Gunaratana,2016-01-01 In the oldest scriptures of Theravada Buddhism much attention is given to the jhanas high levels of meditative attainment distinguished by powerful concentration and purity of mind Ven Dr Gunaratana examines these jhanas within the context of Buddhist teaching as a whole and particularly within the meditation disciplines taught by the Buddha Beginning with the ethical foundation for meditation the role of the teacher the classical subjects of meditation and the appropriateness of these subjects to individual practitioners the author traces the practice of meditation to the higher reaches of realization The eight stages of jhana are individually analyzed and explained in terms of their relation to one

another and to the ultimate goal of the teaching. The author makes the critical distinction between the mundane jhanas and supermundane jhanas pointing out that the lower four while leading to various mental powers and psychic attainments are not necessary to full enlightenment and may be developed or bypassed as the meditator wishes. The author goes on to explain the place of the jhanas among the accomplishments of an arahat and elucidate their usefulness for a dedicated meditator. The *Compendium of Knowledge and Wisdom* is the translation by Abdassamad Clarke of the masterwork of Ibn Rajab al-Hanbali. It is a comprehensive collection of sciences and wisdom in commentary of fifty hadith. Including the Forty of Imam An Nawwawi from the concise comprehensive speech *Jawami al Kalim* of the Messenger of Allah may Allah bless him and grant him peace. The author adds another eight hadith to the famous Forty Hadith of Imam an Nawawi and gives a much more elaborate commentary on their chains of transmission on the rulings that they entail and on the spiritual dimensions of the hadith their explanations with respect to the verses of the Qur'an and other hadith and what the great pious predecessors of Islam have said about them. Every hadith is considered by the ulama scholars essential for knowledge of the deen. The topics range from the most exacting treatments of the affairs of the shari'ah Islamic Law to luminous expositions of the spiritual sciences of Islam. Best known as Ibn Rajab, his full name and titles are al-Imam al-Hafiz Abu al-Faraj Zayn al-Din Abd al-Rahman ibn Ahmad ibn Abd al-Rahman known as Rajab ibn al-Hasan ibn Muhammad ibn Abi al-Barakat Mas'ud al-Baghdadi al-Dimashqi al-Hanbali 736-795 AH. He then taught hadith and fiqh according to Hanbali school in the Jami Bani Umayyah and other seats of learning in Damascus. Among his famous students include scholars like Abul-Fadl Ahmad ibn Nasr ibn Ahmad the mufti of Egypt d. 844 AH, Abu al-Abbas Ahmad ibn Abi Bakr ibn Ali al-Hanbali d. 844 AH, Dawud ibn Sulayman al-Mawsili d. 844 AH. He was a leading scholar of the Hanbali school. His work *al-Qawa'id al-kubra fi al-furu'* is clear evidence of his expertise in fiqh demonstrating an extreme even exhaustive knowledge of the intricacies of detailed fiqh issues. He was known for piety, righteousness. His sermons were considered most effective, full of blessing and beneficial. People of all schools were unanimous as to his quality and the hearts of the people were full of love for him. **Consequences of Knowledge** Chakravarthi Ram-Prasad,2016-05-23 This book presents a collection of essays setting out both the special concern of classical Indian thought and some of its potential contributions to global philosophy It presents a number of key arguments made by different schools about this special concern the way in which attainment of knowledge of reality transforms human nature in a fundamentally liberating way It also looks in detail at two areas in contemporary global philosophy the ethics of difference and the metaphysics of consciousness where this classical Indian commitment to the spiritually transformative power of knowledge can lead to critical insights even for those who do not share its presuppositions Close reading of technical Indian texts is combined with wide ranging and often comparative analysis of philosophical issues to derive original arguments from the Indian material through an analytic method that is seldom mastered by philosophers of non western traditions **The Tree of Knowledge of Good and Evil Revealed** Michael

