The Peasants Of Languedoc:

The Peasants of Languedoc Emmanuel Le Roy Ladurie, 1976 This volume combines elements of human geography historical demography economic history and folk culture in a depiction of a great agrarian cycle lasting from the Renaissance to the Enlightenment It describes the conflicts and contradictions of a traditional peasant society in whic the rise in population was not matched by increases in wealth and food production The Peasants of Languedoc Emmanuel Le Roy Les Paysans de Languedoc Emmanuel Le Roy Ladurie,1966 The Mediterranean and the Mediterranean World in the Age of Philip II Fernand Braudel, 2023-07-25 The focus of Fernand Braudel's great work is the Mediterranean world in the second half of the sixteenth century but Braudel ranges back in history to the world of Odysseus and forward to our time moving out from the Mediterranean area to the New World and other destinations of Mediterranean traders Braudel s scope embraces the natural world and material life economics demography politics and diplomacy The Content of Social Explanation Susan James, 1984-11-15 This is a study of the central questions of explanation in the social sciences and a defence of holism against individualism In the first half of the book Susan James sets out very clearly the philosophical background to this controversy She locates its source not at the analytical level at which most of the debate is usually conducted but at a more fundamental moral level in different conceptions of the human individual In the second half of the book she examines critically three case studies of holistic approaches Althusser Poulantzas and the Annales historians and progressively refines our sense of the strengths and deficiencies of their programmes She ends by arguing for a form of concessive holism which offers some accommodation to liberal conceptions of individual autonomy but continues to emphasise the explanatory importance of social regularities and environments Les Paysans de Languedoc Emmanuel Le Roy Ladurie, 1974 Truth in Science, the Humanities and Religion International Balzan Foundation, 2010-06-14 by the Academies of the two countries to the Italian Swiss University of Lugano for the two day Symposium The question of the meaning of truth is central to many areas of contemporary debate whether between those subscribing to a post Enlightenment view of the world and those who seek fundamental truth in religious texts or between those maintaining that there are absolute truths and those believing facts to be social constructs For some the ultimate truth is revealed through religious faith and t tual authority Can this view be reconciled with an evidence based materialist post Enlightenment perspective of the truth as embraced by the natural sciences If religion holds the key to the truth which religion and which truths During the five thematic sessions of the symposium all attended by the same audience and by all the speakers and panel members these and many other qu tions but in particular the one about the meaning of truth were examined and debated The whole range of perspectives represented on the panels and in the au ence came to the fore After the keynote lecture by Professor Simon Blackburn the five sessions covered the following disciplines philosophy mathematics physics cosmology the biological sciences including biodiversity and sustainability h tory the social sciences theology and religion

This volume contains the speakers lectures the corresponding reactions of the invited panel members as well as the panel and general discussions of the two d symposium Psychology and History Cristian Tileagă, Jovan Byford, 2014-02-20 As disciplines psychology and history share a primary concern with the human condition Yet historically the relationship between the two fields has been uneasy marked by a long standing climate of mutual suspicion This book engages with the history of this relationship and possibilities for its future intellectual and empirical development Bringing together internationally renowned psychologists and historians it explores the ways in which the two disciplines could benefit from a closer dialogue Thirteen chapters span a broad range of topics including social memory prejudice stereotyping affect and emotion cognition personality gender and the self Contributors draw on examples from different cultural contexts from eighteenth century Britain to apartheid South Africa to conflict torn Yugoslavia to offer fresh impetus to interdisciplinary scholarship Generating new ideas research questions and problems this book encourages researchers to engage in genuine dialogue and place their own explorations in new intellectual contexts **Huguenot Prophecy and Clandestine Worship** in the Eighteenth Century Georgia Cosmos, 2018-05-08 Following Louis XIV s revocation of the Edict of Nantes in 1685 French protestants faced the stark choice of abandoning their religion or defying the law Many fled abroad whilst others continued to meet clandestinely for worship and to organise resistance to government policy culminating in the bloody Camisard rebellion of 1702 10 During this period of conflict and repression a distinct culture of prophecy and divine inspiration grew up which was to become a defining characteristic of the dispersed protestant communities in southern France Drawing on a wide range of printed and manuscript material this study examines the nature of Huguenot prophesying in the C vennes during the early years of the eighteenth century As well as looking at events in France the book also explores the reactions of the Huguenot community of London which became caught up in the prophesying controversy with the publication in 1707 of Le Th atre sacr des C vennes This book which recounted the stories of exiles who had witnessed prophesying and miraculous events in the C vennes not only provided a first hand account of an outlawed religion but became the centre of a heated debate in London concerning false prophets By exploring French protestantism through voluntary testimonies given by Huguenot exiles in London this study not only offers a rare glimpse of a forbidden religion but also shows how a long established immigrant church in London confronted the problems posed by recent arrivals infused with a radical sense of mystic purpose and divine revelation The Historical Present Walter Kudrycz, 2011-01-13 Medievalism has become a central concern for those studying and teaching medieval history It can be distinguished from traditional medieval history because it is not directly concerned with the study of the Middle Ages themselves but rather it looks at how ideas about the medieval era operate in modern culture This volume breaks new ground by moving beyond the arena of contemporary popular culture by interpreting modern academic attitudes towards the Middle Ages as themselves forms of medievalism What is presented as refined historical truth is no more than a construction of truth derived from the

