Strong Brown God The Story Of The Niger:

The Strong Brown God Sanche de Garmont,1976 Historical Dictionary of Niger Abdourahmane Idrissa,Samuel Decalo,2012-06-01 The fourth edition of the Historical Dictionary of Niger covers the history of the peoples of the Republic of Niger from medieval times to the present This is done through a chronology an introductory essay and an extensive bibliography The dictionary section has over 700 cross referenced entries covering elements of pre colonial and colonial history recent politics cinema literature religion economics and finance This book is an excellent access point for students researchers and anyone wanting to know more about Niger **Mastering the Niger** David Lambert,2013-11-15 In *Mastering the Niger* David Lambert recalls Scotsman James MacQueen 1778 1870 and his publication of *A New Map of Africa* in 1841 to show that Atlantic slavery as a practice of subjugation a source of wealth and a focus of political struggle was entangled with the production circulation and reception of geographical knowledge The British empire banned the slave trade in 1807 and abolished slavery itself in 1833 creating a need for a new British imperial economy Without ever setting foot on the continent MacQueen took on the task of solving the Niger problem that is to successfully map the course of the river and its tributaries and thus breathe life into his scheme for the exploration colonization and commercial exploitation of West Africa Lambert illustrates how MacQueen s geographical research began four decades before the publication of the *New Map* when he was managing a sugar estate on the West Indian colony of Grenada There MacQueen encountered slaves with firsthand knowledge of West Africa whose accounts would form the basis of his geographical claims Lambert examines the inspirations and foundations for MacQueen s geographical theory as well as its reception arguing that Atlantic slavery and ideas for alternatives to it helped produce geographical knowledge while geographical discourse informed the struggle over slavery **Historical Dictionary of Niger** Rahmane Idrissa,2020-02-26 Niger is a crossroad the gate to the outside for West Africans and the port of entry into West Africa for cross Saharan tidings and travelers It remained for centuries the largely uncontrolled periphery of the large empires of the western Sudan and the market cities of the central Sudan In these two ways the land forged a very distinctive identity a fluid blend of diverse communities which make up a nation of marginal cosmopolitans a paradox illuminated in this book This fifth edition of *Historical Dictionary of Niger* contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Niger **The Lucifer Principle** Howard Bloom,2013-11-01 A philosophical look at the history of our species which alternated between fascinating and frightening like reading Dean Koontz or Stephen King *Rocky Mountain News* The *Lucifer Principle* is a revolutionary work that explores the intricate relationships among genetics human behavior and culture to put forth the thesis that evil is a by product of nature s strategies for creation and that it is woven into our most basic biological fabric In a sweeping narrative that moves lucidly

among sophisticated scientific disciplines and covers the entire span of the earth's as well as mankind's history Howard Bloom challenges some of our most popular scientific assumptions Drawing on evidence from studies of the most primitive organisms to those on ants apes and humankind the author makes a persuasive case that it is the group or superorganism rather than the lone individual that really matters in the evolutionary struggle But biology is not destiny and human culture is not always the buffer to our most primitive instincts we would like to think it is In these complex threads of thought lies the Lucifer Principle and only through understanding its mandates will we be able to avoid the nuclear crusades that await us in the twenty first century A revolutionary vision of the relationship between psychology and history The Lucifer Principle will have a profound impact on our concepts of human nature It is astonishing that a book of such importance could be such a pleasure to read Elizabeth F Loftus author of *Memory* *Majestic River* Charles W. J. Withers,2022-11-03 One of the greatest stories of world exploration ever told By the late eighteenth century the river Niger was a 2 000 year old two part geographical problem Solving it would advance European knowledge of Africa provide a route to commercial opportunity and help eradicate the evil of slavery Mungo Park achieved lasting fame in 1796 by solving the first part of the Niger problem which way did the river run Park died in 1806 in circumstances which are still uncertain in failing to solve the second where did the Niger end Numerous expeditions explored the river in the decades following Park's death but not until 1830 was its final course revealed following in the field exploration By then however the Niger problem had been solved by armchair geographers who had never even visited Africa *Majestic River* celebrates Mungo Park's achievements and illuminates his rich afterlife how and why he was commemorated long after his death It is also the thrilling story of the many expeditions that sought to determine the Niger's course and the facts of Park's disappearance as well as a biography of the Niger itself as the river slowly took shape in the European imagination Shortlisted for the Saltire Society History Book of the Year Award

