The Pain Of Vengeance:

The Culture of Vengeance and the Fate of American Justice Terry K. Aladjem, 2008-01-14 America is driven by vengeance in Terry Aladjem's provocative account a reactive public anger that is a threat to democratic justice itself From the return of the death penalty to the wars on terror and in Iraq Americans demand retribution and moral certainty they assert the rights of victims and make pronouncements against evil Yet for Aladjem this dangerously authoritarian turn has its origins in the tradition of liberal justice itself in theories of punishment that justify inflicting pain and in the punitive practices that result Exploring vengeance as the defining problem of our time Aladjem returns to the theories of Locke Hegel and Mill He engages the ancient Greeks Nietzsche Paine and Foucault to challenge liberal assumptions about punishment He interrogates American law capital punishment and images of justice in the media He envisions a democratic justice that is better able to contain its vengeance

The Things I Learned After Being Kicked Out of Church Darla Hannah Melancon, 2010-08 This book is written for individuals that have felt alienated from God because the church failed After our son was sexually molested by another member of our church Richard and I looked to our pastors to help us navigate through trauma and pain that such an event produces Not only were our pastors ill equipped to direct us toward healing they were unable to express empathy or support Their solution was a don't talk rule and just forgive directive When these failed to satisfy us the senior pastor stated he would released us to find healing somewhere else In other words we were KICKED OUT OF CHURCH Like so many people that have been wounded by the church or church people our children were ready to just walk away from the church and the Lord After all how do you separate the two These were the only pastors our children had ever known Our pastors had taught us to view the church as family They had repeatedly reminded us We were in covenant relationship with the Lord and each other Yet when life got ugly they couldn't wait to get rid of us How do you separate the truth from the lies after such rejection Richard and I have a relationship with the Lord Jesus Christ that precedes our joining that church We knew that Jesus had not treated us so coldly We were not willing to walk away from Jesus Yet we too needed to learn to separate Jesus from religious tradition and religious people This is a recounting for that journey of learning to separate the God that loves us from the church that so often misrepresents Him May it give you hope

Revenge, Punishment and Anger in Ancient Greek Justice Joe Whitchurch, 2024-09-05 Anger was the engine of justice in the ancient Greek world It drove quests for vengeance which resulted in a variety of consequences often harmful not only for the relevant actors but also for the wider communities in which they lived From as early as the seventh century BCE Greek communities had developed more or less formal means of imposing restrictions on this behaviour in the form of courts However this did not necessarily mean a less angry or vengeful society so much as one where anger and revenge were subject to public sanction and sometimes put to public use By the fifth and fourth centuries the Athenian polis had developed a considerably more sophisticated system for the administration of justice encompassing a variety of laws courts and

procedures In essence the justice it meted out was built on the same emotional foundations as that seen in Homer Jurors gave licence to or restrained the anger of plaintiffs in private cases and they punished according to the anger they themselves felt in public ones The growing state in ancient Greek poleis did not bring about a transition away from angry private revenge to emotionless public punishment Rather anger came increasingly to move into the public sphere the emotional driver of an early state that defended its community and even itself through its vengeful acts of punishment

Vengeance right and holy. A sermon [on Rom. xii. 19] preached ... on the Day of Humiliation because of the Indian Mutinies Rev. Francis GARDEN,1857 *Tragic Agency in Classical Drama from Aeschylus to Voltaire* Paul

Hammond,2021-10-18 Are we free agents This perennial question is addressed by tragedy when it dramatizes the struggle of individuals with supernatural forces or maps the inner conflict of a mind divided against itself The first part of this book follows the adaptations of four myths as they migrate from classical Greek tragedy to Seneca and on to seventeenth century France the stories of Agamemnon Oedipus Medea and Phaedra Detailed linguistic analysis charts the playwrights contrasting assumptions about agency and autonomy In the second part six plays by Corneille and Racine are discussed to show how the problem of agency and free will is explored in scenarios which show protagonists who are in thrall to their past to their rulers or to their own ideals

Honor and Revenge: A Theory of Punishment Whitley R.P. Kaufman,2012-08-28 This book addresses the problem of justifying the institution of criminal punishment It examines the paradox of retribution the fact that we cannot seem to reject the intuition that punishment is morally required and yet we cannot even after two thousand years of philosophical debate find a morally legitimate basis for inflicting harm on wrongdoers The book comes at a time when a new abolitionist movement has arisen a movement that argues that we should give up the search for justification and accept that punishment is morally unjustifiable and should be discontinued immediately This book however proposes a new approach to the retributive theory of punishment arguing that it should be understood in its traditional formulation that has been long forgotten or dismissed that punishment is essentially a defense of the honor of the victim Properly understood this can give us the possibility of a legitimate moral justification for the institution of punishment
