The Painted View:

The Apollonian Clockwork Louis Andriessen, Elmer Schönberger, 2025-10-01 I think my music deserves to be considered as a whole Igor Stravinsky remarked at the end of a long and restless career and that is exactly what the authors of *The Apollonian Clockwork* do In 1982 convinced that there is no essential difference between early and late Stravinsky Louis Andriessen and Elmer Schönberger were the first to write a monograph on the composer which radically breaks with the habit of dividing his works into Russian neoclassical and serial In an essay which continually shifts in its approach style and perspective the authors elaborate on their insight that a single immutable compositional attitude underlies the whole of Stravinsky's oeuvre By this token the book not only offers an analysis of the composer's protean work and artistry but takes example by it as well

From the Act of Judging to the Sentence Artur Rojczczak, 2006-03-30 IN MEMORIAM OF ARTUR ROJSZCZAK For a teacher the opportunity to write the Foreword to a student's work gives rise to a sense of fulfilment and pride In this case however although the latter remains the former has been effaced In a well ordered world Artur Rojczczak would have perhaps one day written tributes to ourselves It is a poignant paradox when teachers are called upon to comment posthumously on the work of one of their students This is a terrible task which falls to us who have been not only mentors and colleagues to Artur but also simply friends of eulogizing someone who has died so soon and so tragically Artur was killed together with his father by an aggressive neighbour on September 27 2001 Artur's wife was severely injured in the same attack Artur was born on March 12 1968 in Subice close to the Polish German border He studied in the Electronics College in Zielona Góra graduating in 1987 But from very early on his dream was to study philosophy and to do so at the Jagiellonian University in Cracow no other place was considered by him seriously He entered the university in 1988

Edge of the Screen Murray Pomerance, 2024-11-14 This book is a series of seventeen meditations that revolve around the notion of the viewer's placement at the edge of the screen Every page is an opportunity to think about an aspect of film or of film viewing in new ways and to begin reconsidering deeply ingrained ways of unthinkingly characterizing and accounting for what it is that we watch when we watch a film what happens to us and how we make sense of and appreciate it This volume follows from three others by the author *Virtuoso Film Performance and the Actor's Magic* 2020 *The Film Cheat Cinematic Artifice and Viewing Pleasure* 2021 and *Uncanny Cinema Agonies of the Viewing Experience* 2022 All of these including *Edge of the Screen* meander and interrogate cinema as we watch it both connecting us to and disconnecting us from the moment of pleasure Each meditation is characterized by a deep penetration of the inquiring continually hungry authorial mind and a very extensive set of analyses of filmic moments from myriad films including 2001 A Space Odyssey Memento Zabriskie Point An American in Paris Planet of the Apes 1968 Superman 1978 Possessed The Jungle Book 1942 The Spy Who Came In from the Cold The Toll of the Sea Rope and numerous others These meditations are careful and philosophical as much as energetically ruminative yet are written in an accessible style for all interested readers who both love cinema and wonder

about that love Each chapter can stand alone even though all work together to challenge perspectives on what we encounter experience think and feel when we watch films Across its chapters Edge of the Screen takes on a wide range of topics the ontology of film the relation between characters actors and the figures who appear onscreen film s relationships to the other arts especially painting but also novels and theatre the passage of time in film and its momentary character film criticism including deeply held values such as coherence film s relationship to mortality and more

Utopian Adventure: The Corviale Void Victoria Watson,2016-02-17 This book is about contemporary issues in architecture and urbanism taking the form of a project for The Corviale Void a one kilometre long strip of urban space immured in the notorious Corviale housing development in the Southwestern sector of Rome Corviale is a bizarre object single minded in its idea the history of Corviale can be traced to debates in Italian architecture culture of the 1960 s including Aldo Rossi s objection to urbanisation as articulated in his books and projects On the one hand the project for the Corviale Void begins with one of the original theorists of modern urbanisation and architecture Giovanni Battista Piranesi looking into his fascination with the insides of walls On the other hand the project begins with a new material form The Air Grid Like the forms appearing in Piranesi s etchings Air Grid is made from a kind of hatching but Air Grid is hatched out of colour vectors literally drawn into the air The human eye is easily mesmerised by the Air Grid scanning back and forth it reads the colour form as animated in some sense alive At the same time as the Italian architects were engaged in those activities that would eventually give birth to the Corviale Void the painter Yves Klein was creating The Architecture of the Air Klein s work is of special interest to the project of the Corviale Void because of the important role of colour in the development of his thinking about architecture By attending to Klein s parallel inquiry Air Grid is brought into dialogue with the philosophy of Arthur Schopenhauer who was one of the first thinkers to develop a physiological theory of colour The important thing about Schopenhauer s thinking is the careful way he looked at physiological phenomena regarding them as directly informed by metaphysical powers for Schopenhauer Architecture too is a physiological matter and hence metaphysical The concluding proposal for the Corviale Void presents a metaphysical archite
