The Sleep of Others and the Transformations of Sleep Research Kenton Kroker, 2007-01-01 We tend to think of sleep as a private concern a night time retreat from the physical world into the realm of the subconscious Yet sleep also has a public side it has been the focal point of religious ritual philosophic speculation political debate psychological research and more recently neuroscientific investigation and medical practice In this first ever history of sleep research Kenton Kroker draws on a wide range of material to present the story of how an investigative field at one time dominated by the study of dreams slowly morphed into a laboratory based discipline The result of this transformation Kroker argues has changed the very meaning of sleep from its earlier conception to an issue for public health and biomedical intervention Examining a vast historical period of 2500 years Kroker separates the problems associated with the history of dreaming from those associated with sleep itself and charts sleep related diseases such as narcolepsy insomnia and sleep apnea He describes the discovery of rapid eye movement REM during the 1950s and shows how this discovery initiated the creation of dream laboratories that later emerged as centres for sleep research during the 1960s and 1970s Kroker s work is unique in subject and scope and will be enormously useful for both sleep researchers medical historians and anybody who s ever lost a night s sleep

Cascardi,2023-01-10 An innovative study of Goya s unprecedented elaboration of the critical function of the work

of art Francisco de Goya and the Art of Critique probes the relationship between the enormous extraordinary and sometimes baffling body of Goya's work and the interconnected issues of modernity Enlightenment and critique Taking exception to conventional views that rely mainly on Goya's darkest images to establish his relevance for modernity Cascardi argues that the entirety of Goya's work is engaged in a thoroughgoing critique of the modern social and historical worlds of which it nonetheless remains an integral part The book reckons with the apparent gulf assumed to divide the Disasters of War and the so called Black Paintings from Goya's scenes of bourgeois life or from the well mannered portraits of aristocrats military men and intellectuals It shows how these apparent contradictions offer us a gateway into Goya's critical practice vis vis a European modernity typically associated with the Enlightenment values dominant in France England and Germany In demonstrating Goya's commitment to the project of critique Cascardi provides an alternative to established readings of Goya's work which generally acknowledge the explicit social criticism evident in works such as the Caprichos but which have little to say about those works that do not openly take up social or political themes In Francisco de Goya and the Art of Critique Cascardi shows how Goya was consistently engaged in a critical response to and not just a representation of the many different factors that are often invoked to explain his work including history politics popular culture religion and the history of art itself

Children See Dead People Rob Armstrong, One of the most famous lines in movie history is I see dead people uttered by a young boy Is there any reason to believe that children can see the dead Do they have spooky powers denied to adults Do they grow out of these powers as they reach puberty Do they forget that they once interacted with the dead One study says that by age seven 65 percent of children have had an imaginary friend Are these imaginary friends actually spirits Do children have the dead as their imaginary playmates They're not imaginary at all They're real but they're dead Children are natural mediums psychics and necromancers They can channel the other world Is the poltergeist phenomenon caused by children's imaginary friends Can imaginary friends operate externally to children's minds Are some children in cahoots with spirits There is nothing more fascinating than the psychic abilities of children and the astonishing thing that eventually happens to them which suppresses their paranormal powers in order to allow them to enter the normal world the adult world What would you prefer to remain a child all your life and have

paranormal powers or to become an adult and sacrifice your paranormal powers Nature has made this a tradeoff Do you want to be Peter Pan who can fly but can never grow up or do you want to join the adults and have adult fun and also adult responsibilities Why do children lose their natural powers Is it possible to get these powers back Can adults recover their lost paranormal abilities the abilities which society warned them as children never to play with It s always dangerous to play with fire It s even more dangerous to ignore your natural fire Isn t it time to light up your life

The Eclipse of Reason: Reclaiming Western Education for Today Wilfred Carr, 2025-04-17 This concise digestible book shows how the cultivation of reason became the defining aim of western education and critiques how this aim has been eclipsed in recent decades by the neoliberal system of mass schooling imposed by the state Chapters outline succinctly the history of western education and its origins in Ancient Greece demonstrating how the idea of education as intrinsically related to the development of reason became embedded in the Western educational tradition and how this tradition subsequently developed and evolved Introducing key philosophical ideas about the nature of education the book shows how the development of mass schooling in the 19th century led to our current educational landscape where neoliberal demands for schools to be more responsive to market forces have obscured the development of reason as a distinctive educational aim By inviting educators to think reflectively and critically about the state of education today the book raises the little discussed educational question of what comes after neoliberalism Calling for the re establishment of western education s core values and aims this book will be of interest to educators researchers and students involved with pre and in service teacher education courses as well as those interested in the history of education and the philosophy of education more broadly

