New Perspectives on Structural Change Ludovico Alcorta, Neil Foster-McGregor, Bart Verspagen, Adam Szirmai, 2021-03-23 New Perspectives on Structural Change is a comprehensive edited volume that outlines both the historical roots and state of the art debates on the role of structural change in the process of economic development including both orthodox and heterodox perspectives and contributions from prominent scholars in this field The volume consists of four main sections The first section covers the theoretical foundations of the structural change literature The second section presents an empirical overview of the major trends of structural change using up to date data sources and methods The third section presents a broad ranging empirical analysis of the drivers of structural change The fourth section examines how processes such as inclusive growth poverty reduction productive employment the global income distribution and environmental sustainability are affected by structural change and how they can be influenced by policy

Structural Change in the World Economy (Routledge Revivals) Allan Webster, John H. Dunning, 2013-09-13 The chapters in this edited collection first published in 1990 examine the key aspects of change in the global economy at the end of the twentieth century and the role of national government policies in this Drawing on material from a wide range of disciplines including international trade technology and economic history the authors discuss the implications of these changes for the world's leading capitalist economies With an analysis of the prospects for the future this relevant title will be of particular value to students of business studies and economics and those researching the global economy over the past thirty years

The Future of the World Economy Wilhelm Krelle, 2013-03-09 Economic growth and structural change the future of the world economy is analysed in this book Conditional forecasts are given for the economic development of the most important world market countries till the year 2000 The driving forces of economic growth are identified and forecasted in connection with collaborating scholars in most of these countries and with international organizations This information is used in solving a coherent world model The model consists of linked growth models for each country or groups of countries The solutions show that the inequality in international income distribution will further increase and that the CMEA and OECD countries will approximately keep their relative positions with some changes within these groups Structural change is also analysed Additionally separate forecasts prepared by each collaborating country group are given and may be compared with the forecasts by the world model The book closes with chapters on special features of the future economic development on the international debt problem on long waves on structural change in the world trade on the emergence of service economics and on the comparison of GDP and NMP national accounting

Structural Change in the World Economy Allan Webster, John H. Dunning, 1989 Demystifying the World Economic Development Justin Yifu Lin, Caihui Fu, 2024-10-22 Taking the new structural economics as the theoretical tools this book obtains the maximum understanding of the history development current situation and trend of the change of world economic structure as well as China's role in its development and its underlying laws and policies analyzes the polarization between the rich and poor for countries worldwide and provides a way for them to achieve common prosperity The world is going through a new round of major transformation Profound adjustment has been made in international economy science culture security and politics and the international development environment is undergoing profound changes In this context this book profoundly and systematically explains the underlying economic transition logic of world development and the general trend of China's relationship with the world and presents the entire process of world economic development Readers who pay close attention to the development of the world economy China's economic development and China's role in the world economy will find this book very fascinating *The Evolution of the World Economy* Terutomo Ozawa, 2016-03-25 The world economy is near a critical crossroads as a rising China the greatest ever beneficiary of US led capitalism dreams to replace America's supremacy as a new hegemonic power with a non liberal world order This third volume of the trilogy on reformulating the flying geese theory explains how capitalism has changed industrial structures across the world It asks whether the flying geese formation will survive the changes that have produced the East Asian miracle and as hoped spread to Africa Terutomo Ozawa's reformulated flying geese theory explains structural changes as an innovation driven ratcheting up process of economic growth and shows that market driven multinational corporations are key players for a successful flying geese formation and structural transformation The book argues that the ladder of economic development must be conceived as a double helix with inter and intra industry rungs the latter embedding cross border supply chains and adaptive innovations A thorough exploration of the structural changes under Pax Britannica and Pax Americana moving from kicking away the ladder from emerging economies to then providing it demonstrates that this trend engenders multinational corporations that can facilitate structural transformation particularly in catching up economies Ozawa shows that China is now in the critical transitional period that requires more sophisticated institutional socio political setups as well as more advanced knowledge and ethics to move from the lower to the higher rungs This enlightening accessible and timely conclusion to Ozawa's trilogy will be of great interest to many particularly those specialising in international business economics political science and international relations Academics and practitioners alike will find this an invaluable resource
