## **Struggle For Equal Education:**

*The Struggle for Equal Education* Paul Finkelman, 1992

**The Struggle for Equal Education** Paul Finkelman, 1992

**The Struggle for Equal Education** Clarence Lusane, 1992 Describes black education during slavery Reconstruction and integration and even through the Bakke court decision Chicana/o Struggles for Education Guadalupe San Miguel, 2013-06-03 Much of the history of Mexican American educational reform efforts has focused on campaigns to eliminate discrimination in public schools However as historian Guadalupe San Miguel demonstrates in *Chicana o Struggles for Education Activism in the Community* the story is much broader and more varied than that While activists certainly challenged discrimination they also worked for specific public school reforms and sought private schooling opportunities utilizing new patterns of contestation and advocacy In documenting and reviewing these additional strategies San Miguel s nuanced overview and analysis offers enhanced insight into the quest for equal educational opportunity to new generations of students San Miguel addresses questions such as what factors led to change in the 1960s and in later years who the individuals and organizations were that led the movements in this period and what motivated them to get involved and what strategies were pursued how they were chosen and how successful they were He argues that while Chicana o activists continued to challenge school segregation in the 1960s as earlier generations had they broadened their efforts to address new concerns such as school funding testing English only curricula the exclusion of undocumented immigrants and school closings They also advocated cultural pride and memory inclusion of the Mexican American community in school governance and opportunities to seek educational excellence in private religious nationalist and secular schools The profusion of strategies has not erased patterns of de facto segregation and unequal academic achievement San Miguel concludes but it has played a key role in expanding educational opportunities The actions he describes have expanded extended and diversified the historic struggle for Mexican American education **Unending Struggle** Gerald William Heaney, Susan Uchitelle, 2004 Segregated schooling in Missouri did not come to an end until 1983 when the US District Court decision *Liddell v Board of Education of St Louis* mandated desegregation This work provides the historical background and a diversity of voices on how to deliver equal education to African American children Integrations Lawrence Blum, Zoë Burkholder, 2021-05-11 The promise of a free high quality public education is supposed to guarantee every child a shot at the American dream But our widely segregated schools mean that many children of color do not have access to educational opportunities equal to those of their white peers In *Integrations* historian Zo Burkholder and philosopher Lawrence Blum investigate what this country s long history of school segregation means for achieving just and equitable educational opportunities in the United States *Integrations* focuses on multiple marginalized groups in American schooling African Americans Native Americans Latinxs and Asian Americans The authors show that in order to grapple with integration in a meaningful way we must think of integration in the plural both in its multiple histories and in the many possible definitions of

and courses of action for integration Ultimately the authors show integration cannot guarantee educational equality and justice but it is an essential component of civic education that prepares students for life in our multiracial democracy

Deculturalization and the Struggle for Equality Joel Spring, 2021-11-29 Joel Spring's history of school policies imposed on dominated groups in the United States examines the concept of deculturalization the use of schools to strip away family languages and cultures and replace them with those of the dominant group The focus is on the education of dominated groups forced to become citizens in territories conquered by the United States including Native Americans African Americans Asian Americans Latino Americans and Hawaiians In seven concise thought provoking chapters this analysis and documentation of how education is used to change or eliminate linguistic and cultural traditions in the United States looks at the educational legal and social construction of race and racism in the United States emphasizing the various meanings of equality that have existed from colonial America to the present Providing a broader perspective for understanding the denial of cultural and linguistic rights in the United States issues of language culture and deculturalization are placed in a global context Extensively revised throughout to reflect the dramatic national events since the prior edition the Ninth Edition discusses the rise of the Black Lives Matter movement increased educational inequality related to the pandemic concerns about institutional racism and White nationalism disputes about the interpretation of U S history and debates over cultural and racial identity

Osgood, *Equal Educational Opportunity Project Series* United States Commission on Civil Rights, 1996 *Achieving Equal Educational Opportunity for Students of Color* Richard R. Valencia, Valencia presents the most comprehensive theory based analysis to date on how society and schools are structurally organized and maintained to impede the optimal academic achievement of low SES marginalized K 12 Black and Latino Latina students compared to their privileged White counterparts The book interrogates how society contributes to educational inequality as seen in racialized patterns in income wealth housing and health and how public schools create significant obstacles for students of color as observed in reduced access to opportunities e g little access to high status curricula knowledge Valencia offers suggestions for achieving equal education e g implementing fairness of school funding improving teacher quality and providing students of color access to multicultural education by disrupting structural racism Considering the rapid aging of the White population and the sharp decline of White youth coupled with the explosive growth in people of color this book argues that the American Imperative must be to assiduously mount an effort to provide an excellent education for students of color who the nation will depend on for a sizable proportion of its work force Book Features Examines how society and schools are failing Black and Latino Latina students principally Mexican Americans who are by far the largest Latino Latina group Uses theoretical frameworks that draw from analysis of structural inequality critical race theory anti deficit thinking narratives class by race covariation and an asset based perspective of students of
