The Paston Papers:

Paston Letters and Papers of the Fifteenth Century Norman Davis, Richard Beadle, Colin Richmond, 2004 The Paston family papers have long been consulted for their information about social history and politics in the fifteenth century both within East Anglia and also nationally Parts I and II of Paston Letters and Papers of the Fifteenth Century edited by Norman Davis were originally published by the Clarendon Press in 1971 and 1976 and were reissued with corrections by EETS in 2004 Part III completes the edition It contains the texts of 120 additional letters and papers many of them relating to Sir John Fastolf and his circle These texts are previously unprinted or printed only in part some only came to light after the publication of Parts I and II The texts have been edited according to the principles established by Norman Davis and are accompanied by an Introduction and Bibliography as well as a consolidated index to all three parts of the edition a glossary to the entire edition a concordance of the principal editions and original sources and a working chronology of the documents Richard Beadle is Reader in English Literature and Historical Bibliography at the University of Cambridge Colin Richmond is Emeritus Professor of Medieval History at the University of Keele *Papers on the Authenticity of the Paston Letters*, 1866

Paston Letters and Papers of the Fifteenth Century, Part I Paston Family, 1993 *Paston Letters and Papers of the Fifteenth Century* Norman Davis, 1971 **The Paston Family in the Fifteenth Century: Volume 1, The First Phase** Colin Richmond, 1990-09-27 The Pastons of Paston Norfolk are famous for the collection of letters and papers which bear their name In particular the Paston Letters have been well known since the time of Horace Walpole although until now they have never been used systematically by historians of fifteenth century England they are both immensely attractive to read and fiendishly difficult to use as source material from which to write history This volume describes in lively and original style the beginnings of the family's gentility and sets out some of the major themes of their history between 1400 and 1500 Many of the themes are common to all gentry families of the later Middle Ages a period critical in the formation of the English polity It might also be said that the Pastons epitomize a class which since the later Middle Ages has dominated the English state English society and English culture **Paston Letters and Papers of the Fifteenth Century: To William Paston I. To Agnes Paston. John Paston I. To John Paston I. To Edmond Paston I. To William Paston II. To Margaret Paston. To John Paston II. To John Paston III. To Edmond Paston II. To William Paston III. To Margery Paston. To William Paston IV. Related documents** Norman Davis, 1976 The Paston Family in the Fifteenth Century: Volume 2, Fastolf's Will Colin Richmond, 2002-05-16 The Paston family have long been famous for the large collection of letters and papers which bear their name However only recently have the Paston Letters been used systematically by historians of fifteenth century England they are both attractive to read and fiendishly difficult to use as source material for the historian This the second volume in Colin Richmond's individual and compelling study of the Pastons describes the bitter disputes over the will of Sir John Fastolf d 1459 which dogged the family for many years and which hold a wider significance for the law English country

society and the complex politics of the fifteenth century Professor Richmond uses his mastery of the Paston documents to illuminate many obscurities surrounding the will and at the same time creates an insightful and sympathetic picture of this fascinating often troubled family Paston Letters and Papers of the Fifteenth Century..., 1971 **Paston Letters and Papers of the Fifteenth Century** Norman Davis, 1971 **Medieval Women's Writing** Diane Watt, 2007-10-22 Medieval Women's Writing is a major new contribution to our understanding of women's writing in England 1100-1500 The most comprehensive account to date it includes writings in Latin and French as well as English and works for as well as by women Marie de France Clemence of Barking Julian of Norwich Margery Kempe and the Paston women are discussed alongside the Old English lives of women saints The Life of Christina of Markyate the St Albans Psalter and the legends of women saints by Osborn Bokenham Medieval Women's Writing addresses these key questions Who were the first women authors in the English canon What do we mean by women's writing in the Middle Ages What do we mean by authorship How can studying medieval writing contribute to our understanding of women's literary history Diane Watt argues that female patrons audiences readers and even subjects contributed to the production of texts and their meanings whether written by men or women Only an understanding of textual production as collaborative enables us to grasp fully women's engagement with literary culture This radical rethinking of early women's literary history has major implications for all scholars working on medieval literature on ideas of authorship and on women's writing in later periods The book will become standard reading for all students of these debates **Sessional Papers** Great Britain. Parliament. House of Commons, 1901 **The Pastons and Their England** Henry Stanley Bennett, 1922 Bibliography and collation of editions and original letters *Papers on the Authenticity of the Paston Letters* John Bruce, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1866 edition Excerpt it stands gate in the left hand and grant in the right hand version of the printed book Here are several alterations yf I myth was originally intended to have been yf yt myth be before the final be was completed the writer changed her mind and wrote a caret as if intending to interline an alteration Finally she made the alteration in another way but left the caret standing the final words were originally written w hys seknes The word assoyle was in this passage originally written absolue and at my cost charge was an explanatory afterthought interlined in the usual way In addition to a multitude of these contemporary alterations there are written upon many of the letters and papers notes or memoranda contemporary or in some cases a little later relating to their contents to their dates or to the identification of the writers A few examples of these memoranda will be more satisfactory than any amount of description E IV No 6 is endorsed A lie of S1 Jo Paston shewing the Kyngf favor towardf hym for the restoring of Caister Ihid No 13 is endorsed Mgaret Paston refuseth to take administreaon after the death of J 0 Paston hir husbond Ibid No 33 is endorsed Caister is gotten agayn Ibid No 39 An original draft statement of the terms on which Sir Thomas Brews would It is evident that these memoranda were mere

Paper in Medieval England Orietta Da Rold,2020-10-01 Orietta Da Rold provides a detailed analysis of the coming of paper to medieval England and its influence on the literary and non literary culture of the period Looking beyond book production Da Rold maps out the uses of paper and explains the success of this technology in medieval culture considering how people interacted with it and how it affected their lives Offering a nuanced understanding of how affordance influenced societal choices Paper in Medieval England draws on a multilingual array of sources to investigate how paper circulated was written upon and was deployed by people across medieval society from kings to merchants to bishops to clerks and to poets contributing to an understanding of how medieval paper changed communication and shaped modernity

Documents Illustrating the History of Civilization in Medieval England R. Trevor Davies,2025-05-08 The author and acclaimed historian of this book originally published in 1926 was a strong advocate for the use of original source documents in the study of history maintaining that applying historical criticism to documents and balancing one document against another was a process of the highest educational value He compiled this volume with the aim of giving easy access to the more important documents of political history for the period between the Norman Conquest and the Accession of the House of Tudor All the documents are translated into English from French or Latin and important documents such as the Magna Carta are given in their entirety The plan and arrangement of the documents is based on the belief that the political history of the Middle Ages is best understood in the light of social economic and cultural evolution
