Uku,1969 *African Americans and the Nigerian Civil War, 1967-1970* James A. Farquharson,2024-07-22 This book is the first to recover and analyse at length the extent complexity and character of African American responses to the Nigerian Civil War 1967 1970 Far from having only marginal significance the Nigerian Civil War collided at full velocity with the conflicting discourses and ideas by which black Americans sought to understand their place in the United States and the world in the late 1960s Black civil rights leaders offered their service as agents of direct diplomacy during the conflict seeking to preserve Nigerian unity grassroots activists organised food drives concerts and awareness campaigns in support of humanitarian aid for victims of famine in the warzone while other black activists warned of an imminent genocide and called for an united response from black Americans Drawing on private papers activist literature government records and especially the black press it charts the way the civil war shaped as well as challenged the worldview of African Americans regarding black internationalist solidarities territorial sovereignty and political viability humanitarian compassion and the political trajectory of postcolonial Africa With a chronological approach this study is the ideal resource for all those interested in the Nigerian Civil War and the history of black internationalism **The Politics of Post-War Demobilisation and Reintegration in Nigeria** Olukunle Ojeleye,2016-02-24 With an increasing international interest in post civil war demobilisation and reintegration especially in Africa Ojeleye presents a well timed body of knowledge on the Nigerian civil war Moreover this book provides an in depth study of the modalities and processes of the demobilisation and reintegration exercises carried out at the end of the Nigerian civil war and assesses their implications for national politics in the West African nation The author identifies the political socio economic and cultural background to the Nigerian civil war and discusses the central theme of demobilisation disarmament and reintegration DDR in Nigeria against the backdrop of the policy of the country s post war reconstruction reconciliation and rehabilitation exercise the 3Rs Though the central theme is Nigeria it compares the demobilisation and reintegration exercise in Nigeria with other attempts in Sub Sahara Africa by highlighting the important deviations and drawing some conclusions on the Nigerian experience It also touches on issues relating to international involvement and intervention in civil wars and the roles of the African Union the Commonwealth of Nations and the United Nations **The Nigeria-Biafra War , Torn Apart** Francoise UGOCHUKWU,2010-11-30 The Nigerian Civil War 1967 1970 also known as the Biafran War has been described as a forgotten war Yet it led to the birth of the NGO Doctors without Borders Medecins sans frontieres and equipped journalists with the intercultural skills they later used in their coverage of other African conflicts The Biafran conflict equally ended up strengthening the special relationship between France and Nigeria From 1970 in particular the Nigerian education sector was taken up with a wave of francophilia which boosted the teaching of French in Language programmes at the secondary

Pan Africanism in the African Diaspora Ronald W. Walters, 1997 This groundbreaking volume analyzes important case studies of Black political movements since the 1960s and the impact of the movements on the African American community Previous studies on this subject have been largely historical in nature focusing on the thought of nineteenth century Pan Africanist or early twentieth century formal Pan African movements such as those led by W E B Du Bois and Marcus Garvey In this book Walters analyzes heretofore largely unaddressed cases in which African American societies forged connections with others in the Diaspora within the framework of significant political movements He applies social science theory to the analysis of the cases based on the proposition that Pan African studies a subject within the broad field of Africana Studies is itself very diverse and lends itself to analysis by an unlimited number of modern disciplinary approaches and perspectives Walters uses the tools of comparative politics for examining similar Black and white social institutions and organizations in the United States and other countries and for creating a tailored Pan African perspective as a criteria with which to describe the interactive relationships between the American Black community and Blacks in Britain South Africa Brazil and the Caribbean He fashions a unique and radically new perspective and model for addressing the age old question of the African continuum by advancing the notion that Pan Africanism can be about the struggle for community a struggle not incompatible with efforts to change the State His is a twenty first century view of race relations and classes in the post modern era of capitalism Pan

Africanism in the African Diaspora is broadly a work of political science in that it is concerned with political phenomena and applies methods of analysis from that field. Nevertheless, it is also interdisciplinary in content perspective and analytical approach. Walters' new data transcends the notions previously put forth and forms a significant contribution to political theory in African and African American studies.

[The Cambridge History of Africa](#) J. D. Fage, Roland Anthony Oliver, Michael Crowder, 1975 The eighth and final volume of The Cambridge History of Africa covers the period 1940-75. It begins with a discussion of the role of the Second World War in the political decolonisation of Africa. Its terminal date of 1975 coincides with the retreat of Portugal, the last European colonial power in Africa, from its possessions and their accession to independence. The fifteen chapters which make up this volume examine on both a continental and regional scale the extent to which formal transfer of political power by the European colonial rulers also involved economic, social and cultural decolonisation. A major theme of the volume is the way the African successors to the colonial rulers dealt with their inheritance and how far they benefited particular economic groups and disadvantaged others. The contributors to this volume represent different disciplinary traditions and do not share a single theoretical perspective on the recent history of the continent, a subject that is still the occasion for passionate debate.

[Narrating War and Peace in Africa](#) Solimar Otero, 2010 Narrating War and Peace in Africa interrogates conventional representations of Africa and African culture, mainly in the twentieth and early twenty-first centuries, with an emphasis on portrayals of conflict and peace. While Africa has experienced political and social turbulence throughout its history, more recent conflicts seem to reinforce the myth of barbarism across the continent. In Nigeria, Rwanda, Somalia, Sierra Leone, Uganda, Kenya, Mozambique, Chad, South Africa, Zimbabwe, and Sudan, the essays in this volume address reductive and stereotypical assumptions of postcolonial violence as tribal in nature and offer, instead, various perspectives across disciplinary boundaries that foster a less fetishized, more contextualized

understanding of African war peace and memory Through their geographical historical and cultural scope and diversity the chapters in Narrating War and Peace in Africa aim to challenge negative stereotypes that abound in relation to Africa in general and to its wars and conflicts in particular encouraging a shift to more balanced and nuanced representations of the continent and its political and social climates Contributors Ann Albuyeh Zermarie Deacon Alicia C Decker Am na Mo nfar Kayode Omoniyi Ogunfolabi Sabrina Parent Susan Rasmussen Michael Sharp Cheryl Sterling Hetty ter Haar Melissa Tully Pamela Wadende Metasebia Woldemariam Jonathan Zilberg Toyin Falola is the Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas at Austin Hetty ter Haar is an independent researcher in England Learning That Transfers Julie Stern, Krista Ferraro, Kayla Duncan, Trevor

The Organization of African Unity , The political and spiritual affinity felt by black peoples may date back centuries but it was first formalized in Africa by a series of conferences at the beginning of the twentieth century In the postwar struggle for independence Africanness became a potent force Later in the early 1960s the flood of newly independent African states adopted a Pan African ideal in their common struggle against the remaining colonial and white dominated territories on the continent The launch of the Organization of African Unity OAU in 1963 was an impressive achievement by any standards and many commentators cited in this bibliography recognize this adding that the OAU s survival for thirty years is even more astonishing Overall however assessments of the OAU s activities have not been positive Lack of unanimity among member states has weakened the OAU s ability to deal with disputes While critical of OAU s ineffectiveness most writers marvel at the organization s resilience over three decades While Central and Eastern Europe fragment Africa is still represented by one organization with annual meetings continuing to be held and attended by foreign ministers prime ministers and presidents Chapters in this original and comprehensive bibliography include Literature on the OAU General Assessments The OAU in African Politics and The OAU in World Politics There are also extensive indexes of authors titles and subjects regarding the OAU Organization of African Unity is a critical resource for political scientists historians and Africa area specialists seeking to understand a changing continent
