Structured Programming In Dbase Iv:

Structured Programming in DBase IV Robert L. Buchanan,1991 **Structured Programming in DBase IV** Robert L. Buchanan,1995 Designed as a course in programming in dBASE IV version 2 0 or a database management system dbms this book features review exercises with a running case that is developed and tested within most chapters New commands and functions associated with the concepts presented are introduced and discussed Objectives and outlines serve as helpful chapter guides for the student DBASE - From the Dot Prompt Warren M. Littlefield,1993-06-04 This is an introduction to systems programming using dBASE IV as a first programming language The author uses dBASE IV version 1 1 or 1 5 because it is the easiest language to learn initially and applications can be up and running more easily and quickly This textbook is very easy to use The results of commands are shown on monitor screens illustrated in the text Page two begins the creation of a data base with immediate interaction with the computer Students know exactly what they are doing because of the clear and concise explanations and because they have a view of their screens in the text If the student s screen does not match he or she can just backtrack Little backtracking will be necessary because the language is so exact The text is self teaching
