Historical Dictionary of the Beat Movement Paul Varner, 2012-06-21 The Beat Movement was one of the most radical and innovative literary and arts movements of the 20th century and the history of the Beat Movement is still being written in the early years of the 21st century Unlike other kinds of literary and artistic movements the Beat Movement is self perpetuating After the 1950s generation headlined by Jack Kerouac Allen Ginsberg and William S Burroughs a new generation arose in the 1960s led by writers such as Diane Wakoski Anne Waldman and poets from the East Side Scene In the 1970s and 1980s writers

from the Poetry Project at St Mark's Church and contributors to World magazine continued the movement. The 1980s and 1990s Language Movement saw itself as an outgrowth and progression of previous Beat aesthetics. Today poets and writers in San Francisco still gather at City Lights Bookstore and in Boulder at the Jack Kerouac School of Disembodied Poetics and continue the movement. It is now a postmodern movement and probably would be unrecognizable to the earliest Beats. It may even be in the process of finally shedding the name Beat. But the Movement continues.

The Historical Dictionary of the Beat Movement covers the movement's history through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on significant people, themes, critical issues, and the most significant novels, poems, and volumes of poetry and prose that have formed the Beat canon. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Beat Movement.

Updating the Literary West, 1997
Western writers says Thomas J. Lyon in his epilogue to *Updating the Literary West* have grown up with the frontier myth but now find themselves in the early stages of creating a new western myth. The editors of the *Literary History of the American West* (TCU Press, 1987) hoped that the first volume would begin, not conclude, their exploration of the West's literary heritage. Out of this hope comes *Updating the Literary West*, a comprehensive reference anthology including essays by over one hundred scholars. A selected bibliography is included with each piece. In the ten years since publication of *LHAW*, western writing has developed a significantly larger presence in the national literary stream. A variety of cultural viewpoints have developed along with new tactics for literary study. New authors have risen to prominence and the range of subjects has changed and widened. *Updating the Literary West* looks at topics ranging from western classics to cowboys and Cadillacs and considers children's literature, ethnicity, environmental writing, gender issues, and other topics in which change has been rapid since publication of *LHAW*. This volume again affirms the West's literary legitimacy, status hard earned by the Western Literary Association and the lasting place of popular western writing as part of the growing and changing literary and American experience. An excellent reference for a wide range of readers and an invaluable resource for scholars and libraries.

Selected list of contributors: James Maguire, Fred Erisman, Susan J. Rosowski, Gerald Haslam, Tom Pilkington, A. Carl Bredahl, Richard Slotkin, John G. Cawelti, Robert F. Gish, Ann Ronald, Mick McAllister.

William Everson, Lee Bartlett, 1988. In the annals of modern American letters, William Everson holds prime place as a poet of conscience and consciousness of self; his richly textured verse mapping his extraordinary inner journey as social activist, Dominican brother, and preeminent religious and philosophical poet. In *William Everson: The Life of Brother Antoninus*, Lee Bartlett charts the outer journey, drawing on the reminiscences of the poetry, his friends, and a wealth of archival material.

Gary Snyder and the American Unconscious, T. Dean, 1991-01-31. This book presents a new theory of American culture based not on the phenomenologically and existentially derived vocabularies of consciousness which have dominated earlier accounts but rather on a revitalized notion of the unconscious. Drawing on the writings of the French psychoanalyst Jacques Lacan, Dean

develops a theory of the constitution of the very notion of America itself as based on a complicated relation to the American landscape