Niger, Post Report ,1985 **The Desert Shore** Christopher Wise,2001 **The Black Woods** Amy Godine,2023-11-15 Winner of the Charles A Weyerhaeuser Forest History Society Book Award The Black Woods chronicles the history of Black pioneers in New York's northern wilderness From the late 1840s to the 1860s they migrated to the Adirondacks to build the farms that helped them meet a 250 property requirement imposed on Black New York voters in 1821 Abolitionist Gerrit Smith gifted 120 000 acres to 3 000 landless Black New Yorkers with the support of Frederick Douglass John Brown and other abolitionists His prescient plan enacted affirmative action and distributive justice But when most of his grantees did not move north Smith's interest cooled He would not visit Timbuctoo Freeman's Home or Blacksville The settlers were on their own In *The Black Woods* Godine revives this history with stirring stories of frontier life and racial justice She puts the vote seeking Black pioneers at the heart of the Adirondack narrative At long last their shaping role has been reclaimed *Richard Bangs Adventures with Purpose* Richard Bangs,2010-10-22 Running such wild rivers as the crocodile infested Tekaze in Ethiopia Richard Bangs used to lived for the adrenalin for the rush of reveling in the misery of

hardship and sidestepping death around every bend Now a respected conservationist he still travels to demanding exotic environments but with a new more sober objective he wants to save these special places Bangs personal experiences of witnessing many special places preserved and lost led him to write *Adventures with Purpose* and the book follows the author to Bosnia Libya Panama the American West Rwanda Thailand and more as he seeks out disappearing cultures peoples habitats and ecosystems particularly rivers so that he can show readers that the loss of these special places will be a catastrophe Written in the vivid intimate style that made his earlier books both critical and commercial successes Richard Bangs *Adventures with Purpose* is an unforgettable composite portrait of a world in peril and an inspiring guide to rescuing it

Developing the Rivers of East and West Africa Heather J. Hoag, 2013-09-12 How did rivers contribute to the economic and political development of modern Africa How did African and European notions of nature's value and meaning differ And how have these evaluations of Africa's rivers changed between 1850 and the present day Drawing upon examples from across the African continent *Developing the Rivers of East and West Africa* explores the role African waterways played in the continent's economic social and political development and provides the first historical study of the key themes in African river history Rivers acted as more than important transportation byways their waters were central to both colonial and postcolonial economic development efforts This book synthesizes the available research on African rivers with new evidence to offer students of African and environmental history a narrative of how people have used and engaged the continent's water resources It analyzes key themes in Africa's modern history European exploration establishment of colonial rule economic development green politics and each case study provides a lens through which to view social economic and ecological change in Africa

Politics, Property and Production in the West African Sahel Tor Arve Benjaminsen, Christian Lund, 2001 Through a number of case studies from the West African Sahel this book links and explores natural resources management from the perspectives of politics property and production

Mungo Park's Ghost Dane Kennedy, 2024-01-25 In 1816 the British sent two large ambitious expeditions to Africa one to follow the Niger River to its outlet the other to trace the Congo River to its source Their shared goal was to complete the unfinished mission of Mungo Park who had disappeared during a journey to determine whether the Niger and the Congo were the same river Both quests ended disastrously and were soon forgotten Telling the full story of these failed expeditions for the first time Dane Kennedy argues that they provide fresh insight into British ambitions in Africa He places them in the contexts of the imperial rivalry with France the slave trade and the abolition campaign and the independent power wielded by African states and peoples He also shows that they were haunted by the same sense of hubris that would afflict many of the expeditions that followed This hubris was Mungo Park's ghost

