

How to Structure Your Novel's Chapters

1. Use themed titles

E.g. In *The Shipping News*, E. Annie Proulx names chapters after types of sailors' knots.

3. Echo first lines

E.g. In *Beloved*, the opening of each section uses similar wording and sentence structure.

5. Plan internal structure

Plan both how chapters fit together and how each starts, develops, ends.

2. Use names

E.g. In *As I Lay Dying*, Faulkner titles each chapter after its narrator.

4. Vary chapter length

Shorter for action, fast pace. Longer for pause, expansive ideas and reflections.

6. Structure visually

Use index cards, a cork board or timelines to structure chapters.

Conclusion: If you want to finally write your novel, then buy *How to Write a Novel* today. **The Structure of the Novel.** Edwin Muir, 1928 **Structure and Function** □ **A Guide to Three Major Structural-Functional Theories** Christopher S. Butler, 2003-06-30 This book and its companion volume present a detailed guide to three major structural-functional theories: Functional Grammar, Role and Reference Grammar, and Systemic Functional Grammar. This first volume provides the necessary background through a discussion of the characteristics of functional theories, followed by a brief analysis of six approaches to language in the light of this discussion. These chapters lead to a characterization of a smaller set of structural-functional grammars, among which FG, RRG, and SFG are central. An overview of each of these theories in relation to the simplex clause is then presented, followed by a more critical comparison. The remainder of the book deals with the structure and meaning of phrasal units, the representation of situations, and the treatment of tense, aspect, modality, and polarity across the three theories. A major feature of the book is the use of examples from corpora of English and other languages, which serve not only to exemplify theoretical and descriptive claims but also at times to challenge them. **Naturalism's Philosophy of the Sacred** Martin O. Yalcin, 2013-11-05 Naturalism's Philosophy

of the Sacred Justus Buchler Karl Jaspers and George Santayana offers an interpretation of the sacred based on the ordinal naturalism of Justus Buchler one of the most important philosophers of the twentieth century whose work is experiencing a renaissance This book seeks to find common ground between theists and atheists by arguing that religious beliefs should be retained because they provide a poetic response to nature's mysteries while also addressing the atheist's concerns regarding the tendency of religious believers to demonize nonbelievers and to idolize their own conceptions of the sacred The heart of Martin O Yalcin's argument is that religious violence can be traced to the belief that God is far more real and therefore far more valuable than nature In contrast to this view he develops a philosophy of the sacred from the perspective of ontological parity which holds that all things are equally real He argues that when the sacred is leveled to the plane of nature as one of its innumerable orders then the virtues of piety and charity replace the vices of demonization and idolization so evident in religions that insist on the utter incommensurability of God with respect to the created order In the course of developing an aesthetic interpretation of the sacred Yalcin explores not only the metaphysical categories of Justus Buchler but also those of Karl Jaspers and George Santayana The dialogue with Jaspers unearths the absolute otherness of the sacred as the intrinsically unethical dimension of any variant of theism Having undermined the total absolutism of the sacred Naturalism's Philosophy of the Sacred suggests an alternative aesthetic form of sacred engagement that piggybacks on Santayana's thoroughly natural poetic rendition of the sacred This book will be of great value to students and scholars working in departments of religion philosophy and theology

Linguistics and Novel Roger Fowler, 2013-10-08 We are living in a time of rapid radical social change In New Accents each volume in the series will seek to encourage rather than resist the process of change to stretch rather than reinforce the boundaries that currently define literature and its academic study This volume explores new approaches in the criticism of fiction Romancing the Beat: Story Structure for Romance Novels (How to Write Kissing Books, #1) Gwen Hayes,

Novels of William Boyd Dr. Rajesh Shashikant Latane, 2015-02-25 have great pleasure in writing this foreword to Dr Latane's book on the Novels of William Boyd The book is a significant contribution to Boyd criticism It has discussed the early the middle and the last phase of Boyd's novels In doing if the author has defined the totality of Boyd's vision Indeed

every novel is a part of this totality and the totality is more than a mere sum of the novels The reciprocal relationship between the part and the whole is the crux of novel criticism and the book has given due justice to this aspect Another important feature of the book is the analysis of the postmodernist element in Boyd s novels This critical framework can be used to analysis the postmodernist element in the contemporary Indian novel in English Even going further it can be used to analyse the Postmodernist element in the contemporary Marathi novel A thesis is really acknowledged when it become a source material for the future researchers and comparatives Mr Latane s book has that potential I heartily wish a good reception to the book Dr Prakash Deshpande Kejkar Former Professor of English Shivaji University Kolhapur

Building Fiction Jesse Lee Kercheval,2003 No one looks at structure like Jesse Lee Kercheval She builds a work of fiction just as an architect would design a house with an eye for details and how all parts of a story or novel interconnect Even with the most dynamic language images and characters no piece of fiction will work without a strong infrastructure Kercheval shows how to build that structure using such tools as point of view characterization pacing and flashbacks Building Fiction will help you envision the landscape of fiction and build great stories there
