Stolorow, 2014-06-05 Structures of Subjectivity Explorations in Psychoanalytic Phenomenology and Contextualism is a revised and expanded second edition of a work first published in 1984 which was the first systematic presentation of the intersubjective viewpoint what George Atwood and Robert Stolorow called psychoanalytic phenomenology in psychoanalysis This edition contains new chapters tracing the further development of their thinking over the ensuing decades and explores the personal origins of their most essential ideas In this new edition Atwood and Stolorow cover the philosophical and theoretical assumptions of psychoanalysis and present a broad approach that they have designated phenomenological contextualism This approach addresses personal subjective worlds in all their richness and idiosyncrasy and focuses on their relational contexts of origin and therapeutic transformation Structures of Subjectivity covers the principles guiding the practice of psychoanalytic therapy from the authors viewpoints and includes numerous detailed clinical case studies The book will be essential reading for psychoanalysts practitioners of psychotherapy psychiatrists psychologists counselors and social workers It will also be of interest to scholars and students with an interest in psychoanalytic theory and practice and its philosophical premises *The Structure and Meaning of Psychoanalysis* William Healy, Augusta Bronner, Anna Mae Bowers, 1930 *The Structure and Meaning of Psychoanalysis as Related to Personality* William Healy, Augusta Fox Bronner, Anna Mae Bowers, 1930 **Structures of Knowing** Katherine Arens, 2012-12-06 **Architecture and Psychoanalysis** John Shannon Hendrix, 2006 Textbook *Pioneers of Interpersonal Psychoanalysis* Donnel B. Stern, Carola Mann, Stuart Kantor, Gary Schlesinger, 2015-12-03 This volume brings together 14 classic papers by interpersonal pioneers Collectively these papers not only demonstrate the coherence and explanatory richness of interpersonal psychoanalysis they anticipate the emphasis on relational patterns and analyst analysis and interaction that typifies much recent theorizing Each paper receives a substantial introduction from a leading contemporary interpersonalist The pioneers of interpersonal psychoanalysis are H Sullivan F Fromm Reichmann J Rioch C Thompson R Crowley E Schachtel E Tauber E Fromm H Bone E Singer D Schechter J Barnett S Arieti and J Schimmel **Time, Self, and Psychoanalysis** William W. Meissner, 2007-03-06 This book is a study of time particularly of the nature of subjective time that is time as subjectively experienced and lived in contrast with time as measured objectively as for example by a clock The argument first addresses the development of the time experience its origins in infantile experience and traces its variations and modifications during the course of the life cycle As the life course advances concerns about and preoccupations with death play an increasingly important role in attitudes toward and involvement in temporally related

contexts The next step is an examination of the phenomenology of time experience itself and its dependence on biorhythms and affective influences An important aspect of this discussion is the relation between time experience as a conscious phenomenon and the functioning of unconscious determinants of the time experience This leads to the question given these conclusions regarding the nature of time experience what implications can we draw for the understanding of the nature and functioning of the self within psychoanalysis The book s final section applies these understandings to the analytic process focusing particularly on the meaning of the time experience in the patient s psychic reality and patterns of enactment around issues of time and time management in the analytic situation

The Meaning of Consciousness Andrew Lohrey,1997
Advances a bold new theory of consciousness and meaning by means of subjective holistic analysis

Beneath the Mask Robert N. Sollod,Christopher F. Monte,2008-01-22 Beneath the Mask presents classic theories of human nature much as each theorist might if the theorist were to teach his or her ideas to people encountering them for the first time Through a theorist by theorist approach this Eighth Edition continues to explore the ideas of personality theorists developmentally incorporating the personal origins of ideas to illuminate links between the psychology of each theorist and that theorist s own psychology of persons Beneath the Mask presents the sequence of thinking for more than 20 theorists and demonstrates how the thinking that led to major theories is nested in the life experience of the theorists within the context of the surrounding culture The authors emphasize each theorist s life history as the basis for the ideas that constitute his or her theories making them easier to understand as pictures of human nature John P Wilson has revised the text in a manner that preserves and improves upon the best features of the late Robert N Sollod and Christopher Monte s work

Structuralist Analysis in Contemporary Social Thought (RLE Social Theory) Miriam Glucksmann,2014-08-21 The primary concern of this book is to investigate whether or not structuralism constitutes a distinctive framework in the social sciences The author focuses on two major structuralist thinkers Louis Althusser and

Claude L vi Strauss She analyses and compares the structure of their theory and places them within the context of their respective disciplines Dr Glucksmann began working on this book at a time when structuralism was at the height of its popularity in France and was thought to be a homogenous alternative to bourgeois sociology The progress of her study implicitly reflects the developments and divergences within structuralist thought that have emerged since then In particular she examines the differences between the political and philosophical thought of Althusser and L vi Strauss which have become increasingly manifest

Meaning and Myth in the Study of Lives Stuart L. Charmé, 2015-09-30 This book explores major theoretical issues in the study of an individual life through its focus on Jean Paul Sartre Sartre s quest for an existential psychoanalysis led him to develop what he called true novels in the landmark studies of Flaubert and others In clarifying Sartre s philosophical ideas in relation to the analysis of the self Stuart L Charmé examines the attraction repulsion of Freudian concepts and explores parallels to Erikson s ego psychology Certain mythic qualities in religious biography and autobiography are seen as central to Sartre who presents lives including his own as normative models The book concludes by making a provocative link between the modern preoccupation with self analysis in biography and autobiography and a fundamental religious need that was once fulfilled by primitive myth

Personality Development P. Michiel Westenberg, Augusto Blasi, Lawrence D. Cohn, 2013-05-13 Jane Loevinger's innovative research methodology, psychometric rigor, and theoretical scope have attracted the attention of numerous scholars and researchers. Empirical investigations employing Loevinger's Washington University Sentence Completion Test of ego development (WUSCT) have appeared with increasing frequency, and total more than 300 studies. Following the publication of the first comprehensive revision of the scoring manual for the WUSCT, this volume reflects on the strengths and limitations of Loevinger's developmental model. It is divided into sections that correspond with four broad questions that can be raised about Loevinger's developmental model: What is its scope and intellectual tradition? What evidence is there for construct validity? What is its relationship to other social developmental models? What is its clinical relevance to Loevinger's model of ego development? This four-part grouping provides a framework for effectively organizing the present material, and frequently the questions raised in one section are addressed in other sections as well. In the concluding chapter, Loevinger addresses some of the ideas that are proposed by the various authors. She also presents the origin of the ego development concept by recounting its history.

Language and the Distortion of Meaning Patrick Degramont, 1992-04-01 Patrick de Gramont draws upon evidence from infant observation and linguistics as well as from information theory in order to make two related points.