Dompere,2012-08-28 The monograph is about a meta theory of knowledge production process and the logical pathway that connects the epistemic possibility to the epistemic reality It examines the general conditions of paradigms for information processing and isolates the classical and fuzzy paradigms for comparative analysis The sets of conditions that give rise to them are defined stated and analyzed to abstract the corresponding sets of laws of thought The fuzzy paradigm with its corresponding logic and mathematics is related to inexact symbolism for the defective information structure where the results of the knowledge production must satisfy the epistemic conditionality composed of fuzzy conditionality and fuzzy stochastic conditionality under the principle of logical duality with continuum The classical paradigm with its corresponding logic and mathematics is related to exact symbolism for exact information structure where the vagueness component of the defectiveness is assumed away and where the results of the knowledge production must satisfy no epistemic conditionality or at the maximum only the stochastic conditionality under the principle of logical dualism with excluded middle It is argued that the epistemic path that links ontological space to the epistemological space is information The ontological space is taken as the primary category of reality while the epistemological space is shone to be a derivative Such information is universally defective and together with assumptions imposed guides the development of paradigms with their laws of thought logic of reasoning mathematics and computational techniques The relational structure is seen in terms of logical trinity with a given example as matter information energy transformational trinity which is supported by the time trinity of past present future relationality The book is written for professionals researchers and students working in philosophy of science decision choice theories economies sciences computer science engineering cognitive psychology and researchers working on or interested in fuzzy paradigm fuzzy logic fuzzy decisions and phenomena of vagueness and ambiguities fuzzy mathematics fuzzy stochastic

*The Bhagavadgita Knowledge and Wisdom* Chandan Sengupta, This book is developed during studies on The Bhagavadgita to address different aspects growth and development of Knowledge and Wisdom in human beings It is also developed to address ever growing aspirations of fellow scholars who want to link up Knowledge and Wisdom to teachings of The Bhagavadgita The context of the Holy book was exhibiting the situation of conflicts developed during Epic Ages If we remove the context of the war of Kurukshetra then the core of Yoga Philosophy along with all sorts of integrations appears equally relevant in the modern context In that way this publication may not be considered as a sole representation of all the teachings inscribed in the Epics but it can be accepted as a synthetic approach to link up all the teaching on the basis of addressing issues and concerns of the modern context

*The Awakened Ones* Gananath Obeyesekere, 2012-02-07 While a rational consciousness grasps many truths Gananath Obeyesekere believes an even richer knowledge is possible through a bold confrontation with the stuff of visions and dreams Spanning both Buddhist and European forms of visionary experience he fearlessly pursues the symbolic nonrational depths of such phenomena reawakening the intuitive creative impulses that power greater understanding Throughout his career Obeyesekere has combined psychoanalysis and anthropology to illuminate the relationship between personal symbolism and religious experience In this book he begins with Buddha s visionary trances wherein over the course of four hours he witnesses hundreds of thousands of his past births and eons of world evolution renewal and disappearance He then connects this fracturing of empirical and visionary time to the realm of space considering the experience of a female Christian penitent who stares devotedly at a tiny crucifix only to see the space around it expand to mirror Christ s suffering Obeyesekere follows the unconscious motivations underlying rapture the fantastical consumption of Christ s body and blood and body

mutilation and levitation bridging medieval Catholicism and the movements of early modern thought as reflected in William Blake's artistic visions and poetic dreams. He develops the term dream ego through a discussion of visionary journeys. Carl Jung's and Sigmund Freud's scientific dreaming and the cosmic and erotic dream visions of New Age virtuosos and he defines the parameters of a visionary mode of knowledge that provides a more elastic understanding of truth. **Managing by the Bhagavad Gītā** Satinder Dhiman, A. D. Amar, 2018-11-27

Drawing upon the timeless wisdom of the Bhagavad Gītā, a philosophical spiritual world classic, this professional book highlights the spiritual and moral dimensions of management using an inside-out leadership development approach. It interprets the Bhagavad Gītā's teachings on the personality types and psychological makeup of managers and employees, self-knowledge and self-mastery, and the leadership concepts of vision, motivation, and empowerment. This book covers topics such as training of the mind, ethical leadership, communication, stress management, and corporate social responsibility (CSR). Collectively, the enclosed contributions provide managers with an enhanced outlook on management functions such as leading, planning, organizing, and controlling in today's organizations, particularly those run by knowledge workers. Management research in the 20th century has mainly focused on the industrial paradigm characterized by a hierarchical structure of authority and responsibility with an individualistic focus on the personality of the manager. However, this traditional paradigm cannot solve many of the problems that confront leaders and managers today. Recent studies have shown that values traditionally associated with spirituality, such as integrity, honesty, trust, kindness, caring, fairness, and humility, have a demonstrable effect on managerial effectiveness and success. Although traditionally interpreted as a religious spiritual text, the Bhagavad Gītā teaches these values, which can be extrapolated and applied to practical management lessons in today's corporate boardrooms. Applying the text of the Bhagavad Gītā to the context of management, this book views the manager as an enlightened sage who operates from a higher stance, guided by self-knowledge and self-mastery. It demonstrates how character is the key ingredient for effective management and leadership. This book is therefore applicable to all managers, from first-line to CEOs, in their management and leadership roles in organizations.
