**Arab Minority Nationalism in Israel** Amal Jamal, 2011-03-17 National minorities and their behaviour have become a central topic in comparative politics in the last few decades Using the relationship between the state of Israel and the Arab national minority as a case study this book provides a thorough examination of minority nationalism and state minority relations in Israel Placing the case of the Arab national minority in Israel within a comparative framework the author analyses major debates taking place in the field of collective action social movements civil society and indigenous rights He demonstrates the impact of the state regime on the political behaviours of the minorities and sheds light on the similarities and differences between various types of minority nationalisms and the nature of the relationship such minorities could have with their states Drawing empirical and theoretical conclusions that contribute to studies of Israeli politics political minorities indigenous populations and conflict issues this book will be a valuable reference for students and those in policy working on issues around Israeli politics Palestinian politics and the broader Palestinian Israeli conflict

Palestinians in Israel after the Arab Spring Yusri Hazran Khaizran, Muhammad Khalaily, 2025-05-01 The Arab Spring initially ignited excitement for Arab society in Israel But following the outbreak of the uprising in Syria Israeli Arab attitudes shifted This book demonstrates why the Arab Spring and especially the war in Syria provoked such deep fragmentation for Palestinians in Israel Based on governmental and public surveys the book shows that many more Arab Palestinian citizens became supportive of instrumental integration with Israeli politics following the Arab Spring But the momentous events convinced other Arab citizens to abandon the connection

between finding a solution for the Palestinian problem if it involved integration with the state At the same time this book reveals that the younger generations wanted to search for alternatives to replace the existing political frameworks completely and were inspired to form a new model of political activism This is the first study to explore how the Arab Spring affected Arab society in Israel in terms of identity political discourse and behaviour In doing so it covers the new policy adopted by the central government in Israel formed after 2011 to strengthen civic discourse amongst Arab citizens It has been neither Israelization nor Zionization but Instrumental integration which meets the conditional citizenship offered by the state

**Israel's Security and Its Arab Citizens** Hillel Frisch, 2011-10-24 Although a rich literature combining international relations and domestic political developments has recently emerged most works specializing in state minority relations nationalism citizenship and human rights have not integrated insights from the field of international relations and security affairs into their analysis This absence is nowhere more visible than in the study of relations between the Israeli state and its Arab Palestinian minority This book aims to bring back international relations and international security perspectives into the analysis of relations between the Israeli state and its Arab minority Drawing on international relations theory it argues that the relationship between the Israeli state and the predominant community as in many other cases characterized by ethno national cleavage was heavily influenced by the state's broader regional geo strategic security situation State policies toward Israel's Arab citizens moderated in the rare times of relative geo strategic security and hardened when Israel's regional position became more precarious

*Making Constitutions in Deeply Divided Societies* Hanna Lerner, 2011-05-12 How can societies still grappling over the common values and shared vision of their state draft a democratic constitution This is the central puzzle of *Making Constitutions in Deeply Divided Societies* While most theories discuss constitution making in the context of a moment of revolutionary change Hanna Lerner argues that an incrementalist approach to constitution making can enable societies riven by deep internal disagreements to either enact a written constitution or function with an unwritten one She illustrates the process of constitution writing in three deeply divided societies Israel India and Ireland and explores the various incrementalist strategies deployed by their drafters These include the avoidance of clear decisions the use of ambivalent legal language and the inclusion of contrasting provisions in the constitution Such techniques allow the deferral of controversial choices regarding the foundational aspects of the polity to future political institutions thus enabling the

constitution to reflect a divided identity      Mental Health and Palestinian Citizens in Israel Itzhak Levav, Muhammad M. Haj-Yahia, Ora Nakash, 2019-10-01 Minorities face particular social strains and these are often manifested in their overall mental health In Israel just under a quarter of the citizens are Arab Palestinians yet very little has been published exploring the spectrum of mental health issues prevalent in this population The work collected here draws on the first hand experience of experts working with Israeli Palestinians to highlight the problems faced by service users their families and their communities Palestinians in Israel face unique social gender and family related conditions that also need reliable research and assessment Mental Health and Palestinian Citizens in Israel offers research and observation on three central topics socio cultural determinants of mental health mental health needs and mental health service utilization From suicidal behaviors and addiction to generational trauma and the particular concerns of children and the elderly this broad and careful collection of research opens new dialogues on treatment prevention and methods for providing the best possible care to those in need

