Struggle For The Third World:

The Struggle for the Third World Jerry Hough, 2010-12-01 In the last quarter century the Soviet Union and the United States have repeatedly come into conflict in various parts of the third world During this period the most backward third world countries have sometimes proved susceptible to radical revolution but the countries well on the way to industrialization have moved away from left wing economic and political policies In the longer perspective the West has been winning the struggle for the third world The changes in those countries have been the subject of intense published debate in the Soviet Union debate on Marxist concepts of the stages of history on theories of economic development and revolutionary strategy and on foreign policy Jerry F Hough explores the breakup of the orthodox Stalinist position on these issues and the evolution of free swinging discussion about them He suggests that paradoxically many of the old Stalinist ideas retain their strongest hold in the United States which has not fully recognized its victory in the third world and the importance of the West's great economic power The United States too often assumes that radical regimes will inevitably follow the Soviet path of development and that the nature of a regime determines the nature of its foreign policy Because of these misperceptions Hough argues the United States misses many opportunities in the third world It emphasizes military power even to the extent of undermining its crucial economic power and it fails to offer the face saving gestures that would permit Soviet retreats Hough presents a prescription for an American policy better suited to the new realities in the third world and to the changing Soviet attitude toward them

The Global Struggle for More Bernard D. Dunford,2016-05-25 New waves of land grabbing are working to dispossess peasants in both the Global South and the Global North But peasants are fighting back They have come together to contest dispossession through place based and transnational forms of activism In so doing they have articulated a demand for food sovereignty They claim that a democratically organized food system in which smallholder producers produce their own food on their own territory can feed the world whilst cooling the planet This book explores practices of peasant resistance Its aim is to show how grass roots peasant activists have been able to demand transnational social and political change In the process the book examines the grassroots forms of activism that enable peasants to reclaim land upon which to work and from which to live It explores how diverse grass roots movements have been able to connect and unite in order to contest transnational dynamics of oppression Moreover it discusses how practices of peasant activism transform how we think and ought to think about human rights and global democracy By also highlighting the problems that peasants continue to face the book indicates that the future of sustainable peasant livelihoods depends on the will of global organizations and transnational society to not just listen to the voices of peasant activists but to respond to them too

Roads to Decolonisation Amy Duvenage,2024-04-16 Roads to Decolonisation An Introduction to Thought from the Global South is an accessible new textbook that provides undergraduate students with a vital introduction to theory from the Global South and key issues of social justice arming them with the tools to theorise and explain the social world away from dominant Global North perspectives Arranged in four parts it examines key thinkers activists and theory work from the Global South theoretical concepts and socio historical conditions associated with race and racism gender and sexuality identity and un belonging in a globalised world and decolonisation and education challenges to dominant Euro American perspectives on key social justice issues linking decolonial discourses to contemporary case studies Each chapter offers an overview of key thinkers and activists whose work engages with social justice issues many of whom are under represented or left out of undergraduate humanities and social sciences textbooks in the North This is essential reading for students of the humanities and social sciences worldwide as well as scholars keen to embed Southern thought in their curricula and pedagogical practice

The National Liberation Struggle in South Africa Gregory F. Houston,2019-05-23 First published in 1999 this volume follows the interactions between the United Democratic Front UDF and the African National Congress ANC and Pan Africanist Congress PAC which had adopted more revolutionary strategies after their banning in 1960 over the period 1983 87 Only a few studies of the UDF have aimed to link revolutionary developments in 1980s South Africa with theories of revolutionary strategy and tactics This volume focuses on the relation between revolutionary theory praxis and the formation aims policies and practices of the UDF Houston argues that the formulation of the UDF met certain strategic and tactical requirement of Lenin and Gramsci s theories of revolutionary strategy repositioning the UDF as becoming a Leninist vanguard party with its affiliate membership operating largely underground The volume features 6 detailed maps of the Cape Town area the Republic of South Africa in the 1980s the

