Building Stronger Communities with Children and Families Karl Brettig, Margaret Sims, 2015-10-05. This book captures the essence of how communities that better support healthy child development can be built. It includes a look at key elements of the Australian Communities for Children initiative, using a collaborative approach that takes into account community, government, and family. How can the voices of children be heard in decision-making processes that impact their futures? How can the avalanche of electronic games, the information superhighway, and social media be negotiated to support, educate, and protect children living in an online world? What does it mean to use a whole-of-community approach to supporting families? How can government departments and non-government agencies work together with communities to provide the kind of support that effectively engages families so that the quality of parenting improves and results in healthy child development? What strategies can be developed in early childhood and school settings to improve family functioning? How can the integration of fragmented services be improved? While these are undoubtedly diverse questions, this kind of holistic viewpoint is necessary if we are to redesign inadequate, siloed approaches and build family-friendly urban villages that deliver improved outcomes for children. Complex early childhood trauma often leads to recurring problems for generations with significant economic cost if there is no effective intervention. The current merry-go-round of services risks the re-traumatization and escalation of symptoms of those seeking help. If significant change is to be witnessed, relevant stakeholders need to make a concerted attempt to first of all listen to what children and families are saying and then to implement the kinds of practices and policies that will adequately address their needs and aspirations. To do this, a well-trained workforce that understands the issues of holistic, trans-disciplinary, and integrated work with children and families is

required Governments and services can't do this alone. Most families are more influenced by peers and associates and change needs to be galvanised across whole communities. A whole of community approach involves linking together a place based combination of government, non government and community initiatives to support families. Services need to consider how they can work with individuals and community groups to develop the kind of social environment that enables families to flourish. This is not an easy task and drawing on research and practical experience, this book looks at some of the key ingredients needed by those individuals and organisations who dare to attempt it.

Parenting with Dignity Mac Bledsoe, 2005. No Marketing Blurb. Every Parent's Battle Dan S. Spencer III, 2017-03-21. Ever struggled to find the right words to talk about the threat of pornography with your kids? Too many of us avoid the subject depending on simple technology filters to protect them. Yet children at very early ages are under attack and at risk to fall prey to pornography addiction. As parents, we must be prepared to deal with the issue head on. Every Parent's Battle: A Family Guide to Resisting Pornography not only exposes the frightening prevalence of pornography in our sex obsessed culture, it equips parents with concrete and tested strategies to educate their kids about intimacy, human dignity and sexuality as God intended it to be. Dan Spencer's new book provides Catholic and other parents with tools and strategies that are aimed at prevention rather than recovery in the spiritual battle for the virtue of chastity. I heartily recommend this book for your family's happiness and the joyful embracing of life and dignity offered to us by Jesus Christ.

ARCHBISHOP JOSEPH F. NAUMANN, ARCHDIOCESE OF KANSAS CITY, KANSAS. The Roman Empire was a pornographic society with all the misery that implies, but our own society is far worse. History shows that this problem can be overcome in only one way: the way of the Christian family. Dan Spencer shows us in practical terms what that means for us as parents. Reading this book is not just a good idea, it's a duty.

Many of us didn't have a perfect childhood. But it's never too late or too early to transform into the parent you were always meant to be: grounded, present, intentional, compassionate and confident.