*Women in Israel* Doctor Nahla Abdo, 2013-07-04 *Women in Israel* provides a fresh gendered analysis of citizenship in Israel Working from a framework of Israel as a settler colonial regime this important insightful book presents historical and contemporary comparative approaches to the lives and experiences of Ashkenazi Mizrahi and Palestinian Arab women citizens Nahla Abdo shows that no solution to the problems of the region can be found without changing existing racial and gender boundaries to citizenship      **Encyclopedia of the Palestinians** Philip Mattar, 2005 Presents the history of modern Palestine and biographies of important Palestinians      The Palestinians Cheryl Rubenberg, 2003 A forceful penetrating critique of the Oslo Accords and their devastating aftermath      **Palestinian Refugees in International Law** Francesca P. Albanese, Lex Takkenberg, 2020-05-21 The Palestinian refugee question resulting from the events surrounding the birth of the state of Israel seventy years ago remains one of the largest and most protracted refugee crises of the post WWII era Numbering over six million in the Middle East alone Palestinian refugees status varies considerably according to the state or territory hosting them the UN agency assisting them and political circumstances surrounding the Israeli Palestinian conflict these refugees are naturally associated with Despite being foundational to both the experience of the Palestinian refugees and the resolution of their plight international law is often side lined in political discussions concerning their fate This compelling new book building on the seminal contribution of the first edition 1998 offers a clear and comprehensive analysis of various areas of international law including refugee law human rights law humanitarian law the law relating to stateless persons principles related to internally displaced persons as well as notions of international criminal law and probes their relevance to the provision of international protection for Palestinian refugees and their quest for durable solutions

Contesting the Monolith Priya Singh, 2025-10-24 The book challenges the notion that Israel is a homogeneous state whether in theory or in practice It offers a detailed and critical intersectional analysis of nationalism ethnicity gender and marginality in Israeli society revealing how these forces converge to produce multiple as well as fused identities within a

complex social fabric Examining the ruptures and fault lines that shape a multi layered society the study contends that Israel s exceptionality lies not in its self proclaimed Jewish and democratic character but in its resort to exceptional legal and coercive measures to mask internal diversity By obscuring this heterogeneous reality the state cultivates an illusion of a monolithic and uniform Israeli identity The analysis presents a society far more fragmented and stratified than official narratives suggest offering readers an understanding of how intersecting structures of identity and power operate in the Israeli context and how social and political institutions respond to and regulate internal difference This book will be of interest to academic researchers postgraduate and doctoral students and policymakers engaged with questions of nationalism marginality identity and Middle Eastern politics particularly within the disciplines of political science sociology Middle Eastern studies and gender studies

**Political Islam** Khalad Hroub, 2012-06-15 This volume offers a comprehensive discussion of the contemporary debates within political Islam providing an in depth analysis of the specific movements countries and regions in the Arab world and Israel The contributors contend that the evolution of Islamic movements is contextual rather than ideological Therefore Islamic movements are best understood individually within their own historical socio political and cultural setting Political Islam is an essential reference for academics researchers and the media as well as general readers with an interest in Islamic political debates Contributors include Abdullah Baabood Youcef Bouandel Abdelwahab El Affendi Kamal Helbawy Roel Meijer Ibrahim Moussawi Tariq Ramadan Tilde Rosmer Murad Batal al Shishani Sara Silvestri and Camille Tawil

**To Be an Arab in Israel** Laurence Louër, 2007-03-06 To Be an Arab in Israel fills a long neglected gap in the study of Israel and the contemporary Arab world Whether for ideological reasons or otherwise both Israeli and Arab writers have yet to seriously consider Israel s significant minority of non Jewish citizens whose existence challenges common assumptions regarding Israel s exclusively Jewish character Arabs have been a presence at all levels of the Israeli government since the foundation of the state Laurence Lou r begins her history in the 1980s when the Israeli political system began to take the Arab nationalist parties into account for the political negotiations over coalition building Political parties especially Labour sought the votes of Arab citizens by making unusual promises such as ownership and access to land The continuing rise of nationalist sentiments among Palestinians however threw the relationship between the Jewish state and the Arab minority into chaos But as Lou r demonstrates Palestinization did not prompt the Arab citizens of Israel to set aside their Israeli citizenship Rather Israel s Arabs have sought to insert themselves into Israeli society while simultaneously celebrating their difference and these efforts have led to a confrontation between two conceptions of society and two visions of Israel Lou r s fascinating book embraces the complexity of this history revealing the surprising collusions and compromises that have led to alliances between Arab nationalists and Israeli authorities She also addresses the current role of Israel s Arab elites who have been educated at Hebrew speaking universities and the continuing absorption of militant Islamists into Israel s bureaucracy To Be an Arab in Israel is a discerning treatment of an enigmatic little known but

nevertheless highly influential people Their effect on the balance of power in the Middle East seems destined to grow in the twenty first century

