Structure of Modern Poetry John A.F. Hopkins, 2020-04-02 With something of a poetry renaissance currently under way worldwide there is now more than ever a need for a solidly based methodology for interpreting poems something more empirical than traditional lit crit approaches and something more linguistically informed than the version of postmodernism rampant in certain Anglophone universities The latter approach which tends to allow the individual reader to do what he she likes with a poetic text is inadequate to interpret modernist poetry whose English language precursors may be found in the late Romantics its pioneers were already writing in France as early as 1840 What is so different about the modernists Most importantly their works are monumental in that they are strongly resistant to deconstruction Contributing to this resistance is the fact that they are built around two deep level propositions each of which generates a set of indirectly signifying images sharing the same internal structure but having a different vocabulary Thus they do not signify according to linear narrative but according to these propositions and the relation between them which may be reconstructed by a careful comparison of images on the textual surface Every text as subject sign refers to an intertextual object sign which is usually another poem but may also be a film or other form of art Mediating between these two signs is their reader constructed interpretant which completes the semiotic triad As this book shows the novelty of this sign is thrown into relief by the contrast it makes with a lexical counterpart from the reader's experience which differs from the interpretant in structure The book's inclusion of French and Japanese as well as English poems shows that deep level signifying mechanisms may well be universal with considerable research and pedagogical implications Reading Modernist Poetry Michael H. Whitworth, 2010-02-12 This essential guide to modernist poetry enables readers to make sense of a literary movement often regarded as difficult and intimidating Provides close examinations of key poems by T S Eliot Ezra Pound W B Yeats and others Considers key techniques employed to orient and disorient the reader such as diction rhythm and allusion Explores the ideological implications of subject matter and the literary forms and structures of modernist poetry Places modernist poetry in relation

to its Victorian and Romantic predecessors Encourages readers to engage with the texts and make their own interpretations moving away from the question of what the poem says in favour of considering the effect of the poem on its reader *The Universal Deep Structure of Modern Poetry* JOHN A.
