## **Strukturwandel Der Verteidigung:**

Nonoffensive Defence David Gates, 1991-06-18 Throughout the 1980s numerous calls were made for Nato to change its strategy to one in which nuclear weapons played either a much smaller role or none at all Among proposed alternatives were several so called defensive strategies This book examines these alternatives Modelling and Analysis in Arms Control Rudolf Avenhaus, Reiner K. Huber, John D. Kettelle, 2012-12-06 This book presents the results of an international workshop on Modelling and Analysis of Arms Control Problems held in Spitzingsee near Munich in October 1985 under the joint sponsorship of NATO's Scientific Affairs Division and the Volkswagen Foundation The idea for this workshop evolved in 1983 as a consequence of discussions in the annual Systems Science Seminar at the Computer Science Department of the Federal Armed Forces University Munich on the topic of Quantitative Assessment in Arms Control 1 There was wide agreement among the contributors to that seminar and its participants that those efforts to assess the potential contributions of systems and decision sciences as well as systems analysis and mathematical modelling to arms control issues should be expanded and a forum should be provided for this activity It was further agreed that such a forum should include political scientists and policy analysts working in the area of arms control **Bundeswehr and Western Society** Stephen F. Szabo, 1990-06-18

The American institute for contemporary German studies which sponsors research and discussion on German politics foreign policy and history since 1945 has compiled this book on the German army and its involvement with NATO German politics and future strategic alternatives *Rethinking the Nuclear Weapons Dilemma in Europe* P. *European Security in the 1990s* W. Laqueur, L. Sloss, 2013-11-11 Rarely if ever have the political economic and military foundations of the Western Alliance been in such a state of flux Walter Laqueur and Leon Sloss therefore deserve credit not just for the quality of the analysis in this superb book but also for the timeliness of its appearance As Laqueur says in his chapter Touring the Western European Defense Horizon if the likely development of European defense policies is not particularly reassuring at least it gives no grounds for despair The list of problems we face is a daunting one First there is the spiralling cost of defense expenditures particularly in the absence of significant NATO or inter European cooperation This is particularly serious in light of the reluctance to increase or even maintain current expenditures in the midst of Mikhail Gorbachev's peace offensive and the extraordinary changes in Eastern Europe both of which have had a dramatic impact on Western public opinion There is also a problem in the perceived relative economic decline of the United States vis a vis Western Europe and Japan which only exacerbates calls to reduce the number of American troops in Europe Other dangers to the political cohesion and military credibility of the alliance include demographic trends that threaten current manpower levels transatlantic acrimony over the burden sharing issue and political pressures particularly in West Germany toward denuclearization and even neutralism **The National Security of Small States in a Changing World** Efraim

Inbar, Gabriel Sheffer, 2013-09-13 The first part of this book is primarily devoted to analysing the impact of the system of international relations on the fortunes of small states The second part discusses the question what changes in the national strategy of small states are necessary in view of the new international system The authors of this volume come from various parts of the world and espouse differing outlooks Nevertheless they were able to coalesce around a similar theme in an effort to contribute to the international understanding of the special challenges that confront the world's small states *Emerging Technologies and Military Doctrine* Dr. Frank Barnaby, Marlies Ter Borg, 1986-06-18 **Alternative Conventional Defense Postures In The European Theater** Hans G. Brauch, Robert F. Jr. Kennedy, 2018-10-24 First published in 1993 This volume edited jointly by the American strategic expert Robert Kennedy and the German peace researcher Hans Ginter Brauch takes up conceptual ideas developed by Horst Afheldt and Carl Friedrich von Weizsacker as well as others on both sides of the Atlantic since the 1960s Our aim has been to contribute to the development of concepts that would reduce the danger of a third world war by the creation of more stable structures in the context of a defensively oriented conventional defense posture In this volume a variety of alternative approaches to European conventional defense driven for the most part by similar strategic considerations are presented by German and American experts to a larger international audience **Die sowjetische Rüstungsindustrie** Ulrich Albrecht, 2013-12-14 *International Relations Theory and the End of the Cold War* Richard Ned Lebow, Thomas Risse-Kappen, 1995 This controversial set of essays evaluates and extends international relations theory in light of the revolutionary events of past years The contributors demonstrate how theoretical constructs did not anticipate Soviet foreign policies that led to the end of the Cold War Das Dilemma militärischer Sicherheit Lutz Unterseher, 2014-11-13 17 Berichte eines Beraters in Verteidigungsfragen mit kritischen Analysen aus drei Jahrzehnten gewonnen auf drei Kontinenten Die Porträts von Armeen Parteien Regierungen und Politikern sind erbarmungslos und geraten mitunter zur Satire Der rote Faden dieses Potpourris Das hartnäckige doch immer wieder frustrierte Engagement des Autors für weniger Rüstung und Streitkräfte die auf Angriffsorientierung verzichten sich also auf Schutzfunktionen beschränken Building Sustainable Futures Luc Reyhler, Julianne Funk Deckard, Kevin HR Villanueva, 2009-01-01 The overall theme of the 2008 IPRA Global Conference focuses on the interaction between economic development environmental change conflict prevention and peacebuilding efforts in the 21st century The challenge is to research new futures This collaborative book project ultimately reflects the constant evolution of Peace Studies as it is reflected in its expanding areas of research and the institutional structures which provide the vertebrae so that the former can develop with greater depth continuity and sustainability This is the reason why HumanitarianNet has teamed up with IPRA to produce this collection of articles *Toward a Theory of Peace* Randall Caroline Watson Forsberg, 2019-12-15 Military analyst peace activist teacher and social theorist Randall Caroline Watson Forsberg 1943 2007 founded the Nuclear Freeze campaign and the Institute for Defense and Disarmament Studies In *Toward a Theory of Peace* completed in 1997 and published for the first time here she

