**Creative Fractures** M.D. Litonjua, 2011-02-01

The world is one of increasing diversity and pluralism Our world is one of the different and of the many Even the individual personality and the social self are increasingly diverse and plural This is especially evident in racial and ethnic identities The Ohioan the New Yorker the Texan all became after the cauldron of the Civil War the American Now the American is continually being hyphenated Native American African American Latino American Asian American and a host of other hyphens In the academy the dichotomy between the fox who knows many things and the hedgehog who knows one big thing Archilocus is giving way to different combinations and variations of learning teaching and expertise as demanded by and reflecting the diversity and complexity of society and world While these differences and pluralisms can lead to fragmentation these fractures can also be creative The ethnically hyphenated person who straddles two cultures need not be marginal to both but can use the riches of his her diverse experiences to cross fertilize the cultures of which they are now part and parcel The other the different especially the poor must not be marginalized pushed to the margins of society as outcasts they need to be empowered for their betterment and for the common good of society The academic well versed in several disciplines should not be considered master of none but can bring the insights of one discipline to tame the fundamentalism of another discipline and to expand the horizons of all In one form or another to a greater or lesser extent this is what I have tried to do in the essays gathered in this second collection the first being Critical Intersections 2006

### **The Community of the Weak**

Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story

### **Joint**

**Ventures** M. D. Litonjua, 2012-10 Joint Venture s is a term used in the business world to describe two or more business enterprises that join hands and consolidate their management operations and labor force to increase their productivity to offer a more diversified array of products to increase their profitability and be a more successful business enterprise in service to their employees and society at large But it is not simply a matter of joining economic forces and resources There has to be synergy compatibility and complementarity in corporate strengths and weaknesses in corporate missions and

cultures in corporate objectives and strategies such that the joint venture s result s in something greater than the mere sum of their parts This is true of joint venture s in the academic world Interdisciplinary studies are not mere combinations of academic courses They are or should be the mutual enrichment and mutual correction of disciplines They can be and are about expanding the horizons of a discipline beyond its narrow confines and or correcting the constricting assumptions values and prescriptions of doctrinaire theoretical viewpoints These have been the basic assumption and the goal the working framework and agenda behind the essays gathered here as they were in my earlier collections *Critical Intersections* 2006 and *Creative Fractures* 2011 In my teaching and writing I seek to bring to bear insights and perspectives from religious studies and the social sciences their critical intersections their creative fractures and their joint ventures to elucidate discussions controversies and explanations

**Critical Intersections** M.D. Litonjua, 2006-06-19 Life is all about intersections Living is where sorrow meets joy where pain encounters ecstasy where the weakness of the flesh is buoyed by the strength of faith where love conquers all doubts and betrayals Marriage is for better and worse for richer and poorer in sickness and health it is for life and death Spirituality is the arduous integration of life's dispositions and tendencies of one's urges and habits for the whole to reach out in transcendence to one's fellow human beings and to God Growth to Christian maturity is actualizing the intersecting because cruciform demands of love of God and love of neighbor which follows the path that leads from Good Friday to Easter Sunday Academic life is also becoming one of intersections After the increasing structural differentiation and functional specialization characteristic of modernity academic disciplines are critically intersecting and cross fertilizing with each other for integration enrichment and further enlightenment The behavioral sciences need genetics and biology for a more adequate explanation of human behavior Homo oeconomicus of neoclassical economics is complemented by the realities of power of homo sociologicus Theology calls on the social sciences in addition to its ancient ancilla philosophy to make moral sense of social and global problems Interdisciplinary courses try to make connections between the disciplines students have studied and to integrate the breadth and the depth of knowledge they have been exposed to

**Explorations in Classical Sociological Theory: Seeing the Social**

**World** Kenneth Allan,2012-04-30 Kenneth Allan emphasizes theory as a constructive thinking enterprise by including chapters devoted to teaching students how to think theoretically      **The Cultural One or the Racial Many** Evandro Camara,2019-05-23 First published in 1997 this study aims first to enlarge upon the understanding of race and ethnicity through a culturalist comparative frame of analysis instead of the standard quantitative and political economy approaches Secondly to analyse in systematic form the religious constitution of sociocultural life Ethnic and race relations are examined in reference to the cultural system of the society which is conceived in terms of three interrelated aspects of the assimilative process cultural assimilation concerning dominant minority cultural relations psychosocial assimilation concerning the question of identity and biological assimilation concerning intermarriage The U S and Brazilian cultural systems are contrasted as ideal types of cultural separatism and cultural integration respectively Against current thinking it is argued that the former type crystallizes interethnic conflict and inequality while the latter is a prerequisite for the full social inclusion of society s members Finally the dominant religion and religious culture of each society are addressed as the critical structuring force of social and intergroup relations      **Social Theory in Popular Culture** Lee Barron,2017-09-16 Social theory can sometimes seem as though it s speaking of a world that existed long ago so why should we continue to study and discuss the theories of these dead white men Can their work still inform us about the way we live today Are they still relevant to our consumer focused celebrity crazy tattoo friendly world This book explains how the ideas of classical sociological theory can be understood and applied to everyday activities like listening to hip hop reading fashion magazines or watching reality TV Taking the reader through central sociological texts Social Theory In Popular Culture explains why key theorists from Marx to Saussure are still considered to be the bedrock of sociology and sociological enquiry Each chapter examines a different key thinker and applies their work to a recognisable aspect of popular cultural showing how the central issues underpinning classic social thought class conflict gender power ethnicity and social status can still be readily observed within the modern global world Encouraging the reader to critique and reflect upon the ways in which classic social theory applies to their own worlds this is the perfect antidote to dry social theory explanations It is an eye opening read for all students and scholars across the social sciences      Sexism and Sin-Talk Rachel Sophia Baard,2020-01-01 Early feminist theologians criticized the Christian doctrine of sin for its focus on female sexual purity and its enabling of the marginalization and oppression of women Others have questioned whether the entire theological category of sin should be abandoned in favor of other ways of talking about the human predicament In this new book Rachel Baard argues for a feminist critique of traditional sin talk alongside a constructive reinterpretation of the doctrine of sinone that can be life affirming for all persons She claims that the Christian idea of sinthat tragic flaw at the core of human experienceprovides one of the best tools for understanding the evils of sexism patriarchy and traditional sin talk itself She likewise provides a new rhetoric of sin talk one that accounts for the diverse experiences of the human family not simply those of powerful men      *The Gospel Among the*
