Law Librarianship in the Twenty-First Century Roy Balleste,Sonia Luna-Lamas,Lisa Smith-Butler,2006-12-28 The role of providing public access to the law is a critical one for librarians It has been over ten years since the last law librarianship textbook was published Since that time much has changed in the profession and with the emergence of new

technologies such as artificial intelligence and quantum computing law librarians must master legal materials and a thorough understanding of the latest technologies in order to best serve the public Law Librarianship in the 21st Century a text for library and information science courses on law librarianship introduces students to the rapidly evolving world of law librarianship With no prior knowledge of the law required students using this book will find practical answers to such questions as What is law librarianship How do you become a law librarian How does law librarianship interrelate with the legal world Individual chapters provide a concise treatment of such specialized topics as the history of law librarianship international law and government documents Standard topics are dealt with as they apply to the law library including collection development public services technical processing administration technology and consortia The textbook also includes an explanation of the common acronyms and special terminology needed to work in a law library

The Legal Bibliography Scott B. Pagel, 1989 Law librarians in any setting will find The Legal Bibliography useful in developing purchasing and using bibliographies in the future Practicing law librarians and bibliographers share their views on the evolving state of the legal bibliography The rapidly changing world of librarianship presents the information specialist with new methods of accessing bibliographic information These changes also have implications for the future of the printed bibliography Some librarians have abandoned or do not even know of titles that were once familiar to every member of a reference staff in favor of databases and CD ROM products Yet printed bibliographies some of questionable value continue to be published and compete for a place on the acquisitions list of many libraries The law librarian is affected by this change as much if not more than other members of the profession A researcher seeking legal information is usually concerned with the very latest references bringing into question the adequacy of traditional printed compilations or compilations produced simply by conducting a database search Concentrating on their own areas of expertise the contributors describe their use or creation of legal bibliographies and consider the ways in which technology might be changing their work Some of the contributors emphasize classic bibliographies of the past while others look at how the legal bibliography is used by the legal information specialist today and how the changing nature of access to bibliographic information affects their work Still others speak to the future in discussing projected publications or ideas for alternative methods of creating and distributing bibliographies The chapters describing some of the major bibliographies of the past will also be valuable Several of the chapters will be helpful to authors of bibliographies both legal and non legal who should be considering the methods used to produce and distribute their product This volume will also be essential to those interested in the topic of bibliography for purposes of comparison with other areas of specialization Ideal for law librarians library school collections and anyone interested in the topic of bibliography in general
