Slipping The Lines Adventures Around The World In Peace And War:

Richard Halliburton and the Voyage of the Sea Dragon Gerald Max, 2023-08-18 Richard Halliburton 1900 1939 considered the world's first celebrity travel writer swam the length of the Panama Canal recreated Ulysses' voyages in the Mediterranean crossed the Alps on an elephant flew around the world in a biplane and descended into the Mayan Well of Death all the while chronicling his own adventures. Several books treat his life and travels yet no book has addressed in detail Halliburton's most ambitious expedition: an attempt to sail across the Pacific Ocean in a Chinese junk. Set against the backdrop of a China devastated by invading Japanese armies and the storm clouds of world war gathering in Europe Halliburton and a crew of fourteen set out to build and sail the Sea Dragon, a junk or ancient sailing ship from Hong Kong to San Francisco for the Golden Gate International Exposition. After battling through crew conflicts and frequent delays the Sea Dragon set sail on March 4, 1939. Three weeks after embarking the ship encountered a typhoon and disappeared without a trace. Richly enhanced with historic photographs *Richard Halliburton and the Voyage of the Sea Dragon* follows the dramatic arc of this ill-fated expedition in fine detail. Gerry Max artfully unpacks the tensions between Halliburton and his captain John Wenlock Welch, owing much to Welch's homophobia and Halliburton's unconcealed homosexuality. And while Max naturally explores the trials and tribulations of preparing, constructing and finally launching the Sea Dragon he also punctuates the story with the invasion of China by the Japanese as Halliburton and his letters home reveal an excellent wartime reporter. Max mines these documents, many of which have only recently come to light as well as additional letters from Halliburton and his crew to family and friends, photographs, films and tape recordings to paint an intricate portrait of Halliburton's final expedition from inception to tragic end. *OCR Anthology for Classical Greek AS and A Level: 2019-21* Stephen

Washed with Sun Jeremy Foster, 2014-08-15 South Africa is recognized as a site of both political turmoil and natural beauty and yet little work has been done in connecting these defining national characteristics Washed with Sun achieves this conjunction in its multidisciplinary study of South Africa as a space at once natural and constructed Weaving together practical aesthetic and ideological analyses Jeremy Foster examines the role of landscape in forming the cultural iconographies and spatialities that shaped the imaginary geography of emerging nationhood Looking in particular at the years following the British victory in the second Boer War from 1902 to 1930 Foster discusses the influence of painting writing architecture and photography on the construction of a shared romanticized landscape subjectivity that was perceived as inseparable from being South African and thus helped forge the imagined community of white South Africa In its innovative approach to South Africa's history Washed with Sun breaks important new ground combining the persuasive theory of cultural geography with the material specificity of landscape history *JOHN BUCHAN Ultimate Collection: Spy*

The Epic of America James Truslow Adams, 2017-09-29 There is a tradition of one volume narrative histories of the United States in which the political military diplomatic social and economic strands are skillfully interwoven Rather than add to these volumes The Epic of America paints a sweeping picture of the diverse past that has created America's national story In this important narrative James Truslow Adams reviews how the ordinary American has matured over time in outlook character and opinion Adams grew increasingly conscious of how different an American is now from the man or woman of any other advanced nation He is equally interested in the whole of American history how it began and what it represented in the first half of the twentieth century Adams traces the historical origins of the American concept of bigger and better attitudes toward business the American Dream and other characteristics generally considered typically American Ever since America became an independent nation each generation has seen an uprising of its citizens to save the American Dream from forces seeking to overwhelm and dispel it Possibly the greatest of these struggles is still ahead not a struggle of revolutionists against established order but of the ordinary person who seeks to hold fast to the rights of life liberty and the pursuit of happiness This classic book is valuable for a new age and as important for this new century as it was when originally written
