Struggle For Swazi Labour 1890 19:

Struggle for Swazi Labour, 1890-1920 Jonathan Crush, 1987-11-01 Although the results of colonial expansion have been described in other general studies of the region this is the first book to take a close look at the case of the Swazi in Swaziland Jonathan Crush shows that while the Swazi experienced many of the classic problems of underdevelopment there were also a number of significant differences For example traditional relationships between chiefs and commoners showed much greater resilience than elsewhere This considerably affected the pace and nature of Swaziland's incorporation into South Africa's notorious migrant labour system As well because of the country's proximity to a number of alternative labour markets the Swazi had a greater choice of employment than did many other groups in the region Crush shows how the Swazi were able to use the system to their own advantage and how this helped shape the patterns of early Swazi migrancy The *Struggle for Swazi Labour* examines the changing nature of the Swazi migrant labour force the spatial patterns and temporal rhythms of migration and the emergence of the Witwatersrand as the dominant though by no means exclusive employer of Swazi labour It also shows how the local history of white settlement and land alienation influenced the manner in which the Swazi were subordinated to foreign economic and political control The book fills an important gap in the history of Swaziland and in the economic history of the south African region as a whole It will be helpful to anyone wishing to understand the pre eminence of traditional personalities and institutions in contemporary Swaziland and to those seeking an explanation for South African economic domination of the surrounding countries Its comparative perspective makes it valuable to a wide range of scholars with interests in the social and economic development of southern Africa as well as to labour and social historians rural economists and economic geographers

The Kingdom of Swaziland D. Hugh Gillis, 1999-03-30 A scholarly and engaging study this history of Swaziland by an author who spent many years in the kingdom presents a vivid account of the interplay of politics and personalities along the passage to post colonial independence From the early stages of Swazi occupation of the present day kingdom to the accession of Sobhuza II as king in 1921 this book traces problems in consolidating leadership under the Dlamini chieftaincy and examines the influence of Boer and British settlers and of mining and commercial interests on Swazi culture and governance It recounts the story of a thriving small nation that sought to maintain traditional customs and institutions in the face of a powerful European presence Each of the sixteen chapters concentrates on an aspect of political history that has influenced the character of the present day kingdom and much of the material especially after 1900 has not been utilized in previous studies The introduction looks at Swazi experience in a contemporary context evaluating historic forces that have made for stability in a rapidly changing world Other sections detail the Swazi reaction to European controlled neighboring states the Transvaal Natal and Mozambique the tensions introduced by successive Boer and British policies the Swazi detachment during two external wars 1899 1902 and 1914 1918 and widespread concerns about colonialism and self governance following World War I

Agency and Action in Colonial Africa C. Youé, T.

Stapleton,2001-06-17 The coming of colonialism to Sub-Saharan Africa generated many forces that historians often describe in abstract terms: peasantization, leadership, nationalism, and even colonialism. Such terms often hide or overwhelm the individual experiences of those who in some way contributed to the development and demise of colonial Africa. These agents of empire: intellectuals and peasants, chiefs and ex-slaves, nationalists and colonial officials, symbolise the ambiguities and limitations on colonial power. Agency and Action in Colonial Africa attempts to capture their role. *Writing Across Worlds*

John Connell, Russell King, Paul White, 2002-11 Drawing on a wide range of migrants' writings, this collection reveals an extraordinary diversity of global migratory experience while illustrating the realities and emotions shared by all who leave their home and culture and must adapt to another. **Democracy, Transformation, Conflict and Public Policy in**

Swaziland, 2003 **Migration-induced HIV and AIDS in Rural Mozambique and Swaziland** Jonathan Crush, 2010

