'll remember from your high school and college English classes. You'll become pensive when she relates stories about genocide and civil strife in some of the Asian countries she has visited. You'll share some of her professional experiences as she visited schools in South Africa, Cambodia, England, China, and Vietnam, with her focus being on the conditions in which teachers and students interacted for learning. You'll remember the children. Some of the essays contain anecdotes about encounters with penguins in Antarctica, polar bears in the tundra, kangaroos in Australia, and camels in Egypt. The settings of her tales are diverse, and the enjoyment of being close to wild animals in their native habitat is strong. You'll walk alongside waterfalls, down mountain trails, within the remains of ancient civilizations, and in buildings constructed for some unique reasons. Section Six deals with the benefits of traveling, as the author illustrates some of the rules governing safe travel, especially for a woman traveling alone. She writes about the danger she encountered when the airplane tires blew while the plane was above the Himalayan Mountains and when she walked alone in some remote places. She provides humorous stories dealing with language differences in European countries. One essay extols the value of having a competent travel agent and tour guide, again with anecdotes that identify the relationship she had with agents who prepared some of her trips. Finally, the book answers the most frequently asked question of experienced travelers: What's your favorite place? *The Penguins Ate My Postcards* is an enjoyable collection of informal personal essays that will keep you interested in the people and places being featured, as they give you a strong impression of the location in which the events occurred. These essays are not the result of someone's imagination; the incidents actually happened, and the author was an eye witness to them. As you read, you'll recognize that the author has separated life into serious situations and light, humorous moods, but she treats all the participants with the respect and sensitivity necessary to tell their stories. Perhaps after you read *The Penguins Ate My*

Postcards you'll want to explore the world and find your own adventures Happy reading      After the Berlin Wall Christopher Hilton, 2011-11-30 On 7 May 1945 Grand Admiral Donitz named in Hitler's will as head of state authorised the unconditional surrender of all German forces to the Allies on the following day World War II in Europe was at an end But many of the German people would continue to endure hardships as both the country and the capital were to be divided between France the UK and the USA in the west and the USSR in the east East and West Germany and East and West Berlin would remain divided until 1989 By October 1990 however the two countries were reunited and the Berlin Reichstag was once again the seat of government Here politicians would put East and West back together again marrying a totalitarian atheist communist system with a democratic Christian capitalist one How did this marriage affect the everyday life of ordinary Germans How did combining two telephone systems two postal services hospitals farm land property industry railways and roads work How were women's rights welfare pensions trades unions arts rents and housing affected There had been no warning of this marriage and no preparation for it and no country had ever tried putting two completely opposite systems together before This is the story of what happened in the words of the people it happened to the people's story of an incredible unification