Naples, Manisha Desai, 2004-04-16 First published in 2002 Routledge is an imprint of Taylor Francis an informa company **Threads** Jane L. Collins, 2009-11-15 Americans have been shocked by media reports of the dismal working conditions in factories that make clothing for U S companies But while well intentioned many of these reports about child labor and sweatshop practices rely on stereotypes of how Third World factories operate ignoring the complex economic dynamics driving the global apparel industry To dispel these misunderstandings Jane L Collins visited two very different apparel firms and their factories in the United States and Mexico Moving from corporate headquarters to factory floors her study traces the diverse ties that link First and Third World workers and managers producers and consumers Collins examines how the transnational economics of the apparel industry allow firms to relocate or subcontract their work anywhere in the world making it much harder for garment workers in the United States or any other country to demand fair pay and humane working conditions Putting a human face on globalization *Threads* shows not only how international trade affects local communities but also how workers can organize in this new environment to more effectively demand better treatment from their distant corporate employers

A Feminist Glossary of Human Geography Linda McDowell, Joanne P Sharp, 2014-05-01 A Feminist Glossary of Human Geography is the first guide to the main theories concepts and terms commonly used in geographical debates about gender relations Written by key contributors to feminist theory it contains over 400 lively and accessible definitions of the terms found in feminist debates which students of geography need to know Four levels of entry are used from 50 to 1500 words taking account of the varying degrees of complexity of the terms covered From AIDS to witch from abortion to whiteness this Glossary is cross referenced throughout and includes a comprehensive bibliography It is an invaluable reference for anyone studying geography and gender enabling them to approach the terminology of feminist theory and ideas with confidence

Daily Report, Foreign Radio Broadcasts United States. Central Intelligence Agency, 1972 *Unravelling Gramsci* Adam David Morton, 2007-02-20 Powerful and clarifying The book s combination of careful argument and cogent illustration will make this a landmark volume in Gramscian studies John Agnew University of California Los Angeles and author of *Hegemony The New Shape of Global Power* Morton draws upon an impressive knowledge of Gramsci s writings to provide new insights into key processes in today s world order Anne Showstack Sassoon Emeritus Professor Kingston University and Visiting Professor Birkbeck College University of London *Unravelling Gramsci* makes extensive use of Antonio Gramsci s writings including his much overlooked pre prison journalism prison letters as well as his prison notebooks to provide a fresh approach to understanding his contemporary relevance in the current neoliberal world order Adam Morton examines in

detail the themes of hegemony passive revolution and uneven development to provide a useful way of analysing the contemporary global political economy the project of neoliberalism processes of state formation and practices of resistance The book explores the theoretical and practical limitations of how Gramsci s ideas can be used today offering a broad insight into state formation and the international factors shaping hegemony within a capitalist framework **Women in**

Grassroots Communication Pilar Riaño Alcalá,1994-05-17 The dramatic contribution of grassroots organizations to effecting social change is brought into vivid detail in this unique perspective on women from around the globe Each contributor has been instrumental in grassroots processes of media production or has worked within the community communication field and discusses concrete action within a theoretical framework These diverse accounts of women participation and communication take place in a variety of geographical social and cultural settings and provide rich material for comparative analysis **The Darker Nationsa Biography Of The Short-Lived Third World** Vijay Prashad,2007 The

Third World was not a place argues Vijay Prashad It was a project This book is a paradigm shifting history of both a utopian concept and global movement the idea of the Third World The Darker Nations traces the intellectual origins and the political history of the attempt to knit together the world s impoverished countries in opposition to the United States and Soviet spheres of influence in the decades following World War II as nation after nation across Asia Africa and South America gained political independence from colonial rule Traversing continents Vijay Prashad s fascinating narrative takes us from the birth of postcolonial nations after World War II to the downfall and corruption of nationalist regimes The Darker Nations restores to memory the vibrant though flawed idea of the Third World whose demise Prashad ultimately argues has produced a much impoverished international political arena Feminist Ethnography Dána-Ain Davis,Christa Craven,2022-03-01

Feminist Ethnography Second Edition is an interdisciplinary and cross cultural introduction to the methods challenges and possibilities of feminist ethnography Dána-Ain Davis and Christa Craven use a problem based approach focused on inquiry and investigation to present a feminist framework for thinking critically about how we document everyday experiences The book begins with an introduction to feminist perspectives their meanings over time and a brief history of feminist ethnography Then the authors examine feminist methodologies answering the question how does one do feminist ethnography and investigates common challenges such as ethical dilemmas and logistical constraints faced during fieldwork Finally Davis and Craven discuss what it means to be a feminist activist ethnographer including advocacy efforts and engagement with public policy and ask students to consider what is your vision for the future of feminist ethnography New to this Edition Six new interviews with feminist ethnographers include reflections on the intersections of trans studies disability studies and the Cite Black Women movementNew section on safety accessibility and fieldwork to address the risks all ethnographers face but in particular those who challenge long held assumptions that ethnographers are all white Western able bodied well funded cisgender and usually male Enhanced discussion of virtual ethnography in the wake of COVID

