The Paradise Plot:

The Paradise Plot Ed Naha, 1980-01-01

The Cancer Plot Reginald Wiebe, Dorothy Woodman, 2024-04-05 In *The Cancer Plot* Reginald Wiebe and Dorothy Woodman examine the striking presence of cancer in Marvel comics. Engaging comics studies, medical humanities, and graphic medicine, they explore this disease in four case studies: Captain Marvel, Spider-Man, Thor, and Deadpool. Cancer, the authors argue, troubles the binaries of good and evil because it is the ultimate nemesis within a genre replete with magic, mutants, and multiverses. They draw from gender theory, disability studies, and cultural theory to demonstrate how cancer in comics enables an examination of power and responsibility, key terms in Marvel's superhero universe. As the only full-length study on cancer in the Marvel universe, *The Cancer Plot* is an appealing and original work that will be of interest to scholars across the humanities, particularly those working in the health humanities, cultural theory, and literature, as well as avid comics readers.

Plots Robert L. Belknap, 2016-05-17 Robert L. Belknap's theory of plot illustrates the active and passive roles literature plays in creating its own dynamic reading experience. Literary narrative enchants us through its development of plot, but plot tells its own story about the making of narrative, revealing through its structures, preoccupations, and strategies of representation critical details about how and when a work came into being. Through a rich reading of Shakespeare's *King Lear* and Dostoevsky's *Crime and Punishment*, Belknap explores the spatial, chronological, and causal aspects of plot, its brilliant manipulation of reader frustration and involvement, and its critical cohesion of characters. He considers Shakespeare's transformation of dramatic plot through parallelism, conflict resolution, and recognition. He then follows with Dostoevsky's development of the rhetorical and moral devices of nineteenth-century Russian fiction, along with its epistolary and detective genres, to embed the reader in the murder of Raskolnikov. Dostoevsky's reinvention of the psychological plot was profound, and Belknap effectively challenges the idea that the author abused causality to achieve his ideological conclusion. In a final chapter, Belknap argues that plots teach us novelistic rather than poetic justice. Operating according to their own logic, plots provide us with a compelling way to see and order our world.

Anna of Denmark and Henrietta Maria Susan Dunn-Hensley, 2017-10-11 This book examines how early Stuart queens navigated their roles as political players and artistic patrons in a culture deeply conflicted about the legitimacy of female authority. Anna of Denmark and Henrietta Maria both employed powerful female archetypes such as Amazons and the

Virgin Mary in court performances Susan Dunn Hensley analyzes how darker images of usurping contaminating women epitomized by the witch often merged with these celebratory depictions By tracing these competing representations through the Jacobean and Caroline periods Dunn Hensley peels back layers of misogyny from historical scholarship and points to rich new lines of inquiry Few have written about Anna's religious beliefs and comparing her Catholicism with Henrietta Maria's illuminates the ways in which both women were politically subversive This book offers an important corrective to centuries of negative representation and contributes to a fuller understanding of the role of queenship in the English Civil War and the fall of the Stuart monarchy

The Torah in the Ethics of Paul Martin Meiser, 2012-07-19 The relationship between Paul and Torah is often discussed in terms of Paul's theology of salvation However it is also important in Pauline ethics Whilst some scholars dismiss this because of a paucity of Old Testament quotations in Paul others hint at the consensus between Paul and early Jewish tradition concerning the content of single commands Each of these positions holds consequences for describing the relationship between Paul and Judaism in general In order to clarify the discussion the contributors to this volume distinguish strictly between various levels of Pauline theology the correspondence of single demands within Pauline and early Jewish ethics concerning the content the rationale of these single demands in comparison and the general hermeneutic basis of ethics This is done in the context of essays on the key Pauline passages pertaining to the debate As such this volume presents an up to date window into the current European debate surrounding Paul Torah and Ethics and into the state of discussion surrounding Paul's place within Judaism

Wilson,2018-12-21 David Wilson s initial research into the phenomenon of prophecy in the Hebrew Bible suggested that many of the passages featuring prophets and hitherto considered to be bizarre myths or much edited collections of traditions were in fact sequences of dreams Moreover it was possible to compare the structure of these sequences with the structure of a night s sleep hypnogram as revealed by modern sleep research to demonstrate that the sleeper was depressed This characteristic depressive sleep architecture was then used to show that three characters in particular Elijah Jonah and Adam compared in the New Testament with Jesus were all in fact depressed Quite naturally this raised further questions concerning the nature of Jesus himself Was he merely a prophet If he wasn t how did he differ If he was depressed how was

he able to function and succeed in his mission when Elijah and Jonah clearly had such great difficulties These and other questions are raised throughout this book and many of them are not new but they are however changed forever when asked against a contextual background of altered states of consciousness ASCs and dreamform in particular **The Ideas of the Fall and of Original Sin** Norman Powell Williams, 1927
