MLA Handbook for Writers of Research Papers Joseph Gibaldi, 1999

For nearly half a century, the style recommended by the Modern Language Association for scholarly manuscripts and student research papers has been widely adopted and required not only by journals and presses but also by schools, departments, and individual instructors. Since the publication of the first edition in 1977, the MLA Handbook has sold over four million copies worldwide. The fifth edition of the MLA Handbook is revamped for the Internet age. A complete toolbox for online research, this edition offers guidance in finding research materials online, judging the quality of information on the Internet, using expanded and updated MLA formats to document a wide variety of online sources, preparing texts in electronic form. The MLA Handbook's authoritative guidelines on research practices and MLA style are enhanced in other ways. New topics have been added, and citation examples, the list of suggested writing guides, and the appendix of reference works by field have been expanded and updated. The fifth edition serves as both a classroom text and a reference book for students and writers to use independently. Teachers and students of writing, literature, languages, philosophy, and other humanities fields will find this guide indispensable.
