**Classicisms in the Black Atlantic** Ian Moyer, Adam Lecznar, Heidi Morse, 2020-01-09 The historical and cultural space of the Black Atlantic a diasporic world of forced and voluntary migrations has long provided fertile ground for the construction and reconstruction of new forms of classicism From the aftermath of slavery up to the present day black authors intellectuals and artists in the Atlantic world have shaped and reshaped the cultural legacies of classical antiquity in a rich variety of ways in order to represent their identities and experiences and reflect on modern conceptions of race nation and identity The studies presented in this volume range across the Anglophone Francophone and Hispanophone worlds including literary studies of authors such as Derek Walcott Marlene NourbeSe Philip and Junot Diaz biographical and historical studies and explorations of race and classicism in the visual arts They offer reflections on the place of classicism in contemporary conflicts and debates over race and racism and on the intersections between classicism race gender and social status demonstrating how the legacies of ancient Greece and Rome have been used to buttress racial hierarchies but also to challenge racism and Eurocentric reconstructions of antiquity

**Paranoid Science** Antony Alumkal, 2019-04-01 Explores the Christian Right's fierce opposition to science explaining how and why its leaders came to see scientific truths as their enemy For decades the Christian Right's high profile clashes with science have made national headlines From attempts to insert intelligent design creationism into public schools to climate change denial efforts to cure gay people through conversion therapy and opposition to stem cell research the Christian Right has battled against science How did this hostility begin and more importantly why has it endured Antony Alumkal provides a comprehensive background on the war on science how it developed and why it will continue to endure Drawing upon Richard Hofstadter's influential 1965 essay *The Paranoid Style in American Politics* Antony Alumkal argues that the Christian Right adopts a similar paranoid style in their approach to science Alumkal demonstrates that Christian Right leaders see conspiracies within the scientific establishment with scientists not only peddling fraudulent information but actively concealing their true motives from the American public and threatening to destroy the moral foundation of society By rejecting science Christian Right leaders create their own alternative reality one that does not challenge their literal reading of the Bible While Alumkal recognizes the many evangelicals who oppose the Christian Right's agenda he also highlights the consequences of the war on reality both for the evangelical community and the broader American public A compelling glimpse into the heart of the Christian Right's anti science agenda *Paranoid Science* is a must read for those who hope to understand the Christian Right's battle against science and for the scientists and educators who wish to stop it
