compelling terms Young analyzes a range of U S figures and organizations examining how each deployed Third World discourse toward various cultural and political ends She considers a trip that LeRoi Jones Harold Cruse and Robert F Williams made to Cuba in 1960 traces key intellectual influences on Angela Y Davis s writing and reveals the early history of the hospital workers 1199 union as a model of U S Third World activism She investigates Newsreel a late 1960s activist documentary film movement and its successor Third World Newsreel which produced a seminal 1972 film on the Attica prison rebellion She also considers the L A Rebellion a group of African and African American artists who made films about conditions in the Watts neighborhood of Los Angeles By demonstrating the breadth vitality and legacy of the work of U S Third World Leftists Soul Power firmly establishes their crucial place in the history of twentieth century American struggles for social change

Racial Purity and Dangerous Bodies Rima L. Vesely-Flad, 2017-06-15. At the center of contemporary struggles over aggressive policing practices is an assumed association in U.S. culture of blackness with criminality. Rima L. Vesely-Flad examines the religious and philosophical constructs of the black body in U.S. society, examining racialized ideas about purity and pollution as they have developed historically and as they are institutionalized today in racially disproportionate policing and mass incarceration. These systems work, she argues, to keep threatening elements of society in a constant state of harassment and tension so that they are unable to pollute the morals of mainstream society. Policing establishes racialized boundaries between communities deemed dangerous and communities deemed pure, and along with prisons and reentry policies, sequesters and restrains the pollution of convicted criminals, thus perpetuating the image of the threatening black male criminal. Vesely-Flad shows how the anti-Stop and Frisk and the Black Lives Matter movements have confronted these systems by exposing unquestioned assumptions about blackness and criminality. They hold the potential, she argues, to reverse the construal of pollution and invasion in America's urban cores if they extend their challenge to mass imprisonment and the barriers to reentry of convicted felons.