Entanglements of Power Ronan Paddison, Chris Philo, Paul Routledge, Joanne Sharp, 2002-09-11 This book argues that practices of resistance cannot be separated from practices of domination and that they are always entangled in some configuration. They are inextricably linked such that one always bears at least a trace of the other that contaminates or subverts it. The team of contributors explore themes of identity, embodiment, organisation, colonialism and political transformation, examining them from historical, contemporary and more abstract perspectives within a wide geographical and cultural spectrum. Case studies include German Reunification, Jamaican Yardies on British Television, Victorian Sexuality and Moralisation in Cremorne Gardens, Ethnicity, Gender and Nation in Ecuador, Sport as Power, the film *Falling Down*. *Entanglements of Power* presents an exciting and challenging account of the symbiotic relationship between domination and resistance and contextualises this within the parameters of geography with a rich body of case study material and a respected team of contributors.

Handbook of the Sociology of Gender Barbara J. Risman, Carissa M. Froyum, William J. Scarborough, 2018-06-05 This handbook provides a comprehensive view of the field of the sociology of gender. It presents the most important theories about gender and methods used to study gender as well as extensive coverage of the latest research on gender in the most important areas of social life including gendered bodies, sexuality, carework, paid labor, social movements, incarceration, migration, gendered violence and others. Building from previous publications, this handbook includes a vast array of chapters from leading researchers in the sociological study of gender. It synthesizes the diverse field of gender scholarship into a cohesive theoretical framework, gender structure theory, in order to position the specific contributions of each author chapter as part of a complex and multidimensional gender structure. Through this organization of the handbook, readers do not only gain tremendous insight from each chapter but they also attain a broader understanding of the way multiple gendered processes are interrelated and mutually constitutive. While the specific focus of the handbook is on gender, the chapters included in the volume also give significant attention to the interrelation of race, class and other systems of stratification as they intersect and implicate gendered processes.

International Handbook of Comparative Education Robert Cowen, Andreas M. Kazamias, 2009-08-22 A big project like this Handbook means that you incur debts and not only to your authors and your publisher. As editors, we along with our colleague Elaine Unterhalter, who edited the section on postcolonialism, would like to thank most warmly those authors who delivered on time and who did not fuss but just got on and did a rate job. We would also like to thank all authors who did deliver, which was almost everyone we asked. We know that some of our authors worked in very difficult private circumstances as they were finishing their chapters and we hope the publication of the Volumes will later be for them a happy reminder of difficulties and disasters overcome. The only sad theme is that some very close colleagues with whom we were working and for whom we had the greatest respect and liking became very ill and died while the volumes were being prepared. We decided to ask for copyright permissions to publish something of theirs. These

permissions were graciously given by two major journals and with the agreement also of our publishers Springer Rolland Paulston and Terry McLaughlin have examples of their writing in this Handbook **Thinking the US South** Shannon Sullivan, 2021-03-15 Knowledge emerges from contexts which are shaped by people's experiences The varied essays in **Thinking the US South Contemporary Philosophy from Southern Perspectives** demonstrate that Southern identities borders and practices play an important but unacknowledged role in ethical political emotional and global issues connected to knowledge production Not merely one geographical region among others the US South is sometimes a fantasy and other times a nightmare but it is always a prominent component of the American national imaginary In connection with the Global North and Global South the US South provides a valuable perspective from which to explore race class gender and other inter and intra American differences The result is a fresh look at how identity is constituted the role of place ancestors and belonging in identity formation the impact of regional differences on what counts as political resistance the ways that affect and emotional labor circulate practices of boundary policing deportation and mourning issues of disability and slowness racial and other forms of suffering and above all the question of whether and how doing philosophy changes when done from Southern standpoints Examining racist tropes Indigenous land claims Black Southern philosophical perspectives migrant labor and more this incisive anthology makes clear that roots matter
