Structure Of The Life Course Standardized Individualized Differentiated:

The Structure of the Life Course: Standardized? Individualized? Differentiated? Ross Macmillan, 2005-07-14 Current debates in life course studies increasingly reference theories of individualization standardization and differentiation in the structure of the life course This volume brings together leading scholars from a variety of fields to assess the theoretical underpinnings the empirical evidence and the implications of existing arguments The contributions include comparative historical work demographic analysis and detailed survey research The topics covered include historical cross cultural and racioethnic variation in the transition to adulthood the school to work transition educational careers retirement activity characteristics over the life span and the life course context of psychological well being The various contributions expand our understanding of the contemporary life course and its implications The authors offer innovative theoretical and methodological approaches that demonstrate the utility of holistic approaches to conceptualizing the life course and understanding its implications for modern society

Families in an Era of Increasing Inequality Paul R. Amato, Alan Booth, Susan M. McHale, Jennifer Van Hook, 2014-10-07 The widening gap between the rich and the poor is turning the American dream into an impossibility for many particularly children and families And as the children of low income families grow to adulthood they have less access to opportunities and resources than their higher income peers and increasing odds of repeating the experiences of their parents Families in an Era of Increasing Inequality probes the complex relations between social inequality and child development and examines possibilities for disrupting these ongoing patterns Experts across the social sciences track trends in marriage divorce employment and family structure across socioeconomic strata in the U S and other developed countries These family data give readers a deeper understanding of how social class shapes children s paths to adulthood and how those paths continue to diverge over time and into future generations In addition contributors critique current policies and programs that have been created to reduce disparities and offer suggestions for more effective alternatives Among the topics covered Inequality begins at home the role of parenting in the diverging destinies of rich and poor children Inequality begins outside the home putting parental educational investments into context How class and family structure impact the transition to adulthood Dealing with the consequences of changes in family composition Dynamic models of poverty related adversity and child outcomes The diverging destinies of children and what it means for children s lives As new initiatives are sought to improve the lives of families and children in the short and long term Families in an Era of Increasing Inequality is a key resource for researchers and practitioners in family studies social work health education sociology demography and psychology

Lithuanian Society in Transition Laima Zilinskiene, Sigita Kraniauskiene, Melanie Ilic, 2024-12-31 Lithuanian Society in Transition examines the

life experiences formed during the process of post socialist transformation in Lithuania by analysing the peculiarities of the life course of the cohort of young people born between 1980 and 2000 This book considers how various different components of post Soviet system transformation and more recent events such as the COVID 19 pandemic determine youth experiences and how these experiences are reflected in the generations born between 1980 and 2000 It explores how far these generations see themselves as distinct generations with distinctive identities how far any sense of a distinctive identity is based on political criteria or on technological changes demography and lifestyle and how far recent geopolitical events have had an impact on the identities of these younger generations Drawing on detailed evidence from a corpus of specially commissioned life history interviews the individual chapters uncover self reflexive generational identities and set these in the broader context of both specific local generational identities and more global generation identifiers Offering a rich analysis on social change in a key post Soviet country following the collapse of communism this book will be useful for researchers in sociology and social policy history Russia and Former Soviet Union European studies and ethnic studies **Institutions**

Unbound David L. Brunsma,Keri E. Iyall Smith,Brian K. Gran,2016-03-02 Institutions like education family medicine culture and law are powerful social structures shaping how we live together As members of society we daily express our adherence to norms and values of institutions as we consciously and unconsciously reject and challenge them Our everyday experiences with institutions not only shape our connections with one another they can reinforce our binding to the status quo as we struggle to produce social change Institutions can help us do human rights Institutions that bridge nation states can offer resources including norms to advance human rights These institutions can serve as touch stones to changing minds and confronting human rights violations Institutions can also prevent us from doing human rights We create institutions but institutions can be difficult to change Institutions can weaken if not outright prevent human rights establishment and implementation To release human rights from their institutional bindings sociologists must solve riddles of how institutions work and determine social life This book is a step forward in identifying means by which we can loosen human rights from institutional constraints *Sociology for Human Rights* David L. Brunsma,Keri E. Iyall Smith,Brian K. Gran,2019-07-19 As sociologists deepen their examinations of human rights in their teaching research and thinking it is essential that such work is conducted in a manner that is both mindful and critical of the knowledge we are building upon in sociology and human rights As the authors of this volume reveal creating sociological knowledge that examines human rights for the expansion of human rights is something that sociologists are well equipped to undertake whether through the use of mathematics comparative historical analysis the study of emotions conversations or social psychology In these chapters you will find the roots of the study of human rights deep within sociological research and thinking as well as emerging techniques that will push the discipline as it seeks to expand understanding of human rights together with so many other aspects of the social condition Handbook of Sociology and Human Rights David L. Brunsma,Keri E. Lyall Smith,Brian K Gran,2015-10-23 Long