**Modeling and Analysis of Conventional Defense in Europe** Reiner K. Huber,1986-05-31 This book presents a collection of contributions to a workshop on Long teY fr Development of NATO s Conventional Forward Defense to which the GERMAN STRATEGY FORUM DSF had invited some 50 systems analysts and defense experts of the United States the United Kingdom the Federal Republic of Germany and the SHAPE Technical Centre Held in Bonn from 2 to 4 December 1984 this workshop was to provide a forum for the discussion at a non political expert level and in the light of available analysis results of proposals for the improvement of NATO s conventional defense capabilities In addition it aimed at arriving at some recommendations as to which of these proposals deserve to be studied further and what methodological deficiencies must be alleviated and information gaps closed for an adequate assessment The idea to organize this workshop has been discussed ever since 1980 with several defense systems analysts in the US and the UK who shared the opinion that with a view to the immense global build up of the Soviet threat on one hand and the stringency of defense resources in most NATO countries on the other there is no reason that could permit us to dismiss any proposal promising improvement without careful study

**Emerging Dimensions of European Security Policy** Wolfgang F. *Security Without War* Michael Shuman, Hal Harvey,2019-06-21 The Cold War may be over but the United States is still practicing Cold War foreign policies From the Persian Gulf to El Salvador from Bosnia to Somalia U S policymakers continue to rely on force threats arms and

military aid A fundamental redefinition of national security beyond war and militarization beyond bilateralism beyond sovereign states is long overdue In Security Without War a dynamic author team lays out new principles and policies for the United States to adopt in a post Cold War world Shuman and Harvey encourage Americans to take account of all threats not just military ones to emphasize preventing conflicts over winning wars to enhance every nation s security including that of its enemies to favour multilateral approaches over bilateral ones and to promote greater citizen participation in foreign policy Throughout they show how military political economic and environmental security interests are all linked and how emphasizing one over the others can undermine the nation s safety Security Without War brings together for the first time the major elements of post Cold War security thought The authors show how a new framework for U S international relations can enhance U S and indeed global security at a substantially lower cost

**Militär als Gegenkultur** Wolfgang Vogt, 2013-03-08 Im Mittelpunkt dieser Veröffentlichung steht die Analyse des zivil militärischen Verhältnisses d.h. der Integration von Sicherheitspolitik Militär und Gesellschaft in der Bundesrepublik Problematisiert wird dieser Zusammenhang anhand der provokanten Frage ob sich das Militärische tendenziell zu einer Gegenkultur innerhalb der Gesellschaft entwickelt Diese erkenntnisleitende Fragestellung mit der sich die Einzelbeiträge dieser Veröffentlichung direkt oder indirekt auseinandersetzen ist an den Beobachtungen festgemacht da sich die schon immer bestehenden Differenzen Spannungen und Ablehnungen zwischen Militär und Teilen der Gesellschaft in den letzten Jahren zunehmend vergrößert und verschärft haben Inzwischen sind sie und das macht ihre neue Qualität aus von ihrem bisherigen Zustand einer latenten Widersprüchlichkeit und Unvereinbarkeit in den manifesten Demonstrationen umgebrochen was sich in zunehmenden Protestaktionen und Widerstandshandlungen äußert Diese umbruchartigen Bewusstseinsveränderungen die sich seit den Auseinandersetzungen über die NATO Nachrüstung und die Abschreckungsstrategie nicht mehr nur auf kleinere Auseinandergruppierungen der Gesellschaft beschränken sondern in zwischen breite Bevölkerungsteile erfassen haben das zivilgesellschaftliche Integrationsverhältnis nachhaltig beeinflusst Das Militärische so scheint es entwickelt sich in Ansätzen und als Reaktion auf die gesellschaftlichen Veränderungen immer mehr zu einer Gegenkultur im Sinne einer bewussten Abkopplung von gesellschaftlichen Entwicklungen durch die bewusste Rekultivierung und ideologisierung einer militärisch-soldatischen Werte und Normenwelt Dadurch gerät es tendenziell in einen immer größer werdenden Widerspruch zur Gesellschafts-entwicklung und dies in doppelter Hinsicht