**Palestinian NGOs in Israel** Shany Payes,2005-01-28 One in every six Israeli citizens is a Palestinian Arab While much has been written about the Palestinians of the West Bank and Gaza the struggle for political rights by Palestinian citizens of Israel remains largely unexplored Shany Payes offers a fresh look at this struggle through analysis of the increasingly growing sector of Palestinian non governmental organisations Charting the political history of these associations over the last quarter of a century and running right up to developments during the recent Intifada she analyses the political repression of Palestinian civil society by the Israeli state and attempts by Palestinian NGOs in Israel to build a civil society in the face of such oppression Palestinian NGOs is required reading for all those interested in the Israel Palestine conflict minority rights and civil society A lively and original contribution to a field in which there is already much interest but where few works of any substance have been produce I enjoyed the work immensely and would certainly recommend it warmly both to students and to those with a lively interest in things Palestinian Philip Robins St Antony s College Oxford Provides a fresh insight into political repression of Palestinian civil society by the Israeli state and attempts by Palestinian NGOs to build a civil society in the face of such oppression The result is a unique piece of work which other academics would be hard pressed to emulate Gerard Clarke Centre for Development Studies University of Wales Swansea

*Sacred Space in Israel and Palestine* Marshall J. Breger,Yitzhak Reiter,Leonard Hammer,2013-06-19 Religion and religious nationalism have long played a central role in many ethnic and national conflicts and the importance of religion to national identity means that territorial disputes can often focus on the contestation of holy places and sacred territory Looking at the case of Israel and Palestine this book highlights the nexus between religion and politics through the process of classifying holy places giving them meaning and interpreting their standing in religious and civil law within governmental policy and within international and local communities Written by a team of renowned scholars from within and outside the region this book follows on from Holy Places in the Israeli Palestinian Conflict Confrontation and Co existence to provide an insightful look into the politics of religion and space Examining Jerusalem s holy basin from a variety of perspectives and disciplines it provides unique insights into the way Jewish Christian and Muslim authorities scholars and jurists regard sacred space and the processes grass roots and official by which spaces become holy in the eyes of particular communities Filling an important gap in the literature on Middle East peacemaking the book will be of interest to scholars and students of the Middle East conflict conflict resolution political science urban studies and history of religion

**Palestinian Citizens of Israel** Sharri Plonski,2017-12-13 The contest to maintain and reclaim space is firmly tied to the identity and culture of a displaced population Palestinian Citizens of Israel is a study of Palestinian communities living inside the Jewish state and their attempts to disrupt and reshape the physical and abstract boundaries that contain them Through extensive fieldwork and numerous interviews Sharri Plonski conducts a comparative analysis of resistance movements anchored in three key

sites of the Palestinian experience the defence of housing rights in Jaffa the protest against settlement in the Galilee region and the campaign for Bedouin land rights in the Naqab desert Her research investigates the dialectical relationship between power and resistance as it relates to socio spatial segregation and the struggle for national recognition Plonski s examination of Palestinian activism and transgression offers valuable insight into the structures and reaches of power from within the Israeli state This book will be of interest to students and scholars of both Middle East Studies and Palestinian Israeli politics

**A Liminal Church** Maria Chiara Rioli, 2020-08-25 The history of the Palestine War does not only concern military history It also involves social humanitarian and religious history as in the case of the Roman Catholic Diocese of Jerusalem A Liminal Church offers a complex narrative of the Latin patriarchal diocese commonly portrayed as monolithically aligned with anti Zionist and anti Muslim positions during the long year of 1948 Making use of largely unpublished archives in the Middle East Europe and the United States including the recently released Pius XII papers Maria Chiara Rioli depicts a church engaged in multiple and sometimes contradictory pastoral initiatives amid harsh battles relief missions for Palestinian refugees theological reflections on Jewish converts to Catholicism political relations with the Israeli and Jordanian authorities and liturgical responses to a fluid and uncertain scenario The pieces of this history include the Jerusalem grand mufti s appeal to Pius XII to support the Arab cause the Catholic liturgies for peace and international mobilization during the Palestine War and Suez crisis refugees petitioning the patriarch for aid and Jewish converts establishing Christian kibbutzim New archival collections and records reveal hidden aspects of the lives of women children and other silenced actors faith communities and religious institutions during and after 1948 connecting narratives that have been marginalized by a dominant historiography more focused on military campaigns or confessional conflicts A Liminal Church weaves diocesan history with global history In the momentous decade from 1946 to 1956 the study of the transnational Jerusalem Latin diocese as split between Israel Jordan Egypt and Cyprus with ties to diaspora and religious international networks and comprising clergy from all over the world attests to the possibilities of contrapuntal narratives reintroducing complexity to a deeply and painfully polarized debate exposing false assumptions and situating changes and ruptures in a long term perspective *Politics of Arabic in Israel* Camelia Suleiman, 2018-02-01 Explores popular Renaissance tragedies through a chronological commentary of political social cultural and aesthetic factors