South Africa's gold mining workforce has the highest prevalence rates of tuberculosis and HIV infection of any industrial sector in the country. The contract migrant labour system, which has long outlived apartheid, is responsible for this unacceptable situation. The spread of HIV to rural communities in Southern Africa is not well understood. The accepted wisdom is that migrants leave for the mines, engage in high-risk behaviour, contract the virus, and return to infect their rural partners. This model fails to deal with the phenomenon of rural-to-rural transmission and cases of HIV discordance when the female migrant is infected and the male migrant is not. Nor does it reveal whether all rural partners are equally at risk of infection. This study examines the vulnerability of rural partners in southern Mozambique and southern Swaziland, which are two major source areas for migrant miners. It presents the results of surveys with miners and partners in these two sending areas and affords the opportunity to compare two different mine sending areas. The two areas are not only geographically and culturally different; they have had contrasting experiences with the mine labour system over the last two decades. The spread of HIV in Southern Africa in the 1990s coincided with major downsizing and retrenchment in the gold mining industry, which impacted differently on Mozambique and Swaziland. Swaziland has been in decline as a source of mine migrants, while Mozambique remained a relatively stable source of mine migrants. The study therefore aims not only to shed light on vulnerability in mine sending areas but also to draw out any contrasts that might exist between two mine sending areas that were inserted into the mine migrant labour system in different ways during the expansion of the HIV epidemic. *The Political Economy of the Southern African Periphery* Betty J. Harris, 1992-12-09 White Plague, Black Labor Randall M.

Packard, 1989-11-06 Why does tuberculosis, a disease which is both curable and preventable, continue to produce over 50 000 new cases a year in South Africa, primarily among blacks? In answering this question, Randall Packard traces the history of one of the most devastating diseases in twentieth-century Africa against the background of the changing political and economic forces that have shaped South African society from the end of the nineteenth century to the present. These forces have generated a growing backlog of disease among black workers and their families and at the same time have prevented the

development of effective public health measures for controlling it Packard's rich and nuanced analysis is a significant contribution to the growing body of literature on South Africa's social history as well as to the history of medicine and the political economy of health

Funeral Culture Casey Golomski, 2018-06-04 Contemporary forms of living and dying in Swaziland cannot be understood apart from the global HIV/AIDS pandemic according to anthropologist Casey Golomski In Africa's last absolute monarchy the story of 15 years of global collaboration in treatment and intervention is also one of ordinary people facing the work of caring for the sick and dying and burying the dead Golomski's ethnography shows how AIDS posed challenging questions about the value of life culture and materiality to drive new forms and practices for funerals Many of these forms and practices newly catered funeral feasts an expanded market for life insurance and the kingdom's first crematorium are now conspicuous across the landscape and culturally disruptive in a highly traditionalist setting This powerful and original account details how these new matters of death dying and funerals have become entrenched in people's everyday lives and become part of a quest to create dignity in the wake of a devastating epidemic

The Freedom Movement's Lost Legacy Keith P. Griffler, 2023-06-06 In the century after emancipation the long shadow of slavery left African Americans well short of the freedom promised to them While sharecropping and debt peonage entrapped Black people in the South European colonialism had bred a new slavery that menaced the liberty of even more Africans A core group of Black freedom movement leaders including Ida B Wells and W E B Du Bois followed their nineteenth century predecessors in insisting that the continuation of racial slavery anywhere put Black freedom on the line everywhere They even predicted the consequences that ignited the recent nationwide Black Lives Matter movement the rise of a prison industrial complex and the consequent erosion of African Americans' faith in the criminal justice system The Freedom Movement's Lost Legacy Black Abolitionism since Emancipation is the first historical account of the Black freedom movement's response to modern slavery in the twentieth century Keith P Griffler details how the mainstream international antislavery movement became complicit in the enslavement of Black and brown people across the world through its sponsorship of racist international antislavery law that gave the new slavery explicit legal sanction Black freedom movement activists thinkers and organizers did more than call out this breathtaking betrayal of abolitionist principles they dedicated themselves to the eradication of slavery in whatever forms it assumed on the global stage and developed an expansive vision of human freedom This timely and important work reminds us that the resurgence of today's Black freedom movements is a manifestation and continuation of the traditions and efforts of these early Black leaders and abolitionists an important chapter in the history of antislavery and the ongoing Black freedom struggle

