Struggle, Defeat or Rebirth Thierry Dubost, 2005-11-10 To Eugene O'Neill the links between man and his surroundings were of prime importance His characters struggled with existential problems and how they related to them reveals much about O'Neill's own humanity For the most part the characters defeat their problems and in doing so are reborn in some manner This work examines the 49 plays that O'Neill completed focusing on his attempt to find an inner truth in his characters Part One explores the family showing how a person is trapped by heredity space time and communal hierarchy

Part Two deals with the individual and society showing how societal conventions confined the characters In Part Three personal freedom is the centerpiece showing how the characters develop a specific approach to life that leads to a coherent vision of the characters relationships with the world around them

Dear Mendl, Dear Reyzl Alice Nakhimovsky, Roberta Newman, 2014-04-15 Explore s the Jewish past via letters that reflect connections and collisions between old and new worlds Jewish Book Council At the turn of the 20th century Jewish families scattered by migration could stay in touch only through letters Jews in the Russian Empire and America wrote business letters romantic letters and emotionally intense family letters But for many Jews who were unaccustomed to communicating their public and private thoughts in writing correspondence was a challenge How could they make sure their spelling was correct and they were organizing their thoughts properly A popular solution was to consult brivnshtelers Yiddish language books of model letters Dear Mendl Dear Reyzl translates selections from these model letter books and includes essays and annotations that illuminate their role as guides to a past culture Covers a neglected aspect of Jewish popular culture and deserves a wide readership For all serious readers of Yiddish and immigrant Jewish culture and customs Library Journal Delivers more than one would expect because it goes beyond a linguistic study of letter writing manuals and explicates their genre and social function Slavic Review Reproductions of brivnshtelers form the core of the book and comprise the majority of the text providing a ground level window into a largely obscured past Publishers Weekly The real delight of the book is in reading the letters themselves Highly recommended AJL Reviews

Troubled Journey Frederick F. Siegel, 1984 Reconstructing Adult Masculinities Emma E. Cook, 2016-03-22 Over the past two decades Japan s socioeconomic environment has undergone considerable changes prompted by both a long recession and the relaxation of particular labour laws in the 1990s and 2000s Within this context freeters part time workers aged between fifteen and thirty four who are not housewives or students emerged into the public arena as a social problem This book drawing on six years of ethnographic research takes the lives of male freeters as a lens to examine contemporary ideas and experiences of adult masculinities It queries how notions of adulthood and masculinity are interwoven and how these ideals are changing in the face of large scale employment shifts Highlighting the continuing importance of productivity and labour in understandings of masculinities it argues that men experience and practice multiple masculinities which are often contradictory sometimes limiting and change as they age and in interaction with others and with social structures institutions and expectations Providing a fascinating alternative to the stereotypical idea of the Japanese male as a salaryman this book will be of huge interest to students and scholars of Japanese culture and society social and cultural anthropology gender and men s studies

Federation for Child Study Bulletin , 1929 **Rules of Estrangement** Joshua Coleman, PhD, 2024-09-03 A guide for parents whose adult children have cut off contact that reveals the hidden logic of estrangement explores its cultural causes and offers practical advice for parents trying to reestablish contact with their adult children Finally here s a hopeful comprehensive and compassionate guide to navigating one of the most painful experiences for

parents and their adult children alike Lori Gottlieb psychotherapist and New York Times bestselling author of *Maybe You Should Talk to Someone* Labeled a silent epidemic by a growing number of therapists and researchers estrangement is one of the most disorienting and painful experiences of a parent's life Popular opinion typically tells a one-sided story of parents who got what they deserved or overly entitled adult children who wrongly blame their parents However the reasons for estrangement are far more complex and varied As a result of rising rates of individualism an increasing cultural emphasis on happiness growing economic insecurity and a historically recent perception that parents are obstacles to personal growth many parents find themselves forever shut out of the lives of their adult children and grandchildren As a trusted psychologist whose own daughter cut off contact for several years and eventually reconciled Dr Joshua Coleman is uniquely qualified to guide parents in navigating these fraught interactions He helps to alleviate the ongoing feelings of shame hurt guilt and sorrow that commonly attend these dynamics By placing estrangement into a cultural context Dr Coleman helps parents better understand the mindset of their adult children and teaches them how to implement the strategies for reconciliation and healing that he has seen work in his forty years of practice *Rules of Estrangement* gives parents the language and the emotional tools to engage in meaningful conversation with their child the framework to cultivate a healthy relationship moving forward and the ability to move on if reconciliation is no longer possible While estrangement is a complex and tender topic Dr Coleman's insightful approach is based on empathy and understanding for both the parent and the adult child

Africa's Social and Religious Quest Randee Ijatuyi-Morphé, 2014-01-30 This well-crafted book probes the key dimensions of Africa's existential predicament It constitutes an intellectual response to a gnawing African situation the starting point for grasping Africa's social and religious quest Beyond split explanations of external versus internal factors e.g. colonization slavery vs leadership cultural values this study accounts more comprehensively for emergent issues shaping this situation The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality politics and destinies vis-à-vis the cosmos and nature Thus African religion and communities each with its own attendant values do not operate by critical engagement with larger issues of society and civilization especially those shaped by the advent of post-modernity Rather they operate via adaptation The communal drive for natural and social harmony inevitably produces a preservationist view of culture leaving things as they are This study takes an integrative approach to religion society and civilization eschews dichotomies and broadly defines and re-signifies life and wholeness as a true end of Africans' quest today
