Struggle For South Africa:

Inside Apartheid Janet Levine, 2015-11-24 In *Inside Apartheid* South African born Janet Levine recounts the horrors and struggles she faced against the minority white government's brutal system of repression from a rare perspective that of a white woman who worked within the system even as she fought to transform it. With candor and courage Levine skillfully interweaves her personal story of a privileged white citizen's growing awareness of the evils of apartheid with a moving account of the increasing violence in and radical polarization of South Africa. *Inside Apartheid* brings to life both the unsurpassed physical beauty and the institutionalized brutality of the country Levine loves so deeply. We accompany her on a daring trip to the devastated black township of Soweto immediately following the unrest in 1976. There she visits the home of a colored family with no way out of apartheid-induced poverty. On a journey through the black homelands where Levine discovers firsthand the horrifying evidence of the long-term genocide of three million people. As a student activist, as a journalist, and as an elected member of the Johannesburg City Council, Levine openly attacked the government's policies in hundreds of speeches and articles, led election campaigns for one of her mentors, member of Parliament Helen Suzman, and was associated with Steve Biko and other less internationally famous but equally important South African figures. Levine was a founding member of the first black taxi co-operative in South Africa and instrumental in having hundreds of illegally fired black workers reinstated with back pay after the Johannesburg strikes of 1980. We feel Levine's pain when she finally asks soul-searching questions about the effectiveness of being a white activist. *Inside Apartheid* with such honest witness-bearing may be her most important act of all. Freedom in Our Lifetime: South Africa's Struggle explores the dilemma faced by black South Africans in the early 1960s of how best to battle the racial discrimination imposed by the apartheid system. Readings, lessons, and videos prepare students to consider thoughtfully the complexities of South African society. Students explore the history of South Africa and the development of a race-based society, the effects of apartheid on individuals, the challenges to the system of apartheid, and the end of apartheid and South Africa's transition to a democratic, multi-racial society. [www.choices.edu](#) [South Africa's Struggle to Remember](#) Kim Wale, 2016-04-14 Transitional justice studies typically focuses on how nations remember, face, and deal with histories of past violence. This book, however, shifts the frame from national discourses of transitional justice onto local memory actors who attempt to engage with these broader systems of meaning from below. The case study is based on the memory struggles of individuals and groups who are attempting to gain access to the discourses and benefits associated with dominant memory identities of victim and veteran in the context of post-transition South Africa. They share a common history of squatter resistance in the Western Cape in the 1980s and a common struggle for inclusion in dominant memory frameworks. The main theme of this book is the politics of memory as it relates to the conversation between national and local memory. Integrated within this theme is the further theme of alternative histories and counter-memories of struggle from

below In focusing on counter memories of violence and transition this book aims to tell a different version of South African liberation history in relation to the dominant narrative It analyses local memory actors attempts to bring their lived histories into conversation with national discourses of reconciliation and the national liberation struggle In doing so it unpacks a memory paradox occurring within these narratives which highlights the politics of inclusion and exclusion within the frames of transitional justice knowledge On the one hand this alternate story exposes the paradox between local and national memory while on the other hand it brings into focus the local experience of the intersection between international transitional justice discourses and national transition politics This book will be of local and international interest to scholars and students in the field of transitional justice memory politics national liberation struggle and South African historiography It will also be of interest to a broader South Africa public as it offers a deeper understanding of South Africa s history which challenges taken for granted transitional justice frames of knowledge

Simpson,2018-10-03 The history of the ANC which is the oldest liberation movement on the African continent is one that has generated a great deal of interest amongst historians in recent years Gone are the days when the history of African nationalism could be relegated to the margins of the study of the South African past Instead with the ANC having ascended to the helm of political power a position it has maintained for over twenty years there can be no question that its history occupies an important and permanent place in the history of the nation This volume gathers together some of the most important contributions to the literature on the ANC s role in South Africa s struggle for liberation Besides important themes such as gender ethnicity and healthcare contributions from leading historians also address why the ANC decided to engage in armed struggle what role the South African Communist Party played in making this decision how the ANC External Mission contributed to the upsurge of mass protest in South Africa in the 1970s and 1980s and the ANC s contribution relative to the other components of the liberation struggle in ensuring the eventual demise of the old racial order The chapters in this book were originally published in the South African Historical Journal the Journal of Southern African Studies and African Studies

Chained Together David Ottaway,1993 The story of the unlikely ties that bind the fates of Nelson Mandela and F W De Klerk as South Africa moves toward multiracial elections

The Crisis of South African Foreign Policy Matthew Graham,2015-09-28 The emergence of a new democratic South Africa under Nelson Mandela was regarded as a high watermark for international ideals of human rights and democracy Much was expected of the ANC in power particularly that it would be able to translate its ideals into a coherent foreign policy for the African continent Yet its foreign policy since 1994 has been mired in accusations of incoherence contradiction and failure Here based on extensive archival research and interviews Matthew Graham offers new ways of interpreting South Africa s foreign policy by investigating the continuities and discontinuities of the ANC s international relations from exile to political power Charting the political intrigues during the country s transition from apartheid and the subsequent influences on Presidents Mandela and Mbeki The Crisis of South African Foreign Policy makes a vital contribution to our understanding of why post apartheid South Africa has failed to lead Africa on the world stage

South Africa's Struggle for Human Rights Saul Dubow,2012-09-07 The human rights movement in South Africa s transition to a postapartheid democracy has been widely celebrated as a triumph for global human rights It was a key aspect of the political transition often referred to as a miracle which brought majority rule and democracy to South Africa The country s new constitution its Truth and Reconciliation Commission and the moral authority of Nelson Mandela stand as exemplary proof of this achievement Yet less than a generation after the achievement of freedom the status of human rights and constitutionalism in South Africa is uncertain In government the ANC has displayed an inconsistent attitude to the protection and advancement of hard won freedoms and rights and it is not at all clear that a broader civic and political consciousness of the importance of rights is rooting itself more widely in popular culture