Writing and Filming the Painting Laura M. Sager Eidt, 2008 This innovative interdisciplinary study compares the uses of painting in literary texts and films In developing a framework of four types of ekphrasis the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as interpretive tool to films about the visual arts and artists Analyzing selected works of art by Goya Rembrandt and Vermeer and their ekphrastic treatment in various texts and films this book examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the function of art for the construction of a personal or social identity Because of its highly cross disciplinary nature this book is of interest not only to scholars of literature and aesthetics but also for scholars of film studies By providing an innovative approach to discussing non documentary films about artists the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century

Stark, 2024-02-23 Ryan J Stark surveys the classic monsters in great literature and film television the Bible and perhaps unexpectedly the world in which we live Monsterdom is real Stark observes but often hidden beneath the concealment spell of modern secular thought This guidebook aims to break that spell and if so to confirm once more a world that brims with high strangeness or what Christian philosophers have always called reality The book appeals to those who study the paranormal dimensions of religion and horror broadly imagined The clergy will also find it helpful as will players of monster riddled video games **Theory's Empire** Daphne Patai, Wilfrido Howard Corral, 2005 Not too long ago literary theorists were writing about the death of the novel and the death of the author today many are talking about the death of Theory Theory as the many theoretical ism s among them postcolonialism postmodernism and New Historicism are now known once seemed so exciting but has become ossified and insular This iconoclastic collection is an excellent companion to current anthologies of literary theory which have embraced an uncritical stance toward Theory and its practitioners Written by nearly fifty prominent scholars the essays in Theory s Empire question the ideas catchphrases and excesses that have let Theory congeal into a predictable orthodoxy More than just a critique however this collection provides readers with effective tools to redeem the study of literature restore reason to our intellectual life and redefine the role and place of Theory in the academy **C.P. Snow N.** Tredell, 2012-09-24 Novelist and cultural commentator C P Snow was a large and controversial presence in his lifetime but his work has been largely neglected since his death in 1980 This is the first 21st century book to offer a clear informed and sympathetic survey of all his novels and major non fiction books and to affirm their importance for the world today *Under Blue Cup* Rosalind E. Krauss, 2024-02-06 A personal journey leads a celebrated critic to discover knights of the medium contemporary artists who battle the aesthetic meaninglessness of the post medium condition In *Under Blue Cup* Rosalind Krauss explores the relation of aesthetic mediums to memory her own memory having been severely tested by a ruptured aneurysm that temporarily washed away much of her short term memory The title *Under Blue Cup* comes from the legend on a flash card she used as a mnemonic tool during cognitive therapy Krauss emphasizes the medium as a form of remembering contemporary artists in what she terms the post medium condition reject that scaffolding Krauss explains the historical emergence of the post medium condition and describes alternatives to its aesthetic meaninglessness examining works by knights of the medium contemporary artists who extend the life of the specific medium These artists including Ed Ruscha William Kentridge Sophie Calle Harun Farocki Christian Marclay and James Coleman reinstate the recursive rules of a modernist medium by inventing what Krauss terms new technical supports battling the aesthetic meaninglessness of the post medium condition The technical support is an underlying ground for aesthetic practice that supports the work of art as canvas supported oil paint The technical support for Ruscha s fascination with gas stations and parking lots is the automobile

for Kentridge the animated film for Calle photojournalism for Coleman a modification of PowerPoint for Marclay synchronous sound Their work Krauss argues recuperates more than a century of modernist practice The work of the post medium condition conceptual art installation and relational aesthetics advances the idea that the white cube of the museum or gallery wall is over Krauss argues that the technical support extends the life of the white cube restoring autonomy and specificity to the work of art Critical Thinking Within the Library Program John Spencer, Christopher Millson-Martula, 2014-10-20 While academic librarians frequently discuss critical thinking and its relationship to information literacy the literature does not contain an abundance of sources on the topic Therefore this work provides a current and timely perspective on the possible roles of critical thinking within the library program The work contains a variety of approaches likely to benefit the practicing librarian It begins with a review of the literature followed by theoretical approaches involving constructivism and the Socratic method Readers will find pieces on the integration of critical thinking into the first year experience and course specific case studies as well as a selection on a campus wide critical thinking project In each of the pieces librarians are exploring new ways to meet their instructional goals including the goal of teaching critical thinking skills to students across the curriculum This book was originally published as a special issue of College Undergraduate Libraries
