The Structure of Local Government in England and Wales William Eric Jackson, 1963
Local government and democracy in Britain Neil Barnett, J. A. Chandler, 2003-11-14
Local government in the UK is in crisis. It is now neither local in terms of the geography and populations of its principle units nor does it truly govern in these areas. As this book reveals over the previous 200 years, local government has moved from a system in which local interests held governance over localities to one in which central government and national and multi-national agencies such as corporate businesses hold governance over local and community decision making. These changes seriously undermine the important role that local government can play in liberal democracy in the UK. The book explains the nature of local government today and asks if there is any possibility of change.

Local Government in Europe Carlo Panara, Michael R. Varney, 2013-12-04
This work considers the role of local government in 13 EU Member States: Austria, Belgium, Czech Republic, France, Germany, Greece, Hungary, Italy, Netherlands, Poland, Spain, Sweden and the United Kingdom. The book aims to provide an account of the system of local government in each of the countries studied along with a critical and contextual approach to the level of autonomy that local government enjoys. The approach is comparative based on a questionnaire which all of the authors considered. There is then a detailed conclusion to the book which offers a detailed summary and comparative analysis of the responses in order to better consider the role of local authorities as the fourth level of governance in the EU. The book aims to offer a detailed introduction to and account of each system of local government which may appeal to those seeking an overview of the area but also a critical and contextual approach that will be of interest to those actively researching in the areas of local and regional government or EU central local government relations. The book contains details of reform in local government up to November 2012 including an analysis of the impact of austerity measures on local autonomy where these have become significant.
