A Grounded Theory of High Quality Leadership Programs Darin James Eich,2007

Developing Non-Hierarchical Leadership on Campus Shannon Faris,Kathleen McMahon,Charles Outcalt,2000-10-30 Many problems that plague modern American society including disappearance of community decaying inner cities racial tensions environmental degradation declining civic engagement and the increasing ineffectiveness of government to name a few are in many respects problems of leadership Leadership means not only what elected and appointed public officials do but also the critically important civic work performed by those individual citizens who are actively engaged in making a positive difference in society Clearly one of the major problems with contemporary civic life in America is that too few of our citizens are actively engaged in efforts to effect positive social change Educators seldom acknowledge higher education s possible contribution to these problems or the role that it might play in alleviating them Colleges and universities provide rich opportunities for developing leaders through the curriculum and co curriculum Co curricular experiences not only support and augment the students formal classroom and curricular experience but can also create powerful learning opportunities for leadership development through collaborative group projects that serve the institution or the community These projects can be implemented through service learning residential living community work and student organizations In the first section Alexander W Astin and Helen S Astin two of the most influential authors in education and co principal investigators for the research team that devised Social Change Model of Leadership Development share their insights on the model they helped create Also in this section other leading theoreticians

offer provocative and challenging insights into non hierarchical leadership The second section features case studies and other examples from the practical realm Contributions come from a wide array of programs and institutions from community colleges to Ivy League institutions to urban public universities Because campuses are increasingly diverse leadership programs must not only acknowledge but embrace the multiplicity of identities personified in their students Accordingly the next section offers essays and case studies on complex issues of intersection of leadership and identity The book concludes with two chapters essential for those seeking to access leadership development one focusing on the need for assessment the other containing an account of the first ever instrument designed specifically to assess non hierarchical leadership written by the creator of this instrument

Owen, 2015-02-25 Critically examine the intersections of learning and leadership Using L Dee Fink s taxonomy of significant learning as a scaffold experts in leadership education explain connections between emerging scholarship of teaching and learning and current trends in leadership how to develop a more complex understanding of the levers of leadership learning the environments that promote meaningful and measurable leadership learning and the evidence behind such a practice This volume examines the role of leadership educator the roles of authenticity being true to one s self and criticality in education interrogating beliefs and questioning power dynamics select learning theories and their implications for leadership learning and strategies for constructing leadership related learning outcomes and assessing leadership learning The Jossey Bass quarterly report series New Directions for Student Leadership explores leadership concepts and pedagogical topics of interest to high school and college leadership educators Issues are grounded in scholarship and feature practical applications and best practices in youth and adult leadership education

Student Leadership Development Melissa Cruz, 2017 The literature explored the impact that leadership based programs at universities can have on a student s leadership

development Topics such as leadership skills leadership identity mentorship and building student success were addressed Leadership based programs can help students develop and grow in higher education The opportunities they provide can help students become better prepared once they graduate by helping students gain valuable knowledge and skills that can later be used in their careers This research sought to investigate how leadership based programs at universities impact student leadership development In addition this research explored how mentorship can help students develop their leadership capacity and leadership skills The researcher conducted the study at Orchid University and used a mixed methods approach using both quantitative and qualitative methods to survey a population of undergraduate students involved in a leadership based program called the Learning by Leading Program The survey asked the students questions about their experience in a leadership based program and several questions regarding the leadership skills they have learned while participating in the program how they view their leadership identity and their staff mentors For the qualitative portion of the study the researcher holistically read all of the participants open ended responses and categorized them into meaningful groupings Once the groups were established the researcher then coded the data and interpreted the common themes revolving around each of the topics discussed The study confirms that participants are gaining important leadership skills as well as developing their own leadership identity through the opportunities provided in the Learning by Leading Program Overall participants in the Learning by Leading Program are being guided by their mentors to develop their leadership identity as well as development as a leader The results from this research provide a framework for leadership development and educators in higher education By understanding that every student is unique educators can engage with students in their leadership development process

Cultivating Leader Identity and Capacity in Students from Diverse Backgrounds

Kathy L. Guthrie, Tamara Bertrand Jones, Laura Osteen, Shouping Hu, 2013-10-09 A goal of higher education is to develop students into leaders capable of guiding modern society Too often though the leadership development curricula does not address the diversity of student populations a critical failing if the new leaders are to respond comprehensively to societal issues By addressing the intersection of undergraduate leadership development and student diversity this volume provides insight on effective programming and intentional interventions offering paths to optimize the development of all students identity and capacity to lead Table of Contents A Changing World Calling for New Leaders Defining Leadership Language and Guiding Models Diverse Student Identity and Capacity Development Environment Matters Exemplary Programs and Characteristics of Effective Practices Implications for Policy Practice and Future Research This is Volume 39 Issue 4 of the Jossey Bass publication ASHE Higher Education Report Each monograph in the series is the definitive analysis of a tough higher education problem based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication
