Hooks in Popular Music Tim Byron, Jadey O'Regan, 2022-11-22 This volume is the first book length study of hooks in popular music Hooks those memorable musical moments for listeners such as a riff or catchy

melodic phrase are arguably the guiding principle of much modern popular music The concept of the hook involves aspects of melody rhythm harmony production lyrical and cultural meaning and how these interact within a song s topline and backing track Hooks are also inherently related to the human capacities for memory and attention and interact with our previous experiences with music Understanding hooks in popular music requires a new interdisciplinary approach drawing from popular music studies pop musicology and music psychology and this book draws from each of these disciplines to understand the hooks present in a broad range of popular music styles from the last thirty years

Interactive Minds Paul B. Baltes, Ursula M. Staudinger, 1996-04-26 Interactive Minds harnesses both research and theory from several disciplines to study cognitive development in the social context of the life course

Tip-of-the-Tongue States and Related Phenomena Bennett L. Schwartz, Alan S. Brown, 2014-06-16 When the memory retrieval process breaks down people wonder exactly why and how such a thing occurs In many cases failed retrieval is accompanied by a tip of the tongue state a feeling that an unretrieved item is stored in memory Tip of the tongue states stand at the crossroads of several research traditions within cognitive science Some research focuses on the nature of the retrieval failure Other research tries to determine what tip of the tongue states can tell us about the organization of lexical memory what aspects of a word we can recall when we are otherwise unable to do so Still other research focuses on the nature of the experience Each perspective is represented in this book which presents the best theoretical and empirical work on these subjects Much of the work is cross disciplinary but the topics concern strong phenomenological states of knowing that are not accompanied by recall or recognition of the desired information
