1600 BC The Dawn of Genius puts back into the place the missing pieces of the puzzle that is Europe prior to a massive watershed in population and culture that took place after 2000 BC A cataclysmic volcanic eruption in the Eastern Mediterranean destroyed an almost totally forgotten infrastructure that encompassed an entire continent and opened Europe to an unparalleled invasion of much less sophisticated people from the East The book recreates the culture and religion and scientific knowledge that was shattered in an instant and which plunged the world into a dark age from which it has taken over 3 000 years to emerge This is probably the most comprehensive explanation of mysteries from a truly ancient world that has ever been written Those interested in exploring the genuine origins of the modern world are certain to be enthralled

Civilization One Christopher Knight, Alan Butler, 2014-03-04 How a quest to crack the mystery of the Megalithic Yard led to the discovery of compelling evidence pointing to the existence of a highly advanced culture predating the earliest known civilizations There must have been a civilization one Knight and Butler reveal the secrets of an extraordinary integrated measuring system which might have been lost to the world for ever It was a system far more advanced than anything used today which forms the basis of both the Imperial and Metric measure systems These ancient scientists understood the dimensions motions and relationships of the Earth Moon and Sun they measured the solar system and even understood how the speed of light was integrated into the movements of our planet Their conclusions fly in the face of everything that we thought we knew about the origins of the modern world but the evidence is incontrovertible *Encyclopedia of Hair* Victoria Sherrow, 2023-03-30 This popular volume on the culture of hair through human history and around the globe has been updated and revised to include even more entries and current information How we style our hair has the ability to shape the way others perceive us For example in 2017 the singer Macklemore denounced his hipster undercut hairstyle a style that is associated with Hitler Youth and alt right men and in 2015 actress Rose McGowan shaved her head in order to take a stance against the traditional Hollywood sex symbol stereotype This volume examines how hair or lack thereof can be an important symbol of gender class and culture around the world and through history Hairstyles have come to represent cultural heritage and memory and even political leanings social beliefs and identity This second edition builds upon the original volume updating all entries that have evolved over the last decade such as by discussing hipster culture in the entries on beards and mustaches and recent medical breakthroughs in hair loss New entries have been added that look at specific world regions hair coverings political symbolism behind certain styles and other topics **Library Catalog of the Metropolitan Museum of Art, New York** Metropolitan Museum of Art (New York, N.Y.). Library, 1980 Minoan Architecture and Urbanism Quentin Letesson, Carl Knappett, 2017 Nearly 4 000 years ago some of the very earliest towns of Europe appeared on the Mediterranean island of Crete In this book we offer new insights into these ancient palaces and towns as a contribution to a broader understanding of the diverse ways in which humans have made and used ancient built environments
