Duty beyond the Battlefield Le'Trice D. Donaldson, 2020-02-07 In a bold departure from previous scholarship Le Trice D Donaldson locates the often overlooked era between the Civil War and the end of World War I as the beginning of black soldiers involvement in the long struggle for civil rights Donaldson traces the evolution of these soldiers as they used their military service to challenge white notions of an African American second class citizenry and forged a new identity as freedom fighters willing to demand the rights of full citizenship and manhood Through extensive research Donaldson not only illuminates this evolution but also interrogates the association between masculinity and citizenship and the ways in which performing manhood through military service influenced how these men struggled for racial uplift Following the Buffalo soldier units and two regular army infantry units from the frontier and the Mexican border to Mexico Cuba and the Philippines Donaldson investigates how these locations and the wars therein provide windows into how the soldiers struggles influenced black life and status within the United States Continuing to probe the idea of what it meant to be a military race man a man concerned with the uplift of the black race who followed the philosophy of progress Donaldson contrasts the histories of officers Henry Flipper and Charles Young two soldiers who saw their roles and responsibilities as black military officers very differently Duty beyond the Battlefield demonstrates that from the 1870s to 1920s military race men laid the foundation for the New Negro movement and the rise of Black Nationalism that influenced the future leaders of the twentieth century Civil Rights movement **Colorado's Volunteer Infantry in the Philippine Wars, 1898-1899** Geoffrey

Exile Waltraut Wiens,2021-03-12 In 1945 at the end of the Second World War thousands of women and children in West Prussia were forced to flee from their homes driven into the Unknown by a relentless enemy As hunger and bitter cold took the lives of their children mothers desperately sought a place of refuge Young and inexperienced women took up the fight against their own corrupt fascist government and four enemy armies called The Allies With courage and determination they forged their way to a new future for themselves and their descendants Today we face an enemy as formidable as any war Our institutions are crumbling as are the accompanying social economic ethical and environmental norms upon which we have come to rely As a global health pandemic rages and we become ever more politically intolerant many people will fall by the wayside Others like our foremothers steadfast and resolute will march on to the next chapter of the human story **The**

Genesis of Israel and Egypt Emmet Sweeney,2023-10-01 The Genesis of Israel and Egypt examines the earliest phase of historical consciousness in the ancient Near East looking in particular at the mysterious origins of Egypt s civilization and its links with Mesopotamia and the early Hebrews The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it The author Emmet Sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes events which had a profound effect upon the ancient peoples and left its mark upon their myths legends customs and religions Ideas found in all corners of the globe concepts such as dragon worship pyramid building and human sacrifice are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett Terrified and traumatized by the forces of nature people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods These events which are fundamental to any understanding of the first literate cultures have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world s great libraries Starting with clues unearthed by history sleuth Immanuel Velikovsky and others Emmet Sweeney takes the investigation further While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC about 2 000 years before those of China and the New World Ages in Alignment demonstrates that they had no 2 000 year head start All the ancient civilizations arose simultaneously around 1300 BC in the wake of a terrible natural catastrophe recalled in legend as the Flood or Deluge Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition This chronology had already been established in its present form by the third century BC when Jewish historians utilizing the History of Egypt by the Hellenistic author Manetho sought to tie in Egypt s history with that of the Bible Apparent gaps and weird repetitions resulted Improbable feats like the construction of major cut stone engineering projects before the advent of steel tools or Pythagorean geometry point to the weaknesses of the traditional view Taking a more rigorous approach and pointing to solid

evidence Emmet Sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times Volume 1 The Genesis of Israel and Egypt looks at the archaeological evidence for the Flood evidence now misinterpreted and ignored This volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the great migration which led groups of early Mesopotamians westward toward Egypt where they helped to establish Egyptian civilization This migration recalled in the biblical story of Abraham provides the first link between Egyptian and Hebrew histories The next link comes a few generations later with Imhotep the great seer who solved the crisis of a seven year famine by interpreting pharaoh Djoser s dream Imhotep is shown to be the same person as Joseph son of Jacob