the province of international law human rights now enjoys a renaissance of studies and new perspectives from the social sciences This landmark book is the first to synthesize and comprehensively evaluate this body of work It fosters an interdisciplinary international and critical engagement both in the social study of human rights and the establishment of a human rights approach throughout the field of sociology Sociological perspectives bring new questions to the interdisciplinary study of human rights as amply illustrated in this book The Handbook is indispensable to any interdisciplinary collection on human rights or on sociology This text Brings new perspectives to the study of human rights in an interdisciplinary fashion Offers state of the art summaries critical discussions of established human rights paradigms and a host of new insights and further research directions Fosters a comprehensive human rights approach to sociology topically representing all 45 sections of the American Sociological Association *Economic Stress and the Family* Sampson Lee Blair, 2012-09-25 This volume focuses on how families and family members have been affected by economic and financial stress Using a variety of methodological and theoretical perspectives the scholars in this volume examine the various ways financial difficulties affect family structures family behaviours and family relationships Gender Inequalities in the 21st Century Jacqueline L. Scott, Rosemary Crompton, Clare Lyonette, 2010-01-01 Both women and men strive to achieve a work and family balance but does this imply more or less equality Does the persistence of gender and class inequalities refute the notion that lives are becoming more individualised This book documents how gender inequalities are changing and how many inequalities of earlier eras are being eradicated **Essentials of Human Behavior** Elizabeth D. Hutchison, 2016-08-11 Essentials of Human Behavior combines Elizabeth D Hutchison s two volume Dimensions of Human Behavior to present a multidimensional framework for understanding human behavior Integrating person environment and the life course this best selling text leverages its hallmark case studies and balanced breadth and depth of coverage to help readers apply theory and general social work knowledge to unique practice situations Now in four color and available with an interactive eBook the Second Edition features a streamlined organization the latest research and original SAGE video to provide the most engaging introduction available to human behavior Annual Review of Gerontology and Geriatrics, Volume 35, 2015 Manfred Diehl, PhD, Hans-Werner Wahl, PhD, 2014-12-20 Print CourseSmart Governance of Educational Trajectories in Europe Andreas Walther, Marcelo Parreira do Amaral, Morena Cuconato, Roger Dale, 2016-05-19 Drawing on findings from a large EU funded research project that took place over three years this book analyses educational trajectories of young people in eight European countries Finland France Germany Italy the Netherlands Poland Slovenia and the United Kingdom Contributors explore interactions between structural and institutional contexts of educational trajectories the individual meaning attached to education and the strategies adopted by young people to cope with its demands The book also analyses the decision making processes of individual students placing them firmly within the social contexts of their families local schools national education systems and welfare states as well as transnational policy contexts In considering educational disadvantage the

book is based on primary cross national research with systematic analysis of the different themes addressed As every chapters is co authored by two or three researchers each based in a different country the book goes beyond the usual country based chapter design to provide an enriched insight into both comparative theory and research methods New Pathways in Retirement Research: Innovative Perspectives on Social Inequalities and the Distribution of Transitional Risks Moritz Hess, Anna Wanka, David Lain, 2022-11-02 **The Demography of Europe** Gerda Neyer, Gunnar Andersson, Hill Kulu, Laura Bernardi, Christoph Bühler, 2013-04-22 Over the past decades Europe has witnessed fundamental changes of its population dynamics and population structure Fertility has fallen below replacement level in almost all European countries while childbearing behavior and family formation have become more diverse Life expectancy has increased in Western Europe for both females and males but has been declining for men in some Eastern European countries Immigration from non European countries has increased substantially as has mobility within Europe These changes pose major challenges to population studies as conventional theoretical assumptions regarding demographic behavior and demographic development seem unfit to provide convincing explanations of the recent demographic changes This book derived from the symposium on The Demography of Europe held at the Max Planck Institute for Demographic Research in Rostock Germany in November 2007 in honor of Professor Jan M Hoem brings together leading population researchers in the area of fertility family migration life expectancy and mortality The contributions present key issues of the new demography of Europe and discuss key research advances to understand the continent s demographic development at the turn of the 21st century
