The Pazyryk Agenda:

The Pazyryk Agenda Edward P. Rich, 2004-01-09 This is a policewoman's career on the streets of Chicago and one of its western suburbs about five years from now. A police procedural, it is based on actual current regulations. In the world where Helen Bell worked each day, any officer's opinions and decisions are shaped by larger inner values; no police department can instill. Each cop sees a slightly different version of every situation, and each career has different turning points. Turning points can be fortunate or fatal for a career. An incident involving a shooting can be legally very complex. The shooter is not always responsible for his actions. In training a recruit, a subject is shot and gravely injured. As the training officer did, she ordered the recruit to fire. Or did the recruit, in his fear and inexperience, act on his own? The responsibility of the training officer would have to be court-tested. In their careers, things police know or hear; the believed good will of their superiors is the factual information they rely on. Otherwise, people and events outside their socially limited world can decide their actions. It was at this point, and with these emotions, that Helen Bell became exposed to *The Pazyryk Agenda*. Edward P. Rich, 2004-01-01

The Juggler of Notre Dame and the Medievalizing of Modernity Jan M. Ziolkowski, 2018-12-12 This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. *The Juggler of Notre Dame* tells how an entertainer abandons the world to join a monastery but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in *The Juggler of Notre Dame* in the twentieth century and its place in mass culture today. In this concluding volume, Ziolkowski explores the popularity of *The Juggler of Notre Dame* from the 1930s through the Second World War, especially in the Allied Resistance. Its popularity in the United States was subsequently maintained by figures as diverse as Tony Curtis and W. H. Auden, and although recently the story and medievalism have lost ground, the future of both holds promise. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies. [Threads of Empire](#) Dorothy Armstrong, 2025-06-17 Carpet specialist Dorothy Armstrong tells the stories surrounding twelve of the world's most fascinating carpets. Dorothy Armstrong's *Threads of Empire* is a spellbinding look at the history of the world through the stories of twelve carpets. Beautiful, sensuous, and enigmatic great carpets follow power: emperors, shahs, sultans, and samurai crave them as symbols of earthly domination. Shamans and priests desire them to evoke the spiritual realm. The world's 1% hunger after them as

displays of extreme status And yet these seductive objects are made by poor and illiterate weavers using the most basic materials and crafts hedgerow plants for dyes fibers from domestic animals and the millennia old skills of interweaving warps wefts and knots In *Threads of Empire* Armstrong tells the histories of some of the world s most fascinating carpets exploring how these textiles came into being then were transformed as they moved across geography and time in the slipstream of the great She shows why the world s powerful were drawn to them but also asks what was happening in the weavers lives and how they were affected by events in the world outside their tent village or workshop In its wide ranging examination of these dazzling objects from the 5th century BCE contents of the tombs of Scythian chieftains to the carpets under the boots of Stalin Roosevelt and Churchill at the 1945 Yalta Peace Conference *Threads of Empire* uncovers a new hitherto hidden past right beneath our feet

Heritage Statecraft and Corporate Power Gertjan

Plets, 2023-12-13 Heritage Statecraft and Corporate Power examines the politicization of heritage and heritage conflicts in Siberia In so doing it challenges the idea that heritage is created by the state and instead argues that heritage creates the state Building upon extensive ethnographic fieldwork undertaken in south central Eurasia this book provides an analysis of the sociopolitical enmeshment of archaeology and heritage in Russia s resource colony Siberia Although many examples from across Siberia are discussed the core study region for the book is the Altai Republic which is located where Russia Mongolia Kazakhstan and China intersect Taking a heritage statecraft approach Plets argues that heritage is a particularly important political instrument in this region The book considers how different social groups including indigenous communities Russian settlers displaced groups national and international archaeologists political parties and energy companies translate archaeological data into culturally distinct heritages Plets encourages scrutiny of the different players that mobilize heritage to instill norms and ideas and the ways in which new regulations or institutions are ultimately implemented Heritage Statecraft and Corporate Power contributes to key debates around the politics of archaeology resource development and

Material Theories Elena Chestnova,2022-06-19 Material Theories takes a radically new approach to well established thinking on nineteenth century architecture and design by investigating Gottfried Semper s classic ideas about dressing metamorphosis of material and cultural development culminating in his two volume publication Style This book demonstrates how Semper s theories crystallised among his encounters with material things of the late 1840s and early 1850s It examines several discursive frameworks and phenomena which shaped the attitude to artefacts in Europe in the mid nineteenth century and which were specifically pertinent to Semper s evolution archaeology and antiquarianism the domestic interior print media collections and the embodied relationship between the designer and their work For the first time this book examines the construction of a design theory not only as an intellectual endeavour but also as a process of confrontation with material things It employs recent approaches to material culture in particular Thing Theory in order to show that Semper s artefact references constituted his ideas rather than simply giving impetus to them It will be an important investigation for academics and researchers interested in interior design history as well as scholars of material culture and history of design theory
