CHINESE PAINTING Deng Qiaobin,2019-12-26 Chinese Painting An Intellectual History provides a panorama of Chinese painting from primitive times to the Qing Dynasty But it is not a mere list of various theories paintings and painters in chronological order Much space of the book is devoted to describing the political cultural and economic situations as well

as the philosophical literary and academic elements that have influenced Chinese painting In its presentation of painters painting theories schools and genres the book combines general introduction with case studies and in so doing maintains an objective and unbiased stance To controversial topics such as the role of Buddhism and Taoism and the division of Northern School and Southern School in landscape painting the book analyzes political and cultural causes but gives no definite answer thus allowing interpretation by the readers As the title suggests the book is not an exclusive discussion on painting theories otherwise a more appropriate title would be Chinese Painting Theories or A History of Chinese Painting By intellectual the author meant to include not only systematic painting theories and fragmented commentaries that are written in words but also the implicit and intangible message or thoughts underlying the creation of Chinese painting Therefore reading this book is not only a way of appreciating Chinese painting but also helps in understanding Chinese culture