larger philosophical and cultural trends of our own day This volume argues that modernity s sense of the medieval past is the product of the dominant intellectual movements of the nineteenth century Romanticism and Idealism and that nineteenth century attitudes have continued to inform current understandings of the Middle Ages This is a narrative that combines the main themes of modern scholarship on the medieval age with a subtly portrayed picture of the philosophical culture which The French Wars of Religion, 1562-1629 Mack P. Holt, 1995-10-19 A new look at the French wars of religion designed for undergraduate students and general readers **Aftermath** Manuel Castells, João Caraça, Gustavo Cardoso, 2012-07-26 The consequences of the financial crisis may be uncertain but are sure to reach deep into the body politic civil society welfare systems and reform This collection of essays by leading international sociologists and social scientists explores the likely outcomes and consequences Henry IV and the Towns S. Annette Finley-Croswhite, 1999-08-19 This 1999 book is a serious study of Henry IV s relationship with the towns of France and offers an in depth analysis of a crucial aspect of his craft of kingship Set in the context of the later Wars of Religion it examines Henry's achievement in reforging an alliance with the towns by comparing his relationship with Catholic League royal and Protestant towns Annette Finley Croswhite focuses on the symbiosis of three key issues legitimacy clientage and absolutism Henry's pursuit of political legitimacy and his success at winning the support of his urban subjects is traced over the course of his reign Clientage is examined to show how Henry used patron client relations to win over the towns and promote acceptance of his rule By restoring legitimacy to the monarchy Henry not only ended the religious wars but also strengthened the authority of the crown and laid the foundations of absolutism **Peasant Studies** ,1981 **Population Growth and Agrarian Change** David B. Grigg, 1980-12-18 This book first published in 1980 suggests some ways of looking at the interrelationships between population growth and agrarian change and uses these approaches to consider the demographic and agrarian problems of various parts of Europe in the past in the fourteenth century the sixteenth and early seventeenth centuries and in the early nineteenth century The French Peasantry, 1450-1660 Emmanuel Le Roy The Peasants of Languedoc ,1976 Ladurie,1987-01-01 Peasant Studies Newsletter ,1975 At the Dawn of Modernity David Levine, 2001-02-19 Looking at a neglected period in the social history of modernization David Levine investigates the centuries that followed the year 1000 when a new kind of society emerged in Europe New commercial routines new forms of agriculture new methods of information technology and increased population densities all played a role in the prolonged transition away from antiquity and toward modernity At the Dawn of Modernity highlights both top down and bottom up changes that characterized the social experience of early modernization In the former category are the Gregorian Reformation the imposition of feudalism and the development of centralizing state formations Of equal importance to Levine's portrait of the emerging social order are the bottom up demographic relations that structured everyday life because the making of the modern world in his view also began in the decisions made by countless men and women

regarding their families and circumstances Levine ends his story with the cataclysm unleashed by the Black Death in 1348 which brought three centuries of growth to a grim end After the Black Death, Second Edition George Huppert,1998-05-22 Praise for the first edition To give a sense of immediacy and vividness to the long period in such a short space is a major achievement History Huppert s book is a little masterpiece every teacher should welcome Renaissance Quarterly A work of genuine social history After the Black Death leads the reader into the real villages and cities of European society For this second edition George Huppert has added a new chapter on the incessant warfare of the age and thoroughly updated the bibliographical essay