Nineteenth-Century Travels, Explorations and Empires, Part II vol 7 Peter J Kitson, William Baker, 2021-12-16 A collection of writings on travels undertaken in the Victorian era The texts collected in these volumes show how 19th century travel literature served the interests of empire by promoting British political and

economic values that translated into manufacturing goods Background Notes, Mali ,1984 *Hausaland Divided* William F. S. Miles,2015-08-20 How have different forms of colonialism shaped societies and their politics William F S Miles focuses on the Hausa speaking people of West Africa whose land is still split by an arbitrary boundary established by Great Britain and France at the turn of the century In 1983 Miles returned as a Fulbright scholar to the region where he had served as a Peace Corps volunteer in the late 1970s Already fluent in the Hausa language he established residence in carefully selected twin villages on either side of the border separating the Republic of Niger from the Federal Republic of Nigeria Over the next year and then during subsequent visits he traveled by horseback between the two places conducting archival research collecting oral testimony and living the ethnographic life Miles argues that the colonial imprint of the British and the French can still be discerned more than a generation after the conferring of formal independence on Nigeria and Niger Moreover such influences persist even in the relatively remote countryside in the nature of economic transactions in local education practices in the practice of Islam in the operation of chieftaincy In Hausaland as throughout the world the border illuminates the vital differences between otherwise similar societies **The Maroon Within Us** Asa G. Hilliard,1995 Proceedings of the June 1995 title conference held in Washington DC discussing the molecular basis for age dependent changes in DHEA levels and examining the potential value of DHEA as a diagnostic and therapeutic tool Contains sections on age dependent changes in circulating DHEA and DHEA biosynthesis DHEA and neurologic function physiology of DHEA metabolism biochemical modes of action for DHEA and selected metabolic actions DHEA immunology and aging and DHEA and the atherosclerosis of aging plus poster papers Annotation copyright by Book News Inc Portland OR **The Great Journeys in History** Robin Hanbury-Tenison,2021-05-04 A lively collection of the adventurous stories of the greatest explorers in history Ferdinand Magellan Genghis Khan Thor Heyerdahl Amelia Earhart and Neil Armstrong these are some of the greatest travelers of all time This book chronicles their stories and many more describing epic voyages from early trips through the great port city of Alexandria to the latest journeys into space In antiquity we follow Alexander the Great to the Indus and Hannibal across the Alps in medieval times we trek beside Genghis Khan and Ibn Battuta The Renaissance eventually led to Columbus visiting the Americas and to the circumnavigation of the world In the following centuries global maps are filled in by Abel Tasman Vitus Bering and James Cook Journeys specifically made for scientific discoveries most famously by Alexander von Humboldt and Charles Darwin begin In modern times the ends of the earth were reached including both poles and the world s highest mountain Editor Robin Hanbury Tenison leads an incredible team of fifty two contributors including Robert Ballard and Ranulph Fiennes who relate firsthand experiences with the journeys and places they describe The Great Journeys in History chronicles the stories of bold early travelers who explored the unexplored and who set out into the unknown bringing alive the romance and thrill of adventure *Parasite and Disease Spread by Major Rivers on Earth* Heinz Mehlhorn,Sven Klimpel,2019-11-12 This book focuses on waterborne pathogens and significant diseases occurring along major rivers around

the globe including key examples like the Amazonas Mekong River and Nile Written by leading international experts it offers unique insights into local riverine infection risks in times of global warming and addressing these through advances in diagnosis health management and the development of simple but effective control measures It also sheds light on why former societies collapsed due to transmitted diseases during periods of climate change droughts and floods to help establish effective preventive measures for the future The book appeals to a wide readership from scientists in the field of parasitology infectious diseases and epidemiology to healthcare managers and general readers with an interest in pathogen spread along the largest rivers on earth It particularly highlights past and current control mechanisms in times of global warming and assesses potential future health hazards Proceedings of the ...
