Reimagining the Landscape of Religious Education Zehavit Gross, 2023-03-13 This book brings together new thinking and research on religious education's complex and evolving role in the multicultural diverse postmodern era It facilitates new realism and understanding of the current situation from empirical and reflective accounts relating to a variety of countries and political contexts as well as providing innovative methodological approaches to the study of education and religion In different contexts around the world at different levels of education and from different theoretical lenses religious education occupies a contested space The ongoing changing nature of the world due to increasing secularization rapid technological change mass immigration globalization processes conflict and challenging security issues from inter to intra state levels and

with shifting geopolitical power balances generates the need to reconceptualize where religious education is positioned. It claims that religious education on its own can be an agent of moral, social, and spiritual transformation. These are disputed. There is significant controversy about whether special religious education that is in faith education still has a role within the post-modern world.

Christ-Enlivened Student Affairs Perry Glanzer, 2020-06-02. How does the Christian faith inform Christian student affairs practice? How should it? Instead of placing Christ outside the realm of education, Christ should serve as the motivating and animating force for all of Christian student affairs. With Christ at the center of education, the Christian story distinctly transforms the nature of the work education professionals do. With research from a national mixed methods study, *Christ Enlivened Student Affairs* avoids the common response of anecdotal evidence by providing a catalog of some of the best thinking and practices in the field. Glanzer, Cockle, Graber, and Jeong use the framework of educational philosophies to trace how Christianity animates the who, why, what, and how of student affairs, offering evidence-based resources and new tools for engaging new practitioners in the field and a larger theological perspective for Christian student affairs.

Christian Scholar's Review, 1998 *Journal of College Student Development*, 2004 **Ernest L. Boyer** Todd C. Ream, John M. Braxton, 2015-03-16. Having served as chancellor of the State University of New York, the United States commissioner of education, and president of the Carnegie Foundation for the Advancement of Teaching, Ernest L. Boyer (1928-1995) was one of the most prominent leaders in the history of American higher education. Arguably more aware of the challenges facing colleges and universities than any of his peers, the administrative decisions and the writings he left behind provide a wealth of possibilities for subsequent generations of administrators and faculty members. In this book, noted higher education scholars examine some of the most pressing crises in higher education today, pairing their thoughts with relevant selections from Boyer's important writings, some published here for the first time. The volume provides answers to questions perceived to be plaguing academe while reintroducing readers to the optimistic and insightful wisdom of Ernest L. Boyer.

Cyber Worship in Multifaith Perspectives Mohamed Taher, 2006. *Cyber Worship in Multifaith Perspectives* as implied by its name explores worship in e-Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc. on the Internet. It is not an everything-you-need-to-know guide about the subjects of faith and belief; religions online, religions on the Net, or religions in cyberspace. Rather, it is a book about religious and spiritual experience under the rubric of cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term Cyber Worship is a catchall phrase which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.