New Models In Geography Richard Peet, Nigel Thrift, 2013-10-11 First published in 1989 It seems such a long time ago another age yet it is a mere twenty odd years since the original Models in Geography was published It is an even shorter time since the first tentative steps were taken towards an alternative formulation of what might constitute a geographical perspective within the social sciences What came to be called the

political economy perspective has progressed with remarkable speed and energy to generate its own framework of conceptualization and analysis its own questions and debates The papers in these two volumes are witness to the richness and range of the work which has developed over this relatively short period within the political economy approach Moreover from being a debate within an institutionally defined discipline of geography to introducing into that discipline ideas and discussions from the wider fields of philosophy and social science and the humanities more generally it has now flowered into a consistent part of enquiries that span the entire realm of social studies **The People's Paper** Peter Limb, 2012-09-01

This much awaited volume uncovers the long lost pages of the major African multilingual newspaper Abantu Batho Founded in 1912 by African National Congress ANC convenor Pixley Seme with assistance from the Swazi Queen it was published up until 1931 attracting the cream of African politicians journalists and poets Mqhayi Nontsisi Mqgqweh and Grendon In its pages burning issues of the day were articulated alongside cultural by ways The People s Paper comprising both essays and an anthology explores the complex movements and individuals that emerged in the almost twenty years of its publication The essays contribute rich new material to provide clearer insights into South African politics and intellectual life The anthology unveils a judicious selection of never before published columns from the paper spanning every year of its life and drawn from repositories on three continents Abantu Batho had a regional and international focus and by examining all these dynamics across boundaries and disciplines The People s Paper transcends established historiographical frontiers to fill a lacuna that scholars have long lamented Surviving on the Move Jonathan Crush, Bruce Frayne, 2010

Since the collapse of apartheid there have been major increases in migration flows within to and from the Southern African region Cross border movements are at an all time high across the region and internal migration is at record levels The implications of greater mobility for areas of origin and destination have not been systematically explored Migration is most often seen as a negative phenomenon a result of increased poverty and the failure of development More recently the positive relationship between migration and development has been emphasised by agencies such as the Global Commission on International Migration the Global Forum on Migration and Development the United Nations Development Programme and the African Union The chapters in this publication are all based on primary research and examine various facets of the relationship between migration poverty and development including issues that are often ignored in the migration development debate like migration and food security and migration and vulnerability to HIV The book argues that the development and poverty reduction potential of migration is being hindered by national policies that fail to recognise and build on the positive aspects and potential of migration As a result as these studies show migrants are often pushed to the margins where they are forced to survive on the move Their treatment violates labour laws and basic human rights and compromises the potential of migration as a means to create sustainable livelihoods reduce poverty and food insecurity mitigate the brain drain and promote the productive use of remittances This book shows that migrant lives and livelihoods should be at the centre of international and African debates

about migration poverty and development **Migrant Letters** Marcelo J. Borges, Sonia Cancian, 2019-10-23 The migrant letter whether written by family members lovers friends or others is a document that continues to attract the attention of scholars and general readers alike What is it about migrant letters that fascinates us Is it nostalgia for a distant yet desired past Is it the consequence of the eclipse of letter writing in an age of digital communication technologies Or is it about the parallels between transnational experiences in previous mass migrations and in the current globalized world and the centrality of interpersonal relations mobility and communication then and now Influenced by methodologies from diverse disciplines the study of migrant letters has developed in myriad directions Scholars have examined migrant letters through such lenses as identity and self making family relations gender and emotions This volume contributes to this discussion by exploring the connection between the practice of letter writing and the emotional economic familial and gendered experiences of men and women separated by migration It combines theoretical and empirical discussions which illuminate a variety of historical experiences of migrants who built transnational lives as they moved across Europe Africa Latin America and the United States This volume was originally published as a special issue of *The History of Family* *The International Journal of African Historical Studies* ,1998 *The Struggle for Swazi Labour, 1890-1920* Jonathan Crush, 1983 *The South African Journal of Economic History* ,1989 *Book Review Index Cumulation, 1989* Neil E.
