Porter, Sean A. Adams, 2016-11-03 This two volume set is part of a growing body of literature concerned with the history of biblical interpretation The ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the Enlightenment identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed Volume 1 contains fourteen essays on twenty two interpreters who were principally active before 1980 and volume 2 has nineteen essays on twenty seven of those who were active primarily after this date Each chapter provides a brief biography of one or more scholars as well as a detailed description of their major contributions to the field This is followed by an often new application of the scholar s theory By focusing on the individual scholars and their work the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live This set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed **Michel Foucault's Archaeology of Western Culture** Pamela Major-Poetzel, 2017-10-10 The author argues that Foucault s archaeology is an attempt to separate historical and philosophical analysis from the evolutionary model of nineteenth century biology and to establish a new form of social thought based on principles similar to field theory in twentieth century physics She examines Foucault s view of the relationship between power and knowledge and goes on to discuss the new concepts of space time subject and causality expressed in relativity theory quantum mechanics Saussurean linguistics and Foucault s literary essays Originally published in 1983 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **Structuralism** Peter Caws, 1988 **History of the Language Sciences / Geschichte der Sprachwissenschaften / Histoire des sciences du langage. 3. HSK 18 3 E BOOK **Markedness in Canaanite and Hebrew Verbs** Paul D. Korchin, 2018-08-14 Semitic linguistics is arguably involved in its own version of a maximalist versus minimalist controversy with respect to verbal morphology. Dissent persists about whether and to what degree the Northwest Semitic verb paradigms underlying languages such as Biblical Hebrew and Amarna Canaanite *yaqtul yaqtulu yaqtula* are themselves determinative of tense aspect mood values as opposed to extra verbal structures ranging from syntax to discourse. To label a verb form as marked or unmarked for these values is to evoke a bountiful yet nebulous complex of theories about how language is built and employed. But Semitists have often unwittingly bleached markedness terms of their full historical and technical significance reducing them to generic appellations that are invoked in sporadic and nearly random fashions. By applying markedness to Semitic morphology in a consistent and rigorous manner this innovative book brings to bear a venerable linguistic construct on a persistent philological crux in order to achieve deeper clarity in the structures and workings of Canaanite and Hebrew verbs. Korchin's arguments hold relevance for translating and interpreting nearly every sentence in ancient texts such as the Hebrew Bible and the Amarna letters.

The Pragmalinguistic Analysis of Narrative Texts Richard J. Watts, 1981 Annales Stuart Clark, 1999 This collection reprints key articles written within the past 30 years on the Annales school, their journal, their influence on history, historiography and other academic fields.

Laurence Sterne and the Argument about Design Mark Loveridge, 1982-03-25 *Allah Transcendent* Ian Richard Netton, 2013-01-11 Examines the role of God in medieval Islamic philosophy and theology in a new and exciting way. Renouncing the traditional chronological method of considering Islamic philosophy, Netton uses modern literary modes of criticism derived from structuralism, post structuralism and semiotics.

Mark's Audience Mary Ann Beavis, 2015-01-29 Mark 4:11-12 the parable theory passage has probably been commented upon more often than any other section of Mark's Gospel. The saying has usually been interpreted as an authentic utterance of Jesus which was subsequently misunderstood and misinterpreted by early Christians including the evangelist Mark. The precise meaning of the mystery logion in the ministry of Jesus is notoriously elusive since we have no information about the context in which it was spoken or about the audience to which it was addressed. Much more, however, can be known about the interpretative context of the logion in Mark since it is surrounded by passages that seem to echo the mystery saying. This study examines the complex web of literary relationships between Mark 4:11-12 and the Gospel as a whole. Dr Beavis's fresh interpretation is unusual in that she undertakes to interpret the Gospel of Mark as far as possible from the point of view of its historical readers/audience. Chapters 1 and 2 of the book attempt to describe the community for which the Gospel was written and in the rest of the book this socio-cultural setting is used to investigate the meaning of the mystery saying for the original readers/hearers of Mark.

Watchwords Timothy Geddert, 2015-01-29 Mark has written a remarkable Gospel. Deceptively simple on the surface, its mystery and ambiguity have intrigued and challenged scholar and lay reader alike. Through veiled clues, controlled word usage and carefully contrived ambiguity, Mark embeds profound theological

reflections in the stories he tells The eschatological discourse Mark 13 is a prime example Modern scholars have attempted in vain to eliminate the ambiguities of Mark 13 Does Mark expect the End to come very soon What is the relationship between the Fall of the Temple and the End of the Age But the evidence indicates that Mark has deliberately produced the very uncertainty which has troubled scholars and which they want to eliminate In Mark attention is diverted from signs and evidences to the twin and inseparable themes of discernment and discipleship These themes are captured by the two primary watchwords of Mark 13 which call believers to understand the significance of events they experience and to serve and if necessary suffer faithfully in the unknown period before the return of the Son of Man In his communication techniques his content and his priorities Mark models himself after the Jesus he portrays He calls readers as Jesus called disciples to follow and to understand and sometimes to follow without understanding until the unknown future when the Son of Man will reveal in its fullness the Kingdom now secretly present for those with eyes to see and ears to hear

Belonging in America

Constance Perin,1988 Belonging in America gives voice to unspoken conventions and silent understandings and asks why our culture draws the lines it does between home and work family and friends humans and animals Throughout her fascinating book Constance Perin shows us the systems of meaning through which contemporary American create social order and define their relationships

The Cruciform Brooch and Anglo-Saxon England Toby F. Martin,2015 Cruciform brooches were large and decorative items of jewellery frequently used to pin together women s garments in pre Christian northwest Europe Characterised by the strange bestial visages that project from the feet of these dress and cloak fasteners cruciform brooches were especially common in eastern England during the 5th and 6th centuries AD This book provides a multifaceted holistic and contextual analysis of more than 2 000 Anglo Saxon cruciform brooches It offers a critical examination of identity in Early Medieval society suggesting that the idea of being Anglian in post Roman Britain was not a primordial tribal identity transplanted from northern Germany but was at least partly forged through the repeated prevalent use of dress and material culture

Language and Human Understanding David Braine,2014-02-03 Philosopher psychologist and linguist are all concerned with natural language Accordingly in seeking a unified view Braine draws on insights from all these fields sifting through the discordant schools of linguists He concludes that one extended logic or integrated semantic syntax shapes grammar but without constricting languages to being of one grammatical type
